INAUGURAL ADDRESSES. The speech of Governor Alsina, on

the opening of the Provincial Chambers, suggests the idea, that even in the composition of 'inaugural addresses' there is a science. It does not do to be too plain-spoken in B. Ayres; polite circumlocution is essential, and no matter how just the cause how obvious the motive for a decided expression of opinion, it must on state occasions be carefully avoided. There can be no similarity allowed between an after-dinner speech and an inaugural address: 'in vino veritas' wou't do for a demure set of legislators who expect only the usual high-flown connexion may be between thoughts and words, it must be divorced on such occasions; trite and commonplace ideas, in the most hackneved parture from this, any assumption of ing the infancy of the enterprise." a dignified, polished, or truthful air. causes at once such striking attention, as to bring down wholesale censure.

the Provincial Chambers.

After all the comments we have read on the Governor's speech, we feel convinced that what is required on such occasions is a kind of squeamish delicacy, such as that mentioned by Swift of the polished preacher who told his congregation that 'if they did not mend their manners, they would eventually go to a place which he could not think of naming in the ears of so polite an assembly."

hopeless bad taste in telling the Chambers that if they did not think proper to meet during the year, there would be an end to the whole Provincial Gohave clothed his ideas in more ambiguous phraseology, and left it optional with the members whether to interpret his remarks as a graceful compliment for keeping away, or a galling satire on their attendance.

PROVINCIAL FINANCE REPORT.

THE RAILWAYS OF BUENO3 AYRES. We have before us Minister Varela's report, and take up that section which treats, of the railways of the Province, as being of preferent interest to our readers and exceedingly gratifying to all who have at heart the progress of the country and the success of British enterprise in the River Plate. It will be found that three of our lines have almost exceeded the most flatering expectations, and the Northern, although an exception to the general prosperity. has had great difficulties and misfortunes to contend with, and shews a notable improvement last year, while it still offers favorable comparison with the Brazilian railways, which seldom pay even working-expenses. I remember, a few years ago, a gentleman employed in the Aduana of Buenos Ayres, Mr. Pedriel, made some important statistical tables in which he demonstrated that every inhabitant in that province used annually seventy patacons worth of imported goods. That I believe was in 1861. The amount at the present time must be nearer one hundred patácons. At passage the Government pays forty natacons, will refund to the country in less than two years the money paid for bringing him out, in the amount alone of duty which he pays on the articles he consumes! I Certify, that I have many times prescribed "Kemp's Vegetable Worm Pastilles," and always with the same satisfactory results, for all kinds of Worms. They are easily administered, and are a safe remedy in such diseases.

FRANCISCO CASALS, M.D. Matanzas, Cuba, May 10, 1862.

I Certify, that "Kemp's Vegetable Worm Pastilles" is one of the most efficacious remedies for removing and destroying Worms. I was for a long time a suffern from those dangerous vermin, but the 'Pastilles' have effectually relieved me, and my health is now entirely re-established. I shall always strongly recommend this most agree-able of medicines.

The use of 'Petroleo' having become extended over nearly the entire Universe, it becomes a subject of great importance to the Public to procure if possible an article that by its non-explosive qualities will secure them in some measure against the horrible accidents that are daily occurring by the use of inferior oils. We have tried to secure the Consumers of Petroleo against accidents, and now for them our Petroleo Imperial,

An Oil superior to any other as yet offered, possessing virtues heretofore unknown, amongst which comes the first and most important

ANTI-EXPLOSIVO. The Naptha Gas is by our new plan of refining deprived of its explosive tendencies, and it will also

Burn Twenty-five per Cent. Longer than Others on account of its density, and it will also give ONE-THIRD MORE LIGHT

ONE-THIRD MORE LIGHT
than any other oil; thus two lamps burning our oil will give as much
light as three burning other brands, so, it is ovidently the
CHEAPEST AS WELL AS THE BEST.

In fine it is an economical sure brilliant, suitable for the use of
Families, Stores, or Public Buildings, and for its safety is particularly
sulapted for Parlors, Churches, Schools, or in fact in any place where
there is any concourse of people.

The true Mexican Anacahuita, from which our Pectoral is mad, is a remedy for Pulmonary Diseases, which has been known and fully tested in that country for many generations. The native Indian tribes were probably the discoverers of its wonderful medicinal virtues, as it is among them where we first find it in use; later we find it prescribed by the leading College of Physicians in Berlin, and much prized by them as a safe and reliable remedy for some of the worst forms of Pulmonary Affections. Our own experience since we first introduced our Pectoral of Anacahuita, now over ten years ago, has been of the most satisfactory and encouraging nature. From Cuba, Moxico, West Indies, Brazil, Buenos Ayics, Chile, Peru, Ecuador, Now Granada, Venezuela, and Central America, we have many letters and certificates of cures effected by its use, especially in such diseases as

otters and certificates of the seases as consumption, Cougha, Asthma, Colds, Croup, Bronchitis, Hoarseness, Pleurisy, Sore Throat, Hectic Fever,

Hectic Fover,
and
Difficult Breathing.
We have combined in our Pectoral various other valuable medicinal herbs, which we find makes the action of the Anacahuita more speedy and reliable; and we also recommend the use o our Pure, Sweet, Cod Liver Oil in conjunction with the Pectoral. Where these two great remedies are faithfully used we are almost ustified in guaranteeing a Complete Cure in any jof the above diseases, except in Confirmed Consumption, and even in it the patient's life may be prolonged for many years. for many years.
