Nothing in this country has grown so all ful ar Pfast and promises such steady and great during s.s development as the export of live-stock to Brazil and Europe. We call the attention of the public to the Rissetophe show, which is indeed a treat, and for those interested in that old game draughts they could do nothing better than compete with the silent Turk.

The unfortunate letter-carriers had an awful two days of it on the 31st and 1st and looked terribly done up yesterday Most of them walked the soles off their boots, and considered themselves lucky that the soles of their feet and their immortal souls had survived the ordeal. On Tuesday they delivered 133,000 and on Wednesday 215,000 letters. The P. M. G. intends giving them all some shin plasters as a N. Y. G., and they well de_ serve it, always provided that they steer clear of poetry, into which postmen in all countries have an uncrushable habit of rushing at this time of year.

There are about 500 men on strike, but as from all National, Provincial and Munimany more remain at work. They demand a day of 8 hours instead of 14, as at present. The large employers Lussich, Escofet and others declare they won't yield, and the strikers say the same on their side. There is an earthquake-cumtidal-wave feeling in shipping circles.

Thursday, January 2nd 1896.

Gold Premium. FIRST RING 280.30%

SECOND RING..... 230.30% The New Year on'Change opened this morning with a dull and bullish gold market. Two hundred thousand gold dollars changed hands for cash at the first ring; the premium opened at 229.40%, fell to 229.20%, rose sharply, and closed at 230.30%. One hundred thousand dollars were sold for the end of the month: the premium opened at 231%, rose steadily, and closed at 232.50%, over two points contango. Business for Saturday embraced ninety thousand dollars: the premium opened at 229.60%, fell to 219.20%, and closed at 230%. A bagatelle was sold for the end of February at 233.50%. The firmness of the gold market was a surprise as the majority looked forward to prise, as the majority looked forward to a fall after Tuesday's liquidation. The total turn-over in gold this morning did not much exceed half a million—a very

dull beginning for 1896. Stocks and shares were still duller. National Cedulas F were quoted at 80.50, excoupon. La Plata Cedulas were steady at 17.70. Internal Bonds of 1892 were posted at 76 and shares of the Banco del omercio at 65.50.

40,828 The starting of the new year as usual rings a number of changes in business circles. according to the circulars handed round to-day. Mr. W. C. Wauer retires from the produce firm of Mr. A Tewes, on termination of contract, and starts for aimself in same line at Reconquista 212. The old leading import firm of W. Paats and Co, have given full power-of-attorney to Mr. Cornelius Paats. Mr. John De Lisle of Rosario, who has a wide circle of friends here, announces by circular that he has started as general accountant and auditor, and is sure to have his hands full. And lastly we note that a tiny 20x10 centimetre colleague is fluttering its wings and will keep the market going in stock and gold quotations generally, if the market will only keep it going by general support; judging by the specimen copy handed round it will be a very useful little paper. Later on circulars were distributed We caution all those who are found falsifying Laidlaw's Tobacco Powder

Advices from Paraná report the meteorological outlook still so watery that the farmers are shivering in their alpargatas, as with a week's more rain there will be no harvesting required. The damage already caused by hail and rain is estimated at 20% and the locust seems to have increased appetite after every shower.

In Salta they do not seem to be in such as many suppose. During month of December the bank discounted \$125,000, bought drafts for \$160,000 and drew for \$60,000. The exports of live-stock to Chile and Bolivia during the month were 773 oxen, whilst 1200 were despatched for Tucuman, leaving a big stock still available. The majority of the business houses have struck their yearly balance with very satisfactory results. The exports for the month of December were tanned hides 1500, tobacco 11,170 kilos, 79 tons borax, 23,700 kilos minerals, 16,000 litres of minor importances. litres of wine, 48,000 kilos of maize and ment to the Credito Publico Office
