The WAR BETWEEN SPAIN & CHILE

ALARMING NEWS FROM VALPARAISO.

BLOCKADE OF CALDERA AND COQUIMBO. THE VESSELS SEIZED BY THE SPANIARDS.

We have received files of the 'Patria and 'Mercurio' from Valparaiso to the 30th Sept. (evening), being 4 days

later than last mails from the Pacific Hostilities are being actively prose cuted by the Spanish fleet, and the first outburst of enthusiastic indignation in Valparaiso having passed over, the towns-people were seized with great alarm, numbers of them clearing out with all their effects to a suburb, inland, called Viña del Mar, whither the railway terminus was also about to be removed in order to be beyond the range of the Spanish guns and for this purpose the Railway Co. had hired all the coaches and waggons in the city. The official proclamation of war against Spain, by the Intendente of Valparaiso, on the 26th, was a grand affair, being attended by 2000 troops in full uniform and 8,000 citizens. The rifle volunteer corps already numbered 450 men, all equipped at their own expense. The British barque Athelstan was seized in port by the Résolucion, for running the blockade, and anchored alongside the Villa Madrid: the Spanish Admiral and the Commander of H.B.M. corvette Columbine had a conference on the subject. Some difficulty also arose with the French commander, about a vessel called Napoleon which had run the blockade. The Government has ordered fortifications to be erected on coast near Caldera, and published sentence of death against all persons who may give supplies or information to the enemy: another decree prohibits anyone leaving the country without permission. AMERICAN EMIGRATION TO BRAZIL.

General W. Wallace W. Wood, who come to Rio with several other gentlemen of the States to fix upon a fit locality for a settlement of Southerners, has had an interview with His Excellency the Minister of Agriculture and Public Works, who, ever in his power to General Wood to aid him in the selection of a suitable locality in Brazil.

General Wood's mission is to choose a proper place for the locating, upon a navigable stream, of a large number of Americans, who, having large funds at command purpose establishing a first class and model settlement, serving as a nucleus also for a continued emigration, furnished with all the appliances requisite for the products of their agriculture and for the carrying on of a foreign and coasting trade. We believe that the province of Parana will yield suitable localities, and we hope to soon see the settlement in course of active progress.
