No one can attempt to urge that these engineers were taken fighting against Brazil: they were never engaged in the Paraguayan navy, but simply in the mercantile service, and if, unfortunately they were taken at the Riachuelo battle, it was simply because, probably, before that they had no means of escape, or the Paraguayan Government had been owing them arrears of salary, which, in order to get, they were forced to remain. To the Gentlemen Estancieros.

We beg to inform, that about the middle of next month Messrs. Roosen Hopman and Co. will receive a magnificent lot of 69 pure blood Negretit runs. They are taken from 6 of the most celebrated flocks of Germany, and some of them were exhibited and obtained prices at the last grand exhibition of Stettin.

The best recommendation we can give to the gentlemen estancieros is, that these animals are selected by the highly intelligent Mr. Alfredo Rosenthal, and the description received of them states, that amongst them are specimens of great value, possessing in the highest degree density and fineness of fleece as the pure Negretti ty and fineness of fleece as the pure Negretti type in the shape of the body. As soon as the ship "Ludwig" that sailed from Antwerp the 5th of August, will arrive we shall advertise the public sale for the space of 14 days.
