The Republica's correspondent from the seat of war gives some interesting details. He writes from Villa Oliva which is described as a miserable vil lage composed of a few thatch-roofed cottages, and a single house of brick with a corredor. He left Villafranca at S, and stopping at Gathapè one hour, reached Villa Oliva at half-past twelve. A crowd of passengers and pleasure seekers arrived by the Iris, were not allowed by the admiral to land. The enemy is supposed to be very near, and 7 battalions of Paraguayans are reported to have been seen this morning, but it is the writer's opinion that no action will take place until the allies arrive at Augostura. The enemy will show in the daytime and retreat at night, until the allies are drawn to that stragetic point, where it is supposed Lopez will make his last stand. The place, from all accounts, is favorable to it, and Lopez is said to be able to dispose of from 10 to 15,000 to defend the pass; some even insist upon his having 20,000 men. WATER SPOUTS AT SEA.

STEAMSHIP "NEVADA,"

Off the coast of Gautemala, June 3 This morning we were favored with an extraordinary phenomenon, such as has been rarely witnessed in any latitude or in any ocean, exciting the commingled admiration, fear, and as tonishment of all hands on board Within the brief space of an hour, be tween eight and nine o'clock, no less than three large water spouts were visible from the ship's deck, all near enough to arouse dread apprehensions as to the possible consequences. One of them, the most formidable, made directly toward the vessel, moving from the west toward the sun, and apparently leaving no chance for the escape of the ship except by changing our course, which was done without loss of time. Another followed direct ly in our wake at about the same speed as we moved, and only, say a quarter of a mile behind, for a time leaving it ment of a dividend, and shall be altogether problematical which would

Suggestions like these were rapidly passed in re view, and the hearts of strong men quailed within them.

But a calmer mood returned when the dreaded spout was seen astern about to dissolve and pass harmlessly away. The last moment of dissoution was like the expiring throes of Piedad. the dolphin, so rapid and varying were the different phases presented.

And thus ended one of the most remarkable as well as one of the most sublime, and it may be said, terrific spectacles (for such it was to some, in truth) ever afforded in the field of natural science. Although the engineer of the steamship Nepada has made seventy trips along this coast, and been fifteen years here in constant service, he confessed to having seen nothing comparable. So, too, said our experienced officers.

The statements above given coincide vith the observations of all our ship's company, and can be re-affirmed either by Captain Kelly, or any of the pas-

THE "GLYCERINE" DIP. FOR SHEEP AND LAMBS.

FREE FROM ARSENIC, MERCURY, MINERAL AND OTHER POISONS. DEADLY TO ALL PARASITES INFESTING THE SKINS

OF SHEEP AND OTHER ANIMALS.

This PREPARATION is destined to supersede the Compounds hitherto Advertised, and which have a tendency to descrey Anima's, injure the Men engaged in Dipping, and weaken the Wool by their caustic and reducing properties. The "GLYCERINE" DIP can be used with perfect safety at any Season of the Year, and has

peen found in practice invaluable for the following purposes :- " I .- In Curing Scab, Killing Acari, Fags, Ticks, and other Parasites which attack the Sheep. II .- In strengthening and adding lustre to the Wool.

III .- In Washing Sheep shortly before Clipping, leaving the Fleeces in a pure state. IV .- In Dipping Lambs, even whilst suckling ewes, as they cannot be injured by the Material. V .- In Dipping Rams at any Time of the Year, without danger of producing the exceriations which always follow the use of other Dips, especially in the Autumn Season. .

Several eminent Members of the Medical Profession, whose testimony may be relied upon with the most perfect confidence, have obtained the most satisfactory results in cases of Consumption by the use of this valuable specific—in fact, THE SYSTEM OF THE PATIENT UNDERGOES A COMPLETE TRANSFORMATION.

Professor PENEDO feels assured that the above-mentioned discovery will always maintain a vast superiority over all other Preparations, as it is generally known that these invariably contain a large quantity of mineral matter, which is most hartful to the human frame.

This SYRUP is prepared solely from one of those valuable vegetable productions for which the

surrounding country of the Brazils is so justly famed.

The annexed Testimonial has been received, and is one of many thousands, testifying to the medicinal virtues of Penedo's Syrup:—

"I, the Undersigned, Chevalier of the Imperial Order of the Cross, of the Order of the Rose, and of the Military Order of San Benito d'Aviz, Brigadier Surgeon-in-t hief of the Military Board of Health, all by the grace of His Majesty the Emperor, qualified in Medicine and Surgery by the Academy Medico-Cirugica of Rio de Janeiro, &c., certify that I have employed with very happy results among different classes of Patients, both civil and military, the Syrup, so-called, of Penedo, in Pulmonary Affections, even in infirmities decided to be in the incipiency of Tuberculous Consumption, the symptoms which characterised the disease completely disappearing with its use. One case presented itself to me among many others, although more marked by the extraordinary circumstances connected with it: it was that of the illustrious Schora D. Joaquina B. de Carvalho Affonso, lady of the illustrious Sr. J. F. Affonso, residing in the Rua du Cadeia, corner of the Misericordin, who, being considered in Consumption by an affection of the lungs, is to-day radically restored. The above is the truth, to enfirm which I pass the present Certificate, in order that the illustrious Sr. Penedo, Pharmaceutical Chemist, may make whatever use of it he may think fit.
