THE ITALIAN EXPEDITION.

In our publication of yesterday we provided our readers with the only trustworthy and official account which has yet arrived of the state of existing relations between the Italian Government and the Uruguay Republic.

The Rio papers have copied from several Continental journals a variety of rumors of more or less probability, besides some comments. These latter only expose the ignorance of the writers, as they confound the two Republics, the Argentine, and the Uruguay, plainly showing that their articles are trumped up from hearsay, and have no official character.

The most important quotation which has appeared on the question, is that from the Correspondance Italianne ot the 3rd February, in which it is distinctly stated that an expedition will from the Oriental Republic, the payment of indemnities due to Italian subjects for losses during the late wars.

This news is very likely correct in substance. But its alarming nature is somewhat modified when we recollect that the question of the Italian behaviour in the settlement of ac- The institution was certainly in a counts.

We can see no political object or probability of success in the scheme so long as Brazil is to the Oriental Republic what the United States was to Mexico during the French invasion. and Book-keeping, Drawing and Music.

The Undersigned begs to inform his Friends and the Public that he has RE-OPENED School Oriental by Italy and Brazil might Tucker, M. Forrester, — Jardin. suit the circumstances of both. But it would be rather premature to discuss such a political combination, and we may add, such an immoral transaction.

The resources of the Montevidean Government are unfortunately not in the position to enable them to pay the Italians off, and be done with them. Venga el sabado que riene" will be still the reply attempted. But the Government will surely see that if much that is rumoured of Italian intentions be mere moonshine, Italy is this time in earnest about her claims and will not be put off.

With every sympathy for the difficulties of the Montevidean Government, and with an instinctive abhorrence of armed bullies, be they British Yankee, or Italian-and the first two are remarkable—we consider that the Italian Government has a right to expect the same favor which has been acment of similar claims on the Montevidean exchequer.

We shall be glad to hear that General Batlle and his Ministers have made an effort to be prepared, when the time comes, for the relief of the Italian squadron and the appearance of the new minister; so that these, in themselves unimportant events, may not result in an aggravation of the evils which afflict these Republics.

THE BRITISH HOSPITAL.

The annual meeting of subscribers of the above institution met on Wednesday, 18th inst., at the Bolsa Committee-room, Mr. Parish in the chair, who opened the proceedings with the following remarks:-

THE TEMPERATURE OF ROSARIO.

A subscriber just arrived from Rosario has favoured us with a table showing daily the highest and lowest degrees of temperature in Rosario, taken by him from a self-registering thermometer during this month, which we give below. The same gentleman took the same observations in Rio during three months, and the greatest difference did not exceed 26 degrees in one day, whereas it will be seen from this table that the difference in one day in Rosario has reached 43 degrees:
