FIRST RING 220.80% SECOND RING..... 220.50%

Contrary to expectations, on the very eve of the monthly settlement, the gold market ruled comparatively dull this morning, the turn-over at the first ring not amounting to eight hundred thousand dollars. Business in gold for cash embraced a quarter of a million; the premium opened in a fainting condition at 219.50%, fell to 219%, then rallied and rose swiftly to to 220.80%, closing rate. Two hundred thousand dollars were sold for to-morrow; the premium opened at 219.50%, fell to 219%, rose to 220.70%, and closed at 220.50%. Fifty thousand dollars were sold for the end of February; the premium opened at 222%, and closed at 224. %—say 3% points contango. A small business was done for end of March; the premium opened at 224%, and closed at 226.50%, and at 227% for end of April. The gold market closed in the midst of a slight bullish rally, as it there were some shortage" in the account.

Viewed in the light of to-day's speculation the month's settlement promises to go off smoothly. The "pase" paid shows a slight squeeze in the carry-over, and it is quite evident that many people are hanging on to the gold with their teeth. We wonder how much gold will be withdrawn from the liquidation to-morrow. The average weekly withdrawal this month, including the forthnightly scttlement, has been at the rate of half a million dol-

operations in wheat, which if not cut counts as nothing. By this we do not mean to say that there is no demand, on \$70,000 for distribution amongst board and shareholders, the directors propose to pay a dividend of \$1.90 per share, or say 15%. These figures are eloquent proof of the very prosperous state of the company, and we congratulate Mr. Josué Moreno, the director general, on being able to lay before the shareholders such a satisfactory documeat. It is a prima facie compliment, so to speak, to his own shillings. The Estrella is keeping page and shareholders where the decision of the Rosario Custom and the contrary, wheat is looked for, but at current rates. The port is filled with vessels awaiting shipments, which owing to previous charters are bound to be met with. Owners of cereals are perfectly aware of this, and hold out for prices, which are beyond the grasp of export. Several sales were reported at \$7.05, 7.10 and 7.15, the current price, however, is only 7 dollars. Operations yesterday satisfactory document. It is a prima facte compliment, so to speak, to his own abilities. The Estrella is keeping pace with the country, which is the highest compliment we can pay its Board.

The Minister of the interior has agreed to the site selected by Messrs E. Pinarold and 7.15, the current price, however, is only 7 dollars. Operations yesterday reached 1,500 tons, no sales being made "a plazo." Mr. Simon Weile, the well known exporter, is at present loading 40,000 bags of wheat per eteamer Alcistance.

The Custom-House receipts to-day gate.

Maize is still in the same boat, prices have not changed; the principal operation was one of 3,500 bags yellow, superior, at 3.10 in the port; the rates for the other qualities are still between 2.30 31,775 the other qualities are operated on a up to date...... 5,776,976 S21,491
The Minister of Finance has fixed the price of gold for payment of Customs dues at 320 for Friday January 31st.

No marked difference has been noticed No marked difference has been noticed in the Montevidean wheat markets, if anythingtherates tend towards a fall as the arrivals are far superior to the demand. Messrs. Risso Patron & Co. report the As long as the supply was limited, exscribers interested are effusively invited to envelope themselves in it.

Union Telefonica 1096. The bright, moving picture of the country's trade, commerce and production on the opening year consoles us with the contract of the contract o error and independent of individual in- for Dunkirk and Whetstone for Antwerp.

Ti above lines, queed from The Charente from M STANDARD of 3rd inst., are the true expression of our sentiments respecting the present position and expected future of the country, if we are to judge from what has occurred to us, as a minute fraction in its common wealth, during the year that has expired, and the hopeful advent of the new ene on which we have entered.

Steamer Shipper

If we take our branch of trade, and in stance our business in particular, we hav to admit that the prospects as regards th country at large are not at all exaggerate in the transcript we have made us of, the increase in our concern has been b yond our most sanguine expectations du ing the old year, and, on the eve of the new one, promise is given of a very sati factory augmentation.

To keep pace, therefore, with this hope ful state of affairs we have made amp provision, and our stock, which is alway kept in adequate supply, will be period cally increased with every novelty to me the increasing requirements of the year.
