#### INTRINSIC VALUE OF SHEEP.

Buenos Ayres, March 20, 1868 To the Editors of the "Standard." Gentlemen.

No question can be asked more likely to interest many of your readers wool, or has their value been lowered by the general anxiety to sell out, below what the value of wool will account for ! I propose to endeavor to answer this question. The value of sheep, as of every

thing else, is just what a buyer will give for them, with a good prospect of editorial travail, since the day is of getting a fair return for his money. It may be safely, assumed that the least return with which a prudent investor will be content is 10 per cent. per annum on the money invested, and two-thirds of the increase after paying all trade expenses; house and personal expenses remaining to be statue as shown to me at the time of paid out of this. The other elements of the calculation are all publicly Fargin, is something extraordinary. known. add a few remarks about increase. Many people have likened it to a geometrical progression; but if an arith metical simile must be found I would rather liken it to an indeterminate first approximation to its value. Take 3 or 4 figures, and you get a much better-and so on, the more figures you take the more correct you are Similarly with increase. Ascertain from one or two sheepfarmers what they have got out of their increase for first approximation. Ascertain from five or six, and you come nearer. Take statistics of value received for increase all over the country, and you estimating their increase according to their individual temperaments. The sanguine man will tell you that increase will double your capital every three or four years, and the cynic will say that it only amounts to a very moderate per centage.

THE BRITISH HOSPITAL AND DR. REID.

To the Editors of the Standard. Gentlemen, Buenos Ayres, March 21.

It is with much pleasure that I see in yesterday's report of our valuable institution Dr. Reid's name so honorably mentioned by the Board. From different circumstances, I myself, several times have had occasion to visit the Hospital during the last few months; but, sir, I can assure you that at whatever time I arrived there he was invariably in the cholera ward, watching his patients day and night; frequently denying himself the rest which was absolutely necessary for him.

Now, Gentlemen, I have no doubt that there are many others in this city beside myself who consulted Dr. Reid and largely benefitted by his advice. I would, therefore, suggest that a subscription list be opened; to enable us, as well as the Committee, to present him, with some mark of our esteem for his uniform courtesy and kindness. Perhaps you, Gentlemen, would kindly receive the subscriptions. I enclose my card, and remain

192,6p,m22 R REGULATING PILLS.

A newly discovered principle in vegetable me-dication is securred in Radway's Regulating Pil, that places them far in ad ance of all other Purgative or Cathartic, Aparient or Sedative and Anti-Bilious Medicine. They are the only and Anti-Bilious Medicine. They are the only vegetable substitute for Calomel or mercury known; the only Medicine that, during their process of purging, imparts nutriment to the de bilitated system, and strength, vigor and purity to the blood, and impaired secretions; the only pur-gative that will cleanse the Alimentary Canal and obstructed intestine as quickly and thorough ly, without weakening or nexuscating the pa-tient, as Lobelia (the most active and thorough metic of the herbist) will the stomach, and the only pur, live at present known safe to administer in case of Small Pox, Yellow Fever, Erysipelas, and other Malignant Fevers, that inflame and observe the mucuous membranes of the

THE PROPERTIES OF Dr. Radway's Pills. They equalize the circulation, Purify the Blood and Purge Corrupt and Acrimonious Humors, and retained deposits from the system in six

AS A CATHARTIC, the increase, when sus-pended, the peroitaltic movement of the bowels and promote a quick evacuation of its content Their influence is extended throughout the system, purging the retained deposits in the stomach into the duodenum, stimulating the secretory ducts of the pancreas and liver, in the promotion and increase of the flow of bile and pancreati

fluids,
PURGATIVES of common aloes exert their action on the colon and rectum by irritation of the mucuos membrane, without influencing the liver or its secretions. Such cathartics are unsafe in pills for general use. The common Ca-thertic Pills, that induce drastic liquid dischar-ges, should never be given in cases of inflammaion, or when there is ulceration of the intestina

THE APERIENT and mild LAXITIVE properties of RADWAY'S PILLS are the best safeguard in these disorders, and in all cases of cruptions and malignant fevers their balsamio, healing and sothing properties protect the coats

of the alimentary passage against the irritant and acrid humors of the fauces. THE NUTRITIOUS AND TONIC properties fthese Pills are of great service in depleting fever and uterine discharges, likewise as a dinner pill, to increase the appetite and promote digestion. THEIR SEDATIVE properties allay pain in

he nervous system, stomach and bowels, either tom inflamation, colic, flatulence, wind, THEIR COUNTER IRRITANT influence exends throughout the system where there is infla-nation, congestion or irritation, stimulating the maticu, congestion or irritation, stimulating the blood and nervous fluids in the congested vessels, and equalizing its circulation. The principle of Counter irritations is generally applied to external remedies. Its application, internally, in the form of a purgative medicine, exemplified in Radway's Pills, has proved a wonderful curative principle, readily withdrawing from the blood and fluids their acrid and irritating humors.

AS DIAPHORETICS OR SUDORIFICS they mulate the secretions of the skin, induce exhaation of obstructed perspiration.
THEIR DIURETIC properties act on the idneys, correcting and regulating the flow of

MORISON, THE HYGEIST'S
VEGETABLE
UNIVERSAL MEDICINES,
Particularized for Every Complaint.

1.—These invaluable medicines being composed only of a vegetable matter, or medical herbs, and warranted, on eath, as containing not one particle of mereorial, or mineral substances all of which are uncongenial to the nature of man), are found to be perfectly harmless to the most tender age, or the weakest frame, under every stage of human suffering; the most pleasant and benign in their operation that were ever offered to the world; and, at the same time, the most certain in searching out the root of any complaint; however deep, and of performing a cure.

2.—The Medicines are comprised in three different articles only; that is, in two kinds of pills, of different strength or power, designated by No. 1 and 2—the first is an efficient but most gentlo and mild aparient, or opening Medicine, detaching and partially removing the bilious humours, whilst the No. 2 pulls carry off those and the serous, acrid, and putrid houmours of the body, to which it is incidental.

The Vegetable Powders, again, are of great assistance, and facilitate the evacuation of bad humours; they soften, are cooling, and allay the thirst, and some doses of them throughout the day are useful in making the pills have better effect and curing sooner.

British AND GERMAN HOTEL,
72 CALLE MEXICO.

The undersigned respectfully informs his numerous Friends and the Public that he has been induced to purchase the old establishment Anglo-Aleman Hotel, through a sincere desire for public welfare and convenience. In return for thus forsaking his old and lucrative rural pursuits, he only asks that liberal support which his programme merits—the best accommodation on the most moderate terms.
