Thursday, Jan. 21st.

The Mendoza murders did not prouce much impression on 'Change this Mendoza Executive and Legislature nust necessarily end in something nore serious than a mere street row he finale must be either revolution or national intervention; but whether the ne or the other, we fail to see how the gold markethere can be much influenced by local intrigues at the foot of the Andes. Much as the murder of two or three representative people in Mendoza is to be deplored, it cannot be concealed that people here feared a much more serious outbreak and a much heavier oss of human life. It is understood that the National Government will intervene in the province in order to prevent further bloodshed; in fact, it would have been better if the Government had nterfered last week, as its intervention might have prevented yesterday's street murders. Politics in Mendoza have ust now restore order in this Argen-

At one o'clock the morning the first showers took ce, accompanied by a few hail-stones ning and thunder were incessan. out the heavy rain did not come down ill three a.m. A loud thunderbolt shook came down in sheets, deluging the streets. The wind put out the gas lights in many streets a little past midnight y between the Tigre and San Fer-≥ eather will continue; in many tricts farmers were preparing to take away animals owing to the drought. Although it blew heavily during the night, no casualties were reported in the Roads this morning. Some old houses and walls were blown down at San Fernands, and of few pages in productions.

It appears that there is some founda-ion to the report that somebody has made an offer to negotiate a £10,000,000 stg. loan for the Government in exange for a fifty years' monopo'y of paceo and wax-match manufacturing the republic: it is understood that the n millions sterling will be given to the overnment in payment of the monopo-y. In other words a business is proosed, whereby a certain amount of

money may or may not be secured on the merits of that business. The word nonopoly is quite sufficient to damn the roject in the eyes of the public. Telegrams from the rural districts

announce that it rained heavily at Lomas, San Vicente, Jeppener, Chascomus,

ando and a few-people were injured. o damages were reported in the city. The French packet will leave to-morrow. The exchange mail will not amount to much, as the bulk of business was effected by the R.M.S. Clyde which left

Some small craft went to the bottom. The national telegraph lines were interrupted in all directions. The ordinary meeting of the share-holders of the Spanish Bank has been put off till the 25th February. One thousand fat steers, from an estancia in the North of the province, are reported sold for saladero at 38 dollars The British barque Oaklands has been engaged to take a cargo of mules to South Africa. These animals will be embarked at the Boca. Wheat in Rosario is quoted at \$11.80 to \$12.40 per 100 kilos. The steamers
Julio and Aidama have been engaged to load 1700 tons of wheat each for ac- ketcount of Messrs. Maumus and Dodero. Wheat in this market is much firmer, as arrivals are no longer so heavy. The Pacific steamer Britannia, from Liverpool, left Rio to-day; she is post ed to leave Montevideo on the 26th for the In the afternoon it was reported that the state of affairs in Mendoza was very serious. The lives of the principal ci tizens in the Andine city were threat ened by the mob, and groups had been detached to murder General Ortega and several Deputies and other politicians. It is much to be feared that fresh murders will take place before the National Government can exert any forcible interference. At all events, should fresh massacres take place, it will then bedoza Legislature.
