PAIN CURED IN AN INS-TANT.

In 1847, the great grand principle of stopping the most exeruciating pain in an instant, without

This remedy accomplished this wonderful de-iratum in all cases of external and internal pain siratum in all cases of external and internal pain. In an instant it afforded relief; the moment it was applied to the parts of the body where inflummation or pain existed, it at once relieved the patient of the most violent and excruciating pangs and throbs of pain, and imparted the delightful sensation of ease and comfort.

Every kind of pain, whether Rheumatism, Neuralgia, Influenza, Soro Throst, Nervous Headache, Toothache, Pains in the Chest, Side,

Lungs, Stomach, Bowels, Kidneys, Spine, Legs, Lungs, Stomach, Bowels, Kidneys, Spine, Legs, Arms, Feet, or application was sufficient to cure and exterminate the pain.

This was Radway's Ready Relief of 1867, and it is Radway's Realy Relief, greatly improved, in 1868.
We then started it in its mission of reliev-

ing the infirm, pain-stricken, sick, distressed, and crippled of all nations throughout the world, and now to-day it is used, patronized, and reserved now to-day it is used, patronized, and reserved as a household necessity in the places of Sultans, Emperors, Kaimos, Kings, High Priests, Nobles, s well as in the cottages of the laboring classes of avery nation on the face of the earth.

BREAKFAST.—A SUCCESSFULL ENPERIMENT.

The 'Civil Service Gazette' has the following interesting remarks:—"There are very few simple articles of food which can boast so many viluable and important dietary properties as eccon. While acting on the nerves as a gentle stimulant, it provides the body with some of the purest elements of nutrition, and at the same time corrects and invigorates the action of the digestive ort ments of nutrition, and at the same time corrects and invigorates the action of the digestive ort gans. These beneficial effects depend in a great measure upon the manner of its preparation, bu

measure upon the manner of its preparation, bu of late years such close attention has been given to the growth an. treatment of cocoa, that there is no difficulty in securing it with every useful quality fully developed. The singular success which Mr. Epps attained by his homoopathic preparation of cocoa has never been surpassed by any experimentalist. Far and wide the reputation of Epp's Cocoa has spread by the simple force of its own extraordinary merits. Medica force of its own extraordinary merits. Medica men of all shades of opinion have agreed in recommending it as the safest and most beneficial recommending it as the safest and most beneficial rticle of diet for persons of weak constitutions. This superiority of a particular mode of preparation over all others is a remarkable proof of the great results to be obtained from little causes. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition and by a car ful application of the fine properties of well-selected cocos, Mr. Epps has provided our breakfast tables with a delicately flavored beverage, which may save us many ties of well-super breakfast tables with a delicately vided our breakfast tables with a delicately flavored beverage, which may save us many heavy dootor's bills. It is by the judicious use of such articles of duet that a constitution may be gradually built up until strong enough to resist overy tendency to disease. Hundreds of subtle maladies are flowting around us, ready to attack wherever there is a weak point. This engine, as also engine No. 3, sent volumes of water on the houses in front, which were in great danger from the narrowness of Calle Aduana

At three o'clock in the morning it was thought that the fire might be confined to the three houses already burning between Calles Aduana and Cochrane, or at least that Mr. Edward's house might be saved, and with this object the engines concentrated their efforts on the eastern side, to prevent the fire spreading in that direction.

SAVINGS BANK BANK MAUA AND Co. 101--Cangallo--103

'a' no immenso advantages of Accounts Current | opened a Savings Bank at No 103 Culle Cangall are now so generally felt and appreciated in the two great emporiums of the River Plate, Monte-video and Baenos Ayres, that there are very few Merchan's who fail to keep one at the bank in which they place the most confidence.
The Bank of Mauk & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their

savings.
The sums deposited in that very important in-stitution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number ofclerks artisans, working men, and servents of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling. in letteries, and other

frivolities
The Bank of Mana & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has

from Nine a m, till Three p.m. every day, for th reciption of the savings of the classes alerady

mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn. The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up

to date.

The Bank of Maus & Co is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Maul & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos

Ayres and its neighborhood.
