THE SCOTT MURDER:

We regret to say that in this case, as in many others, the reputed murof justice, even after he had been placed in custody. It is needless to waste words or invectives on the judicial authorities of the camp; or even to hope for amelioriation so long as the present disgraceful system prevails. After all, the camp authorities are not most to blame: they some times arrest murderers, and send them into B. Ayres for trial, but the culprits are never executed, for they are either sent to the war in Paraguay or turn up again in their old 'pago,' to renew their misdeeds and attempt the life of the Justice of Peace, as has happened to Sor. Cascallares and other active justices.

It seems Nuñez was twice taken to the Juzgado about the murder; A Train leaves the 25 de Mayo Station at 11.45 a.m., and for the convenience of visitors a special train will return from Palermo at 5.15 p.m. A first-class Brass Band will be in attendance to the first class brass Band will be in attendance to the first class brass Band will be in attendance to a special train will return from Palermo at 5.15 p.m. A first-class Brass Band will be in attendance to a special train will return from Palermo at 5.15 p.m. A first-class Brass Band will be in attendance to a special train will return from Palermo at 5.15 p.m. A first-class Brass Band will be in attendance to a special train will return from Palermo at 5.15 p.m. A first-class Brass Band will be in attendance to a special train will return from Palermo at 5.15 p.m. A first-class Brass Band will be in attendance to a special train will return from Palermo at 5.15 p.m. A first-class Brass Band will be in attendance to a special train will return from Palermo at 5.15 p.m. A first-class Brass Band will be in attendance to a special train will return from Palermo at 5.15 p.m. A first-class Brass Band will be in attendance to a special train will return from Palermo at 5.15 p.m. A first-class Brass Band will be in attendance to a special train will return from Palermo at 5.15 p.m. A first-class Brass B sequently allowed to go home, although there was a general feeling of indignation in the neighbourhood. All the formalities of the Juzgado had not, however, been gone through, and the Alcalde sent Nuñez word that he was requested to proceed to the Juzgado and give what evidence he knew of the "transaction," viz. the wholesale butchery of the Scott family. Of course Nuñez thought better to get a couple of swift horses and clear out About a fortnight since, an Englishman went to Ranchos and San Vicente to see how the matter stood, and was told that Nuñez had gone north wards, was pursued as far as Zarate and crossed the islands of Entre-Rios into the Banda Oriental. Rumor says that he was last heard of near Carme lo, and there is hardly a possibility of his being again taken. We are not aware of the existencei of an extradition treaty with the Republic of Uruguay, but we have cases, every now and then, of criminals arrested in Montevideo, through the Gefe Politico of that city, by order of the Argentine tribunals, and vice-versa. The authotity of the Montevidean Government is, however, so slight in the departments, that we believe Gen. Flores and all his officers, soldiers, alcaldes and posse-comitatus would be utterly French packet anchored at a quarter powerless to arrest Nuñez at 30 leagues from the capital. EDITOR'S TABLE.

Yesterday morning there was a gloom over the city. No news of the French yous about her, and the melancholy telegrams from Montevideo, announcing the washing ashore of three more corpses, served to increase the apprehension that the Aunis had perished. We seldom recollect seeing the city in such a mood as yesterday morning. Parties who expected friends and relations trembled for their fate, whilst we all deplored the loss of letters, 40 minutes past 11 o'clock a.m., the In three minutes after, it was known

The storm on the Brazilian Supe is also supposed to be over-due. Respecting the corpses washed on shore at Montevideo, a pilot who arrived yesterday states that they are all Brazilians, and that they come from the Flores Island. Owing to the 'pampero' and heavy sea, the coast about there is covered with Brazilian corpses. The mortality on that island has been awful: we hear of a steamer that brought down 400 sick of cholera and of these only 120 survived. The pilot in question states that in Montevideo the anxiety about the French packet was as intense as here, but that at the French Consulate it was supposed she put into Santa Catalina.

EXTRAORDINAYY HEROISM OF A Great Southern Railway Co. BROKER.

Buenos Aires, May, 1857.

TERRIBLE SCENE ON AN AZOTEA.

THREE ROBBERS SHOT.

One of the most attractive topics on 'Change yesterday, prior to the arrival. of the Luxemburgian news, was the courageous conduct of a well-known broker the night previously. Mr.

Mendez, although highly esteemed as a broker on 'Change, had hitherto given no evidence of that cool daring cieros in this country.

