TUESDAY, JULY 28, 1885.

fertile land has not by any means as

yet reached its value. It is absurd to suppose that the purchasers at this Government land auction were all speculators, and that fancy prices were paid by people who knew nothing of the lands they bought. So far from this being the fact, we may mention that a French shop-keeper of Patagones, who came up to attend the auction to buy some lots of which he had the fullest particulars, was unable to buy a single league, prices having gone to more than double what he intended to pay. And it may be useful to rid the public of some very false notions about land auctions and the prices paid, since it is a great mistake to suppose that all these sales at very high prices are managed by brokers and others. At a recent large land auction, held by Messrs. Bullrich & Co, some 61 leagues of land in the Province of Santa Fe, near the Sunchales, and not far from the frontier line of Santiago del Estero were sold at the very high price o 9,600 m/n per league, which astonishe every one; and there was much remar about the price. We met by accident however, when returning from the Sta Fé railway inauguration an Italia: miller's son, who told us that h had intended to buy that land, h father, who is now in Europe, havi given him orders to do so. He attende the sale and bid up to 7,500 m/n pe league and then stopped, and now l regrets not having continued bidding

bought some land in Santa Fè from th London and River Plate Bank, which he afterwards sold to the late Do Simon Iriondo at a profit of over 50,000 Nats, and now the Iriono family were making more than doub out of their purchase. These facts g to show that in the dense crowd people at Bullrich's yard, on the or casion of these land auctions, there ar good bona fide buyers from all part and we accept the prices paid at this Go ernment land auction as the legitima value put on the lands by people wh hold superior information about then In connection with this subject we may advert to Mr. Brockett's statement in London last month at the Central Argentine Land Company's In moving the reception and adoption of the report, he thought he might venture to congratulate the

and taken the land at 10,000 m/n p

league. He said that his father

shareholders upon the sound and generally substantial position of the company. It was true that they had sold during the past year rather less land than they had in the previous year, but he thought that rather an advantage than otherwise, inasmuch as the price of land had risen, and there was no doubt but that in due time they should receive a larger price. In proof of this he might refer them to the general manager's report, where, under the head of land sales, he told them that the average price per acre in the past year in Santa Fe was 29s. 10d., and in the previous year it was 23s. 8d., which showed an increase during the year of 6s. 2d. per acre, or 26 per cent. In Cordova the average price during the past year was 9s. 11d. The average price in the previous year was 8s 2d, which showed an increase of 1s 9d, or 22 per cent on the price of the land. He thought he had better refer to the most disagreeable part of the report, and that was the suspension of specie payments which had been made on the other side. There was no doubt it had caused a great revolutionin monetary butmatters, that was subsiding rapidly, and he thought there was no doubt that in a short time-at all events in the course of a year-that they would find matters settled down very much more than they were before. He believed the sole cause of this disturbance of the currency had been the Government. The Government seeing the presperous state of the country were too sanguine. rying out. The consequence was that they had been straitened, and they had to suspend specie payments. The prosperity of the country was undoubted.

The consequence was that the province and they had to suspend specie payments. The prosperity of the country was undoubted.

The consequence was to reduce the province and they had the province and they had the province and they had the subjoined table will prove:—

The department has 15 inhabitants per square mile, 80 per to the construction of a Breakwater deficit, as the subjoined table will prove:—

The provincial Government of Buenos Aires inhabitants per square mile, 80 per to the construction of a Breakwater deficit, as the subjoined table will prove:—

As the law authorizes the Govern- gress. the next auction comes off. We may mates : __ add that scarcely any of the orders received from Europe to purchase have been filled owing to prices having far exceeded the limits.

THE NEW BUDGET.

Yesterday H. E. Dr. Pacheco, Minister of Finance, presented to Congress his estimates for the ensuing yearpaper of the most surpassing interest at the moment, owing to the critical state of the market, the "curso forzoso," the recent heavy export of specie, and the very general belief that the new Budget would present the country with a heavy deficit. Dr. Pacheco's message to Congress accompanying the estimates, which we Decrease do free of duty

give at foot, is a very able document, unsurpassed by any other finance stimulated production, which in certain that, if the second half-year pro-Minister that has preceded him. THE MONEY MARKET.

