The school is situated in the most healthy suburb of Monttevideo, and is specially suitable for boarders. The dormitories are fitted up with cubicles in the style of the best English Schools, securing the maximum of comfort and privacy. There is a large garden, and an excellent enclosed play ground, with a cricket field adjoining; also covered sheds for recreation in wet weather. The class-rooms are large and airy, and overlook the play-ground and cricket field.

For terms and research For terms and prospectus apply to Mr H. Irwine Whitty, English Club, Montevideo, or at the School, Quinta de los Tres Molinos, Union Road; also at this office.

JARRIL Dysentery, Cholera Fever, Ague Coughs, Colds, &c.

Dr J. Collis Browne's Chlorodyne (Ex Army Medical Staff) IS THE ORIGINAL AND ONLY GENUINE. CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—See Times, July 12th 1864.

The Public, therefore, are cautioned against using any other than Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the segretions of the body without creating any of these upplessant results at

of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable profession and incorrectly of the most wonderful and valuable profession and incorrectly of the most wonderful and valuable profession. CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, CHLORODYNE effectually cheeks and arrests too often fatal diseases Diphtheria Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhoæ, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Geut Cancer Toothache, Meningites, &c.

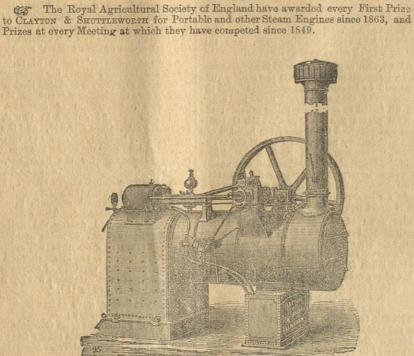

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan-5th 1880. To J. T. Davernport, Esq., 22, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congralulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWME'S CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Angler-Indian home. The other brands, we are happy to say, are now relegated to lo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances ad infinitum of the extraordinary efficacy of DR. GOLLIS BROWNE S CHLORODYNE in Diarrhoea, and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

CAUTION—None genuine without the words 'Dr J. Collis Browne or the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Many parties, in anticipation of a rise in exchange rates have telegraphed to Europe to send out gold, as it pays to ship specie to this country with an exchange rate here of 48d on London. The rise in exchange is a most hopeful sign, and is considered by many the turning point in the crisis. The market is no longer fettered by the demands of the Government, of the State Banks, and of a panicstruck situation as was the case this time last year; affairs are now on a level that enables us to see a silver lining to the black cloud of the crisis. What with the gold coming out us to see a silver lining to the black cloud of the crisis. What with the gold coming out for private account and for the Government next month, and that expected to be shipped for the Madero port in March, we may say that affairs are on the mend. The trade figures of this year will show an exportation of at least one hundred million national dollars and a balance in favor of the country. Wools are now beginning to move off quickly; the demand for good qualities is strong and buyers are numerous.

Some Patagonia wcols are in the market; they are been account and for the Governments be satisfactorily concluded, the Pacific Railway Co. intend running a double line on the Northern up to the Central Station. The Andine Railway Co. have a ked the Government for 200,000 dollars to finish the works to the city of San Juan. The amount will be paid through the Finance Department. The financial advices from London by the mail are so:—

"Events in Eastern Roumelia had a depressing effect upon all stocks, but the market has now recovered its former tone, and values have since generally improved. As regards

Some Patagonia wools are in the market; have since generally improved. As regards they are heavy and very dirty. Affairs in Barracas and in the Boca to-day whole is more favourable. Argentines, howwere far worse than yesterday. The stench from the putrid waters of the river was so material change, the only difference being that strong that several subscribers could stand it the Railway Loan of 1881 is 10/0 higher, no longer and came into town. Millions of dead fish floating in the waters threaten the place with some epidemic, if not at once removed. We would advise the public to alunchanged, with exception of the new loan, stain from fish for a few days. The waters of which has fluctuated somewhat, from 1 pre-

the river have assumed a dark color, and one would think from the stench that they had been mixed with sulphuric acid. The City Analyst should report on the causes of this pollution.

which has incutated somewhat, from 1 premium to ½ discount. It is currently reported that a large new loan for Chili will be launched before long. Peruvians better, presumably in view of the arrival here of a Special Envoy from Santiago. A fall of 2 has to be noted in the course of the course The main cause of the rise in exchange is the strong clique, formed to bull the gold market. This clique is formed of very strong market. This clique is formed of very strong parties and their great ambition is to shave the market, as they hold nearly all the gold, outside the State Banks, in their hands. The stiff differences they ask from the unfortunate bears on borrowed gold put the boom into the exchange market, and the rise in the tide is increased by the activity at present visible in large and stocks and shares, a continuous and steady fall is observable in those of the Buenos Ayres Great Southern, which are 30/0 lower than at the date of our last issue. A sharp fall has also occurred in Central Argentines, which are quite 5 below our former quotation. Buenos Ayres and Rosario 1 lower. increased by the activity at present visible in the produce markets. The State Banks, it is breazed by the activity at present visine in the produce markets. The State Banks, it is mored, will begin drawing soon, and this ill be a fresh spurt in the situation.

Brazilian railways steady, with the exception of Alagoas, which show a reduction of 1 since the publication of the directors' report. will be a fresh spurt in the ituation. At afterhours gold presented the appearan Ayres and Rosario, issued for presentation at an impending break. All the strong bu amour was that some great news had com ut we failed to get at anything reliable; t

the general meeting, it is stated that the gross receipts for the half-year ending 30th-June last, with a conversion of currency at the fixed rate of 5.04 dollars to the £, as in were said to be selling out underhand, and the general report was however that the Government had received telegrams from London of a most satisfactory nature, and would draw exmost satisfactory nature, and would draw exchange for large amounts. Gold was sold first at 146½ for end of month, then 146, and finally no more buyers at that rate, sellers offering on all sides. One of the strongest brokers sold freely for to-morrow at 48, and offered more, but it could not be placed.

The news of the great wool sale in the South Market to-day at 128 ½ per arr. spread like wild fire on the Bolsa, the wool is from the Lezama station, and the buyer Messrs. the Lezama station, and the buyer Messrs. Hardt, Koch & Co. the half-year for carriage of company's material, &c., for the extension works, has only amounted to £1,642 8s 11d."

the delay in getting to work. The Board of Directors is a very influential one, and as there are not any houses to let in Rosario where rents are as high, if not higher, than in Buenos Ayres, this society has a great future before it. The shares are \$100 each, \$20 being payable on allotment and \$10 per month until fully paid up. Applications for shares are to be made to Mr. Mallet, British Vice Consul

made to Mr. Mallet, British Vice-Consul, In the Italian steamers Perseo and Bisagno, of the Florio and Rubattino line, 1,900 immigrants arrived yesterday in Montevideo, all from Genoa. The immigrants that came out on board the Equateur are expected here to-day from San Fernando. The Immigration Office sent up the rivers yesterday 30 Italians. The demand for labourers at the National Office is much above the supply. The unfortunate immigrants who arrived in the steamers Umberto Io and Napoli, and were sent to Martin Garcia to be "aired", should have been landed at San Fernando last Monday, but owing to want of tug-boats did not arrive
