It has very high wheels and is of great strength combined with lightness in draught. The cutting apparatus consists of 2 sets of knives, one set fixed to the Bar in place of the Fingers, and the other driven by

Dysentery, Cholera Fever, Ague Coughs, Colds, &c. Dr J. Collis Browne's Chlorodyne

(Ex Army Medical Staff) IS THE ORIGINAL AND ONLY GENUINE CAUTION-Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis rowne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne: that they prescribe it largely, and mean no other than Dr. Browne's—See Times, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr J. Collis Browne's Chlorodyne.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered. CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, CHLORODYNE effectually cheeks and arrests too often fatal diseases Diphtheria Fever, Croup, Ague.

CHLORODYNE acts like a charming Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer Toothache, Meningites, &c.

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan-5th 1880. To J. T. Davernport, Esq., 22, Great Russell Street, Bloomsbury, London-'Dear Sir, we embrace this opportunity of congralulating you upon the

wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances ad infinitum of the extraordinary efficacy of BR. GOLLIS BROWNE S CHLIRODYNE in Diarrhoea, and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

CAUTION—None genuine without the words 'Dr J. Collis Browne or the Gevernment Stamp. Overwhelming medical testimony accompanies each bottle.

Dr. Pellegrini has telegraphed to the Minister of Finance that he does not consider his cabaña in Las Acacia, belonging to Olivera presence any longer necessary in Europe, since his negotiation has been thrown out by Congress. This message leads one to expect the doctor in the R. Plate in the beginning of next month. All the speculative "canards" of last night Coquet were flatly contradicted this morning. There were no fresh 'bolas' afloat for afterhours, when they are more easily swallowed. Last night it was rumored that the National Gov-Coquet ernment was making arrangements with Baring for a loan of two millions sterling, and that the Minister of Hacienda had determined to overcome all financial scruples, and to hand the Provincial Bank the bond on the 17 million loan. In connection with the latter rumor, a friendly 'rapprochement' between both Governments was spoken of, and the trip of the President of the Bank to La Plata was eagerly seized as a proof of this flood-tide of good news.