It would be difficult to find in any part of the world a market more subject to change than that of Buenos Ayres; changes the most wonderful and violent occur with such rapidity that it is impossible to form a fixed opinion on anything, and we have noted in our long experience of Bolsa affairs that those who have no fixed opinions and who go with every change, accommodating their views and opinions to every alteration, are generally speaking those who succeed best.

Within the last week we have all witnessed such veryremarkable changes in this market that it may be interesting to take a glance at the situation, and to explain if possible the under-

peaceable. Next followed telegrams an-'Bono general' to the Provincial Bank Of the public loans negotiated by Dr. for the 17 millions Nat. Bonds held by

keep the market, meantime, looks somewak at present quotations.

National Government has decided to the general bond on the 17 millions of obts to the Provincial Bank. As these lilions are comprised in a loan with insand sinking funds payable in gold, the will now be enabled to secure large adsonghths security. The Board expect to eight millions of dollars in London by on the secure large adsonghths security. The Board expect to eight millions of dollars in London by on this arrival from the province of Santa Fé where he has been survoying the route of the railway proposed to run from Lehmann colony through the great concession by granting the general concession by granting the general concession by granting the general which has been a bone of contention ancial quarters for many months past. The Mational Government makes a great concession by granting the general which has been a bone of contention ancial quarters for many months past. It was some talk on 'Change of this 17 in being re-converted into a home loan, his is chimerical as Congress passed a special winding to the last balance-sheets the wing is the gold reserve of the State St.

The meeting of shareholders of the Italian Bank was held yesterday, Mr. Devoto, President, in the chair. The attendance of shareholders was over the average, and all were in the wery best spirits on reading the balance-sheet, which we give hereunder. The net the State holders was over the average, and an were in the very best spirits on reading the balance-sheet, which we give hereunder. The net profits for the half year amount to 175,000m/n oro sellado, a dividend of 7 per cent gold for the half year was declared, after putting aside 50,000 m/n gold to the "fondo de prevision," which is a special reserve fund, and which now amounts to 180,000 m/n gold, in decendent of the ordinary reserve fund (which The meeting, after a pleasant speech from the President, then dissolved.

July 25th, 1885
The credits which the Provincial Bank has obtained through hypothecation of bonds amount to 70 million of francs, say 14 million National dollars. What with its gold reserve in this market and its credits abroad the Provincial Bank is in an exceptionally strong The estancia Pozo Grande in the Rio Quinto The estancia Fozo Grands in the did Guille department is reported sold for \$36,000 m/n. Sellers, Messrs Gonsalez; buyer, Mr F Diaz. Eight hundred head of cattle have been sold in the Province of Cordoba, the cows with calf 571,000 £160,248 8,410,752 mprovement and Riachuelo Works. tegociated.

00,000 6,100 4,001,256 more solution of the five the five that 20 m/n and the 'novillos' at 2 i m/n. The produce markets rule very dull. The sudden fluctuations in the gold premium render transactions in produce difficult and very produce of Cordoba, the cows with call at 20 m/n and the 'novillos' at 2 i m/n.

The produce markets rule very dull. The sudden fluctuations in the gold premium render transactions in produce difficult and very produce of Cordoba, the cows with call at 20 m/n and the 'novillos' at 2 i m/n. Freights are dull and brokers report a much greater stagnation than is usual at this time of the year. The close of the "saladero faena" increases the gloom and shippers are now dependent on the export of cereals which E. B. Godov. are going forward slowly. No activity ca In circula-tion. be expected in shipping circles until the end of October, when the new wool comes in the Messrs P Luro & Sons have sold 12,000

Still further Testimony of the Efficacy of the Glycerine Dip.

MERCEDES, April 3rd 1885. Messrs. Moore & Tudor

Buenos Aires.

Dear Sirs

I think it my duty to communicate through you to Messrs.

CIVOERINE DIP

end of this month. Under these circumstances the bulls may manage to hold their ground up to the end of the month, but the outlook is very bearish for August, although a great speculation is on foot to push the market upthat I have used the said DIP for many years, and that you being agents in this country for sale of same I hereby declare that I consider it the TOTO TOTO TO THE SAME TO THE that I consider it the BEST DIP for the complete cure the settlement.

