It being an admitted fact, that "Money makes money," the object of LA BIENHEUHORA could not be better, since it opens a wast Savings and the Public of the Pub Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a compatency. It being proved that the accumulation of into-

s giving rise to some foolish rumours and some contradictory reports. We have had accounts of the Queen's return visit to the Empress at the Elysée. It is now generally admitted, as we were at first able to announce, that Her Majesty, taking advantage of a courteous dispensation offered by the Empress, did not go to the Elysée The 'Constitutionel' and the 'Patrie,' lowever, persist in repeating the false news of the visit. The 'Press' goes further, and gives a particular account of splendid banquet, of which Her Majesty partook when she went to see the Empress, which was served on a splendid service of plate that had never been used before. The latter part of the statement is, no doubt strictly correct. The 'Figaro,' accord ing to our correspondent, goes fur ther still, and tells us that the Empres was not only disappointed, but incou venienced, by the Queen's neglecting to pay her the expected return visit. How the 'Figaro' obtained the infor mation it gives of what took place inside the Elysée is not easy to divine. unless its special correspondent was one of the Imperial waiting maids, or one of the gentlemen who contrived to supply the journal with the touching details of the death of the Emperor Maximilian long before they could possibly have been received in En-

While we are on the subject of our neighbours' faults, let us not altogether forget our own. Perhaps the gravest possible offence against good taste and common sense is to be found in the following paragraph, in relation to the Royal visit, in the Paris correspondence of one of our contempo-

raries :—

"Need I say that the utmost feeling of respect has been manifested here towards the Queen of England, whom Frenchmen generally regard as a model monarch in public affairs, and as an example of virtue in domestic life. Many of the undeniable defects of this people may be forgiven in consideration of their keen susceptibility and genuine admiration of what is good in those respects. Indeed, I am beginning to think that the only not mob the Queen, but manifested avenged the massacre. quietly a perfect respect."

Did ever anybody read the like of it? We hardly know to which morsel to give the preference; the 'forgiveness' of the poor ne'er-do-weel French, or insertion must be authenticated by the all the worst faults with which Engnew in the 'Cornhill.'

A correspondent having again succeeded in running the blockade into Crete, writes from Sphakia under date of the 20th ult. He says that the island is still struggling for freedom with the traces of two years of war spread far and wide. "There are still," he adds, "almost daily combats amongst the burnt villages and neglected fields, whilst the blockade is run as of yore at regular intervals." The Turkish cruisers still however, appear to keep a good look out along the coast, and are evidently ready to fire a few passing shots when ever they think these necessary, so that blockade-running is not altoge ther mattended with danger. The ur gent necessities of the moment continue to be—bread, to keep the Cretan patriots alive, and gunpowder to hold the Turks at bay. Medicines and surgical instruments are regarded as com-

Chloride of Potassium

THE SARATOGA "A" SPRING WATER is probably the most effective Mineral Water found on either Continent. It will be observed that it has Ton per Cent. greater Mineral properties than the celebrated Congress Spring, four times that of Baden Baden of Austria, five times that of Air la Chapelle in Prussis, twice that of Vichy in France, nearly three times greater than the renown Seltzer of Germany, and equally over the Spas of Bath, England, and Kissengen in Bavaria.

carliest civilisation. A celebrated authority says:—"The virtues of Mineral Waters have been best shown in the treatment of obscure and chronic diseases. In many instances persons have been restored to health, or greatly relieved by, Mineral Waters, where other remedies have failed. The reason, no doubt, is that such Waters must contain compounds not yet known to Chemistry or Pharmacy.' USES

The reputation of this Water is based upon its effects in Diseases of the Stomach, Liver, Bowels, Kidneys, and Spleen, and acts with wonderful benefit in cases of Chronic Dyspepsin, Constipation, Gravel, Gout, Scrofula, Cutaneous Affections, Dyspepsia, Constipation, Gravel, Gout, Scrofula, Cutaneous Aneous General Lethargy, Soroness, and Prostration of the System.

[Extract from Letter received from a Merchant Trading with South America.] November 30, 1867. Messrs. Ward and Payne.

Dear Sirs,
We are glad to say your Shears have now got into the Consumers' hands, and if they turn out well, as we have no doubt they will, your Make will take a lead in the country, which will be one of the largest sheep countries in the world,

be one of the largest sneep countries in the world, if not the largest.

Before the writer left Buenos Ayres, he had an interview with one of the largest breeders of sheep in the country, and prevailed upon him to take a few dozen of your Shears. He now describes them as being better than (here W. and P., out of courtesy to other manufacturors, leave out the name referred to in the letter), whose Shears he had used for upwards of 20 years. had used for upwards of 20 years.

Looking at this fact and others we have in our possession, we are sure that, if you only take care to keep up the quality and finish to your pre-

While handing you order for our sea While handing you order for our season's supply of Sheep Shears, we express a hope that you will give it the same caroful attention as last. It may interest you to know that the Shears and Tools had from you last year have given our friends entire satisfaction.

The best proof that the quality, style, and finish of your Shears have been approved of by our friends is the quantity now ordered, which is 1,000 per cent. in excess of last year's specification. The only drawback we experienced in supplying your Shears to our numerous Customers all over the Colony was their desire to return Shears of another brand previously supplied, and Shears of another brand previously supplied, and
