his machine has been specially designed for the Colonies and other new countries, for cutting strong thistles, fer and light scrub on rough land, and has been most successful in Autralasia and South America. It has very high wheels and is of great strength combined with lightness in draught. The cutting apparatus consists of 2 sets of knives, one set fixed to the Bar in place of the Fingers, and the other driven by the Crank plate and connecting Rod in the usual way.

The unanimous verdict of all who have worked this machine is that it is the Most useful and economical implement on the estancia."

National Bank Certificates look blooming, and the report of the Committee, in proposing to give back to the Bank the half of its profits, sold: 4,426 acres. Farm lands unsold: 69,043 acres. has put new life into its stock. It seems now an ascertained fact that Congress will give the Bank liberty to emit up to the term of its charter, which means for the present 36 its charter, which means for the present 36 millions, and later on up to 40 millions. The Tamar brings £200,000 for the National Bank, which will greatly strengthen its specie reserve.

Aggregate of land sold: 91,303 acres.

Appropriated for towns. A portion only sold: 2,710 acres. The Provincial Bank report for the last year s out and is replete with the most interesting and astonishing figures. The profits during the year have been added to the capital, which increases the capital by 1,599,197 m/n. Th

capital now stands at 34,800,178 m/n. The emission, which at the beginning of 1884 stood at 30,601,486 m/n, stood on 31st December, 1884, at 23,537,041, which shows how much the Directors restricted their issue durng the year The exchange transactions for French steamer Rio Negro: he year leave a desperate loss, 650,000 m/n. The law removing the Bank to La Plata, and fixing the time for its removal, was sent to-day to the Board of directors. To us t seems the death-knell to this once splendid M Paz, Cenuelas institution, and a more ruinous step could not be taken. Soon the Provincial Bank notes A Ceballos, Arrecifes..... will only be legal tender in the province, and all its splendid credits from Europe will be at once closed when it is moved from the Canital Waliya in very stirring times. Every pital. We live in very stirring times. Everyhing points to fresh financial troubles. Some large exchange operations were effect

ed to-day, but, as a matter of course, held up as financial secrets. The exchange brokers seem more busied about buying sovereigns There is much exaggeration in the statement in the papers about Mr Bateman giving the Government an ultimatum. No such step has been taken by Mr. B. or his representative.

The most astounding news was current on 'Change from Spain. We give in another column the telegrams. It seems that the Spaniards are determined to hold their own in the Pacific, and will stand no nonsense. The occupation of the Islas Carolinas by the Germans may yet prove a "casus belli." MATTHEW, PINSENT & CO. | At afterhours there was not much done in gold, the market rules flat. About 200,000 losed buyers at that rate and for end of the north, but few transactions, closing at 142.80.

Mr. Wagenknecht, of the leading firm of Mallmann & Co., took leave of his numerou friends on 'Change to-day; he leaves to-mer-row for Europe in the German steamer Rosario, and we all wish him a pleasant trip and hope to see him soon back in the R. Plate. On Saturday night he was entertained at a farewell dinner given by his numerous friends.
Mr. Wagenknecht is one of the most popular foreign merchants in this market and deservedly esteemed and respected by all.

Exchange rules at  $46\frac{2}{4}$ - $\frac{8}{8}$  and francs at 4.90 to 4.92. Very little exchange offering in the At 4 p.m. it was known that the Government had received another telegram from Mr. Pellegrini, but the contents of the message are

kept up as a State secret.