Operations in gold for cash embraced one of Scab, Footrot, and Maggots; and I should likewise add that hundred thousand dollars; the market opened some years we have had small pox amongst the lambs, and can guarantee that dipping them with the same mixture as used for morrow at 33 and 32.80. Over \$200,000 were scab, the result is splendid. Therefore I have much pleasure in sold for the end of the month; rates opened at 32, advanced to 32.80, and closed at 32.60. PHEATRE DE GAITE, SKATING RINK. issuing this testimonial in your favor.

I have the pleasure of remaining yours truly JOSE H. ARCE

July 27th, 1885 National Bank Shares.... 145 Nat. Bank Scrip 60 o/o ... 95 193 waggons arrived with produce. The arrivals were :-

The gold market opened this morning with all the visible symptoms of a firm reaction and, but for the news that the National Bank would begin drawing exchange to-morrow, the premium on gold would have risen considerably. Compared with Saturday night's closing prices, the premium advanced to-day 1 to $1\frac{1}{2}$ 0/0, but it is doubtful if the advance can be maintained, as everything conspires to produce a fall. The rise was unexpected and took everybody by surprise. The main cause of the advance is traced to the great scarcity of gold, the paucity of sellers, and to the large gold bills falling due at all the Banks at the end of this month. Under these circumstances

ON 'CHANGE.

About \$400,000 were sold for the end of August, prices opening at 31.50, rising to 32, and closing at 31.70. The difference between rates for the 30th and for the end of August ontinues to increase and soon 1 o/o will be paid by speculators who are anxious to carry over. Holders of specie are already reaping a golden harvest in interest on paper and the difference on the gold. Operations during official hours amounted to \$746,700 m/n.

There is a visible corner in Cedulas of the following:—50 waggor.

The great of the first product of the following:—50 to magnetic the following:—5 F issue. The speculators who sold short, on the strength of the announcement that new Cedulas would be issued, are now caught in

and they are obliged to buy back at advancing rates. Every fresh purchase puts up the mar-ket, and it is remarkable to note how scarce the stock has become in the hall. The Bolsa o-day does not hold half-a-million Cedulas. of the National Bank were sold at 95 for cash and 96½ for the end of August. One hundred paid-up shares of the Nat. Bank were sold for The exchange market quiet, but the situa-tion this morning looked a shade weaker than ast Saturday. Some drawers fell back to 65d; there are, however, numerous drawers

at 463d. Takers are scarce even at this rate. Francs are quoted at the current rates from 1.90 to 4.93. The National Bank did not draw to-day, but is expected to begin operations to-morrow and to continue same daily, keeping its exchange office always open, and drawing at the rates of the market. This will be a great help to the situation and must affect the premium on gold and speculation on 'Change. The Provincial Bank will enter the market in August. The most remarkable feature about all this exchange news is that the premium on gold instead of falling, as ogically expected, ruled firm all day. The money market shews the usual features.

with paper money. Government Bills are in demand at 80/0, but there is little doing for the present. Capitalists offer the Government paper at 70/0 at 90 and 120 days Gold is scarce, and all the Banks are increasing their reserves. Speculation on Change offers holders of crylld excellent interest from months. The British steamer Kaikowra, on the New Zealand route, made the run from Lyttleton in the United States; and from the many certificates of cures we are forced to conclude it.

This influx ought to put gold down 10 o/o.

The rise in the value of real estate in this city is unprecedented. In our last issue we announced the sale of the Blaya property at auction for nearly double the upset price.

To-day the sale of a property in Calle Cangallo, No. 512, is announced for \$20,300 m/n. One lot, 4 leagues, of National land in the upset price at the auction was \$11,000 m/n. Calle Callao No. 576, 7x42 mts., 4,000 m/n. Calle Callao No. 576, 7x42 mts., 4,000 m/n. Calle Santa Fe No. 630, 12x60 mts., 40,000 nacionales.

Exchange on B. Ayres is quoted at 24 o/o. European exchange is quiet; banks are the only drawers for the moment.
