ON 'CHANGE, Saturday, September 17th 1892 Gold ruled steady this morning, but did ot advance, in spite of the requirenents of the weekly settlement and the larming rumors spread with regard to the critical state of politics. Ever since our German friends turned round to "bull" the premium, the market has been full of queer rumors. Germans at the ring are credited with a keener political scent than other nationalities, and the fact of the whole German phalanx veering round to buy may account for the many strange rumors circulated. There squite a legion of small dabblers who watch every movement of the keen Germans and act accordingly; such is the faith pinned in the foresight of the

German broker that even the leading Argentine, sporting superior information, does not enjoy the same prestige and influence. The wonder is that the market did not flare up like a rocket this Since last night some alarming runors have been floated, probably to inence the market. The first "canard" was that the prospective Saenz Peña Cabinet was in the throes of a crisis, that Dr. Romero had backed out, that Dr Victorica had raised difficulties, and that Dr. Luis Saenz Peña, the prospective President of the Republic, was much disgusted at the sudden turn in affairs. All these reports may be traced to the columns of the press, and, we hear on good authority, have not a shadow of foundation beyond the wish being father to the thought. The second "bola," dished for the benefit of the

of impending disturbances in this city the old tune has been repeated "ad nauseam," and not even the announcement that the troops at Santa Catalina racks here could make it palatable to Another report was rampant about impending changes in La Plata. The rumor was considered plausible, confirmed by the news that a few policemen in Mercedes had thrown up the "poncho" and abandoned the prison guard. This was known on'Change at

noon when the first ring opened, yet so

little importance was attached to the news that gold did not advance more

than ten cents. In fact the gold mar-ket is very incredulous; it rises slowly, but does not rush into a panic on the strength of bullish advices and reports; the situation is very firm, but nothing Gold was in steady demand for the settlement, but the supply was adequate and no shortage took place. Eighteen thousand ounces changed hands at the first ring: the price opened at 53.50\$, rose to 53,60\$, and closed at 53.50\$, say 228.72% premium. As will be seen the market rose only ten cents, to fall again to the opening price, and this in the face of a most remarkable array of alarming rumors; the real fact is that the wideawakes bought the day before yesterday and have been letting go during the slightrise, raking in margins of a few

Catalinas were weak, closing at 10.70. panish Bank shares were firm at 107 nd Old Gas shares at 86. La Plata Ceulas fell away to 29.80 and 29.70. Lots of Bonos were bought up yesteray evening and this morning on spelation, which put up their price one oint; but as for Cedulas it is difficult suppose any much greater fall, since ne London market must know all about this as well as people here.
