## A GREAT SENSATION A GOOD SENSATION

TANT.

In 1847, the great grand principle of stopping the most exeruciating pain in an instant, without employing such dangerous agents as Chloroform, Opium, Morphine, Aconite, Ether, &c., was first and a linearity. made known in
RADWAY'S READY RELIEF. This remedy accomplished this wonderful desiratum in all cases of external and internal pain

In an instant it afforded relief; the moment it was applied to the parts of the body where inflammation or pain existed; it at once relieved the patient of the most violent and exeruciating pangs and throbs of pain, and imparted the delightful sensation of ease and comfort.

Every kind of pain, whether Rheumatism, Neuralgia, Influenza, Sore Throat, Norvous Headacher, Toothache, Pains in the Chest, Side, Lungs, Stomach, Bowels, Kidneys, Spine, Legs, Arms, Feet, oac application was sufficient to cure and exterminate the pain.

Taken internally, 20 drops to a teasponful would cure, and will cure. Fover and Ague, Chills and Fover, Bilious Colic, Inflamation of the Bowels, Cramps, Spasms, Diarrhea, Dysentery, and every pain that may exist in the inside a man, woman, or child. This was Radway's Ready Relief of 1867, and it is Radway's Ready Relief, greatly improved, in 1868.

We then sturted it in its mission of relieving the infirm, pain-stricken, sick, distressed, and a district of the company in Montevideo and Buenos Ayres, and shall ask for a tow in the river, will pay the same Tariff as above.

HOUSE SERVICE.

THE MAIN PIPES for the supply of perfectly pure filtered water are now laid in the Calles Libertad, Lima, Rivadavia, Bolivar, Florida, and ps t of Santa Fé, and water will be supplied to the houses of the persons living in those streets, who apply for it.

The Commission named by the Government

therefore, requests the owners and tonants of houses who wish to have the water laid on to make applications, which will be attended to in order of priority.

The cost of laying the service pipes to house will be chargeable to the owners or tenants, and will be fixed before commencing the work. It is as yet difficult to estimate with certainty the amount, but as a general rule it will not exceed \$160 mpc. for a single cock in the first patio, to \$3,600 for a complete supply all through

the house.

For manufactures and special establishments of all kinds, the price will be according to agree-

EXTENSION OF THE PIPING.

As the Government wishes to extend over the largest area the advantages and economy which a Municipal Government, are prepared to furnish supply of water in the houses will afford, the Commission has been authorised to lay pipes in the atreets not us yet provided with them, by means of advances, on account of the rates for trouble when once placed in the hands of the

The Commission, therefore, with authority from the Government, will provide water mains for the entire city on the following conditions:—

The inhabitants of any square can have the pipes laid in it, including the service pipes as far as the doors of the houses, by paying on account of the future supply \$18,000 (eighteen thousand dollars currency), which would be equivalent to \$65 (sixty-five dollars currency) per vara of frontage.

THE ELECTIONS.

The elections on Sunday last, owing to the measures adopted by Government, passed off much quieter than the public anticipated. At an early hour the streets in the vicinity of the parochial churches were occupied by picquets of soldiers and mounted police. At 9 a.m. sharp, General Nazar, at the bead of 15 mounted vigilantes, rode up Calle Bolivar, and took up his position flanking Morta's book store and the vestry door of the College church, where already a motley crowd had assembled. Soon Mr. José Martinez de Hoz, Mr. Billinghurst, Mr. Carrega, Mr. Soler, and several others of the parish, were on the ground, and the voting commenced. General Nazar sat on his horse for hours, watching the proceedings; but as everything went on quietly, and a small picquet of foot policemen came up, the General ordered his men to the next parish. Whether it was the unusual sight of so many vigilantes on horseback, with loaded carabines in their hands, or the miserable state of their uniform and slovenly get up, but Dates from Liverpool to the 28th of certainly the presence of this guard at the College church was anything Convent case over. At the voting tables there was a determined crowd. Mr. Elordi reigned supreme, and the Castro party carried everything before them. At two o'clock a picquet of of mounted, police took up their position in Calle Artes. There was the greatest excitement in the neighbourhood. In the balconies of the Brazilian Legation we saw H.E. the Brazilian Minister and Mr. Honkins attentively watching the stant occurrence. It is a mistake to proceedings, whilst in all the windows in Calles Corrientes and Artes which commanded a view of the church there were crowds. Some the National Government have made two or three young men, evidently after breakfast, drove up in a coach, got out, and when close to the tables a squabble ensued, revolvers were pulled out, and a young man named Silva was shot through the arm. Several parties were arrested, and order restored, but all during the day there was the most intense excitement in this parish.

At the Monserrat Parish the busi less of the day began in the most formidable manner. Over 200 of the narishioners assembled, all armed to the teeth, and many dressed in fighting costume. When Mr. Orr, who was on the committee, appeared, he was astonished at the bellicose appearance of saved out of 400. She was built in his friends: throwing open his coat, he showed all present that he carried no arms whatever, and besought of those present to return to their homes and lay aside their arms. This had the desired effect; nearly every one took Mr. Orr's advice, but the opposition party had picquets of armed men quired. The well-known philosopher and historian, Heinrich Ritter, has just died at Gottingen. He was born in 1791, and after having taken part in the War of Independence (1815), he commenced his carreer as academical teacher in Berlin whence he afterwards removed to Kiel and Gottingen. His works are too well known to require any special notice.
