THE DIPPING SEASON.

Under the above heading, the following appears in a been just received from Dr. Plaza, London, do 1st recent exchange:-

"Speaking of Dips themselves, perhaps the most significant feature in their History is the way that the Old fashioned have been superseded by the more "Modern and Scientific preparations. As Tobacco gave place to the various "Fluids" and these again to the "Powders" so we find to day these latter retiring before the new Paste Dips. Of the many recent experiments we have witnessed in England and the Colonies, the most successful were with an Arsenical Paste, manufactured by "Tomlinson and Hayward, of Lincoln, a firm that has always been noted for keeping breast of the times."

breast of the times."

"The advantages of the Paste over the "Powders" are many:—

"It does not make the worl dry and harsh, but leaves it soft and silky, giving a healthy sweet smell to the sheep. Being, so to speak, already mixed, it is easier to prepare there, being no waste nor loose "Powders," to fly about.

"As it is prepared with Carbonic it is lighter than the "Powders" and does not great pointical cloud over the market will, however, be removed on the arrival of "so readily settle to the bottom, and for the same reason it is not injurious to the however, be removed on the arrival of hands. It goes in less space and is a more concentrated form than the "Powders," thus effecting an economy in transport and labour. It costs less, and will mix with any kind of water. In a word, it is the "Powders," cleared of their many inherent defects, with their curative properties and good, qualities preserved and increased. defects, with their curative properties and good qualities preserved and increased. Will be effected, and it is hinted that Dr. Don Eduardo Costa will be the coalition Until the manufacturers nake some better discovery

ON 'CHANGE,

EXCHANGE RATES-France 1.46 fcs. Germany..... 1.18 marks 1.461 fcs. Gold equivalent...... 341.00 Tuesday, February 24th.
The first news on 'Change to-day was

that Mr. Casares, the president of the National Bank, had received official advice from the Government that telegrams had had been finally and satisfactorily conclu-Presidential candidate, which would be an arrangement highly satisfactory to all parties and lead to the reconstruction of the country's credit. The present state of the money market is more difficult than

uestion now is where the funds required The market was again in a semi-comatose condition, and it seems that the feverish excitement of last week has been succeeded by a relapse into lethargy. Even the telegrams from London about the loan were powerless to put any life into business. National Bank shares were decidedly weaker at the first hour, declining to 84 for cash, 85 for March 15 and 84 end of month, closing with sellers. The synlicate which was lately operating in this stock has disappeared for the moment, and this caused the slackness, but it is not known if they have sold their shares yet and gone out of the market altogether. Even as matters stand at present they have made a handsome profit by the fall in gold and rise in the shares. Cedulas were pretty fairly dealt in, but operations were not on a heavy scale and quotations just held their own, which was also the case with Catalinas and Constructors. Some agricola Comercial shares changed hands at 25, and a small lot of Bolsa Bank found a buyer at 38. Gold fluctuated down to 350

is getting searcer every day, and the great

has been altered to Zenon Nazar and Co., Mr. M. H. Hervey, Special Correspondent of the Times, London, has arrived per ss. Portugal, and comes up to this city to-morrow. He comes at a critical moment. but the state of siege will not interfere with

Circulars were handed round to-day an-

nouncing that the firm of Zenon Nazar

The Port Works, we are happy to say, are progressing admirably. Mr. Walker, we understand, has at present four thousand men at work, and now they are working hard and fast at the north channel or basin, which will be in front of the old Gas-works. Very soon people will have a splendid carriage drive on the outer walls extending from Calle Cordoba to the Darsena, a fine boulevard, 40 yards wide with parapets and rows of trees on each side, forming one of the most charming promenades in the Plate. With much easure we state that we hear from London there is plenty of money to finish

these splendid works.

The exchange market was brisker to day and a large amount in bills was passed for During the second hour nothing else was discussed except the loan; yet, strange to say, although there seems to be no lon any room for doubting the authenticity the news, gold keeps strongly firm, which sets everybody wondering, as it was thought that the news would have brought the market tumbling down. Whether To effect a clearance of remaining Summer Goods, we are gold closed firm at 351,50. National Bank

> showed no change, Cedulas were quiet and a trifle weaker. The following is a summary of the busness effected in stocks during the second National Bank Shares-February 25th 2500 at 82-82.50-81.50 Catalinas Moles-February 25th 7100 at 16.60-70-50-60 February 27th 400 at 16.60

278 jan. 10 may 10 Wolseley Sheep Shearing Machine Company, limited.

Cabaña del Rincon,

Propiedad del Señor Don Tomas Bell, Estacion Pereira, 18th Sept. 1890. Messrs, Agar Cross & Co.

Dear Sirs, I have great pleasure in reporting favourably of your "Wolseley Sheep Shearing Machine." Up to date we have shorn upwards of 300 Lincoln Rams and Borregas, and find it quite up to our expectations. It is simply and easily handled, and in no way complicated or difficult to understand or work, and so far it has never been out of order.

PASSAGE TO ENGLAND—A young person wishing to return to England will give her service in return for passage. Apply C A Standard Office. It shears the sheep beautifully it does them quicker and considerably better than it is possible to get them done by hand, and saves the poor animal a great amount of abuse. I have timed our Amatour Shearer here, and find he can shear upwards of

eight in the hour. Consequently, I consider the Wolseley Machine one of the best GTISIS patents I have yet seen, in proof of which I intend having some more put up at an early date.

Yours very truly, WILLIAM RIDDICK.

THE ORIGINAL AND ONLY GENUINE! Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cho-CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpi-

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Januar 5 1880. To J. T. Davenprt, Esq., 33, Great Russel Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the wide-spread reputation this justly esteemed medecine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Coll's Browness Chlorodyne in Diarrhoea and Dysentery, Sapasms, Crampas, Neuralga, the Vomitng of Pregnancy, and as a general sedative that have occurred under our personal observation during many years. In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed is surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public as we are of opinion that the substitution of any other than Collis Browne is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of he Pharm. Society of Great Britain, His Excellency the Vicercy's Chemists
