Governor D'Amico is going to Montevideo for a fortnight. We know lots of people who are going for three or four fortnights.

An Englishwoman made a daring attempt on Sunday to escape from the Casa de Ejercicios, where she is confined on the demand of her husband. She pluckily let herself drop from a height of 18 feet into the street, but fractured her right foot in the fall and could not move away, so was recap-

the hooks, or was even scratched. Governor D'Amico's numerous friends intend to give him, on the approaching anniversary, of his first appearance in this world, a magnificent collection of coins that has cost 30,000 pats. There are 600 coins dated before the Christian Era, a gold English ounce of James the First, and Phoenician coins forty centuries old. Coins are like old blue china, most deceptive. Brummagem turns out millions of imitation old coins every year. They say, however, that there is not a single coin of this kind in the collection to be pre-

Telegrams from London are expected; the first series is to be launched to morrow.

The first troop of 'novillos' for saladero was bought to-day in the Corrales by Rocca. The Provincial balance-sheet, which we rive at foot, will prove a surprise to the mar-tet, since the figures show that, spite of all he noise and fuss made about the Bank reting its emission, and the extraordinary ghtness of money, the emission of the Pro-ncial Bank stands the same as in the previous th, and the very current rumour that the Bank had withdrawn 3 millions m/n of its otes in November turns out to be pure bosh The matter has given rise to much comment 'Change, and most people ask for explanation of the Bank figures. It appears to us that either the Bank collects nothing and dis-Descuentos de tierras

ounts nothing, or that the "Contaduria" of the establishment is not properly understood in the market. Everyone on the Bolsa expected atement this month down to 18 millions m/n; nt the balance-sheet before us gives over 21 illions. The question then which naturally ere have the Provincial Bank notes gone to, ince in this market they have become even carcer than gold Argentinos? It is possible Casa central y sucurhat the Provincial Bank notes remain outside in the camp, where owing to the wool season, they are in constant and active demand. But we note the extraordinary feature of this balance-sheet, namely, that the Bank, in La Plata and its various branches only holds 2,213,248 m/n of its own notes, whilst it holds

,130,836 of National Bank notes in the Bank For the Cure and Prevention here. Here then we discover that extract must be some mistake in the figures, or that in the camp and country towns of B. Ayres there are 20 millions m/n Provincial Bank notes in circulation, which would leave a ba-Set. 1881

Por Fondos Publicos ance of 11 million notes in this city, which in the opinion of bankers is the very utmost in this market. The total amount of gold checks of the Bank out is marked at 791,603, and the total gold deposits by the public in the Bank are but 153,716 against 85,187,599 m/n in paper. These, indeed, are most eloquent figures and point to the real tone of this market outside of Bolsa circles. Of the total issue of national dollars by the Bank—29,795,050—only 6,535,478 have so far been withdrawn

from circulation. The great tightness in our money market we think is attributable to other causes than those so freely assigned by the savans of the Bolsa. The fact and figures

The fact and figures stand, and the sequence is that the country and its trade, population and production are growing so fast that what six months ago was a superabundant supply is to-day far short of the legitimate demands of business.
