RAMS.

Rambouillet Rams, of unrivalled qualities, can be had at the Cabana de los Alamos, Canala de thembouillet Rams, of unrivalled qualities, can be had at the Cabuña do los Alamos, Cañada do Gaiti, Quilmes. These rams, bred by Mr. Latham with careful attention to physiological laws, and with a view to conciliate every desirable quality, i.e., parfect type, length of fleece, size of carcase and fatting properties togother with hardiness and procreative vigor, have no equals in the Country as regenerators of the existing breed of which operate to the palpable prejudice of the sheepfarming interest. The principle which Mr. Latham adopts in breeding these rams—which is distinct from that generally and universally adopted by the breeders in the River Plate-gives to his stock a power of transmitting type, which none other possesses in so high a degree, and troit the want of which so much disappointment and degeneracy arises.

Gentlemen. I find by the inscription on the nonument at the Cemetery, dedicated to Admiral William Brown, that he a single sloop is the only new vessel vas at Callao and Guayaquil in the year 1816, and I saw some persons who stated that he took those places. I do not in the least mean to state anything that might be thought offensive against the memory of the gallant admiral, whom I have served with in a number of expeditions, and merely send you a copy of an anecdote. It is n my writing, you can read it and then do with it as you please:-"Admiral William Brown sailed from B. BUYING UP THE SHEARERS. To the Editors of the Standard.

Gentlemen, Since my friend 'Bambouillet' persists in a lame defence as to the charge of buying up shearers from each other it is clear he applauds the idea, as he says he will pay what he likes, and let every one else do the same. This spurt of paper dollar independence is after all a small affair, and besides, he and each farmer in the country well knows that the work is done just as well for \$40 as it is for \$60: hence the unity recommended would have been a dead saving, but which my friend 'Rambouillet' seems to despise. BY HOLLOWAY'S PILLS LOSS OF APPETITE LOSS OF STRENGTH—LOSS OF HEALTH.

The marvellous effect of this fine medicine upon the system is such as to immediately rally all the vital functions, the appetite is soon restored, a full flow of spirits quickly follows, the body becomes immenzely invigorated with a certainty of restored health: fresh sir und a little exercise are necessary to bring about a permanent state of things. Holloway's Fills impart tone and energy to the most delicate constitutions, and in a manner as to astonish all who take them. By their extraordinary virtues they have obtained the largest sale of any medicine in the world.

HEAD, LUNGS, AND STOMACH.

MACH, AND DISORDERED LIVER.

In such a deranged state of health the food is decomposed instead of being digested, and proves positionous rather than nutritious. This derangement can be at one set right by a course of these purifying and digestive Pills, which have acquired for themselves an imperishable same, for the mastery they have constantly exercised over the digestive organs. Holloway's Pills increase the appetite regulate the liver, repress billousness, healthily stimulate the hidneys, and move the bowles in a more wholesome and natural manner than any other medicine.

DISORDERS INCIDENTAL TO CHILDREN.

DISORDERS INCIDENTAL TO CHILDREN.

The liver and stomach of children are, from many casese, often out of order, as they are allowed to bat many things that would disagree with thair parents, hence their blood becomes impure, and habbe to take any disease that is prevalent, and that in the worst form. One Pill, reduced to a powder, and put into a little water, given occasionally, to shildren of twelve months old, dad to those of three or four years, three Pills, and to others of seven years of age, four Pills—will always make children look blooming jand healthy. Seventy-dreg out of every hundred do not reach the age of maturity. Holloway's Pills would not only pieserre their health, but have the lives of their panies. Many people foolishly think that children only require a little medicine twice a year. medicine twice a year.

DROPSY.

This fearful disease often makes its appearance between the ages of forty and fifty, and might generally be prevented by attending regularly to the proper action of the liver and stomach; these organs, at this time of life, have a great tendency to derange ment; when astimat dropsy, or disease of the heart often sets in. The blood requires frequent elimination which no other medicines can so effectually perform as these purifying Pills, as they purge gently, and act immediately upon the liver and stomach, and thus remove all 'ebstructions' which as the turning point of life always occur. This dangerous period should be closely watched; two does a week of about six Pills will ward off all dangerous diseases. But in all cases of dropsy the Ointment is a wonderful and sovereign remedy and must be effectually rubbed twice a day into the suffer in gearts.