J. W. BROOKES, which now justly entitles him to rank Great Southern Railway, Plaza Constitucion, or, 36 Calle San Martin. with the most plucky men of Buenos Ayres. It appears that on Tuesday night Mr. Mendez had retired to his couch; the lights were put out, and all was silent and still in the broker's residence. The broker slept! Suddenly a grating noise disturbed Mr. M.; he rubbed his eyes, struck a match, and proceeded with a lighted candle to inspect the quarter from Whence the noise proceeded. Mendez

Four scoundrels, half German half Italians, took to their heels, but the unerring aim of the broker struck the burglars in the rear. The robbers escaped bleeding and wounded to the patio. Mr. Mendez stopped not to count his foes, but rushed down the same precious metal. The finder will be handsomely rewarded by bringing it to 56 Santiago del Estero. stairs, popped into the patio, and with his own hand arrested three of of the burglars. Such heroism on the part of a gentleman never before supposed to have smelt powder, merits the highest eulogium, and appears almost an exaggeration, but we give the facts as stated on the Bolsa. The burglars are Germans and Italians, organ grinders, and Mr. Mendez has placed the whole community of Buenos Ayres under a very high obligation to him for his heroic conduct on the occasion.

This exquisite Perfume is prepared direct from Blooming Tropical Flowers of surpassing fragrance. Its aroma is almost inexhaustible; while its influence on the skin is most refreshing, imparting a delightful buoyancy to the overtaxed Body and Mind, particularly when mixed with the water of the Bath. For PARTITING TURNS. FAINTING TURNS, NERVOUSNESS,

HEADACHE

DEBILITY,

AND

HYSTERIA,

It is a sure and speedy relief. With the very elite of fashion it has for 25 years maintained its ascendancy over all other perfumes throughout the West Indies, Cuba, Mexico, and Central and South America, and we can fidently recommend it as an article which, for soft delicacy of flavor, richness of bouquet, and pormanency, has no equal. It will also remove from the skin ROUGHNESS, BLOTCHES,

SUN BURN, PIMPLES,

AND FRECKLES. It is as delicious as the Otto of Roses, and lends freshness and beautiful transparency to the complexion. Diluted with water it makes the best dentifree, imparting a pearly whiteness to the teeth, it also removes all smarting or pain after

The Bank of Maua & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare. These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other divolities.

The Bank of Mauh & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

The use of 'Petroleo' having become extended over nearly the entire Universe, it becomes a subject of great importance to the Public to procure if possible an article that by its non-explosive qualities will secure them in some measure against the horrible accidents that are daily occurring by the use of inferior oils. We have tried to secure the Consumers of Petroleo against accidents, and now offer them our Petroleo Imperial,

An Oil superior to any other as yet offered, possessing virtues heretofore unknown, amongst which comes the first and most important—

ANTI-EXPLOSIVO.

The Naptha Gas is by our new plan of refining deprived of its explosive tendencies, and it will also

The Bank of Mana & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their

The Bank of Mana & Co. is sufficiently known a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisaus, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mana & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare. The use of 'Petroleo' having become extended over nearly the entire Universe, it becomes a subject of great importance to the Public to procure if possible an article that by its non-explosive qualities will secure them in some measure against the horrible accidents that are daily occurring by the use of interior oils. We have tried to secure the Consumers of Petroleo against accidents, and now offer them our Petroleo Imperial,

An Oil superior to any other as yet offered, possessing virtues heretofore unknown, amongst which comes the first and most important—

ANTI-EXPLOSIVO.

The Naptha Gas is by our new plan of relining deprived of its explosive tendencies, and it will also

Burn Twenty-five per Cent. Longer than Others on account of its density, and it will also give ONE-THIRD MORE LIGHT than any other oil; thus two lamps burning our oil will give as much light as three burning other brands, so it is evidently the CHEAPEST AS WELL AS THE BEST.

In fine it is an economical sure brilliant, suitable for the use of Families, Stores, or Public Buildings, and for its safety is particularly adapted for Parlors, Churches, Schools, or in fact in any place where there is any concourse of people.

The true Mexican Anacahuita, from which our Pectoral is made, is a remedy for Pulmonary Diseases, which has been known and fully tested in that country for many generations. The native Indian tribes were probably the discoverers of its wonderful medicinal virtues, as it is among them where we first find it in use; later we find it prescribed by the leading College of Physicians in Berlin, and much prized by them as a safe and reliable remedy for some of the worst forms of Pulmonary Affections. Our own experience since we first introduced our Pectoral worst forms of Pulmonary Affections.
