For the last week Congress has been discussing this much vexed question-and as far as we can see at to their natural protector-the Nationthe present moment, is likely to con- al Government. tinue at it for another week, perhaps a month. > But unfortunately, we are sometimes obliged to swerve from our tives. course, and, although guarding our unbiased neutrality, approve or condemn certain governmental acts.

For the past few months, since President Sarmiento's accession to power, we had indulged in the brightest dreams of future prosperity to the country and prompt development of her industrial resources. We have had ample proofs and justifiable grounds for predicting such a state of by Zavalla; -and he was right. Zathings, as the port contract and others | valla would not recognise the obnox. of its class can testify. We are cognisant of the incessant work performed | vious decree ordering their arrest. The battalion of San Juan previous administrations-a legacy THE RIVER PLATE of 20,000,000 of hard dollars saddled the Chambers, preventing Zavalla's as a debt upon the nation in addition to a costly and almost endless war.

We also know that many important projects on immigration and industrial development lie upon the tables of the several ministerial departments, ready for presentation to Congress, and whose prompt resolution by that body is of the most vital importance to the country. And must we add, the members of Congress know all this as well, if not better, than we do. They also know that the question of San Juan is Patent Cask Stands, with corresponding Cocks merely an excuse and a pretext for a factious opposition to annoy the new government. As to the reinstatement of ex-Governor Zavalla, whether he be triumphantly carried back and placed on the 'Throne' of San Juan, or LIBRERIA AMERICANA he scalped by the Ranqueles, en route across the Pampa, we believe his

care not a fig. What they want is to destroy the moral influence of the Constitutiona Government, and possibly plunge the country into the horrors of civil war. Surely we have had enough of this for a half century past, and should now adopt a new policy.

We do not pretend to go into the merits of the San Juan question, or express an opinion as to whether the National Government acted constitutionally or otherwise; but what we do know is, that this whole question has arisen and had its origin from the fact that Dr. Valentin Videla had been elected as Senator for San Juan, instead of, and in opposition to, ex-Governor Zavalla. This post, together with that of Deputy to the National Congress, is eagerly sought after by every aspiring Provincial in the interior. An income of 3,500 hard compact. dollars a-year for three or six years, with a six months' annual residence in S E A M A N S M I S S I U N, Buenos Ayres, is doubtless an agreeable 'sensation' to break the monotony solved to accuse Zavalla criminally for

Parties that have succeeded in having his candidates not y t seen it, are recommended to pay a closed to the Drawingial Chamber of coupt upon for his own election as Senator, and all this in spite of the powerful influence of an almost autocratic Government.

> We must therefore suppose that Videla's candidates were the popular

He had lost the elections at the hustings, but he was resolved not to be outdone in the Chambers. The respectable position of Senator, with its gilded appendages, was not to be given up without a struggle, and hence, putting the Constitution in his pocket, he became the Cromwell of San Juan, and sent a file of bayonets to the Chambers, and drove the people's representatives to the public jail.

> He alleges as his reason for this that the representatives were not duly or legally elected, and asserts that their having assembled to exercise legislative rights and privileges was an act of sedition, and in direct violation of existing law, But ex-Governor Zavalla should have remembered that he was not the proper judge in the case, and that it was, and is, the prerogative of the Chambers themselves to determine whether or not newly elected members have been duly re-

turned, and should sit and legislate. The Legislative body of San Juan is composed of twenty-four members, with a President, and it appears that twelve of the number were obnoxious to Zavalla, and, consequently, ordered to be imprisoned. This order was arbitrarily carried out, as we have al ready shown, and the people of San Juan were deprived of Legislative representation-hence the Republican form of government no longer existed,

and the Constitution was violated. From the public jail of San Juan the incarcerated Deputies cry for help

This enraged the autocrat, and he decreed the expulsion of the battalion within six days from the territory of the province. General Arredondo. being in San Juan on a pleasure trip, was consulted by the Commander as to what course he should adopt. The General had a private interview with Zavalla, and tried to induce an amicable settlement of the question-but in

Arredondo was firm, and ordered the troops to remain true to the orders reseived from the Federal judge. We should here mention that Zavalla had try. some time previously sent his Minister Albarracin to treat with the National Government, and having complied with his mission, returned about this time to San Juan to find his master in open rebellion against the National authorities. His presence, and the result of his mission, when communicated to Zavalla, seemed to produce a change for the better in the agitated polltical circles of San Juan. Zavalla recognised the Legislature and some of its acts. The forces were placed at his disposal, as the then legitimate Governor of the Province, and all seemed smooth and quiet.

But anon; Mr. Zavalla, still smarting under the loss of his Senatorship, becomes again sulky, and refuses to recognise the acts of the Legislature. save from and after a certain date, ignoring most important laws decreed previously by that body.

Ex-Governor Zavallahas found sup porters in Congress amongst the ranks of the opposition, not because they conscientiously believe he ought to be supported, but because it serves as a pretext to annoy and hamper the Government, to prevent the Executive power from carrying out the most important projects ever yet initiated in the Republic, and whose realisation would elevate Sr. Sarmiento's party so high in public opinion as to crush for ever the hopes of a factious oppo-

To-day Sr. Paranhos, the special Brazilian envoy to the Plate, leaves for Paraguay. We understand H.E. is accompanied by Dr. Roque Perez, who goes as Argentine commissioner to represent this Republic on the installation of the new Paraguayan Provisional Government at Asuncion.

We seize this opportunity to salute this distinguished Brazilian diplomatist, whose name is so long linked with the fortunes of the River Plate, and thing is cheaper in Mendoza. whose conciliatory policy has wen for him a very prominent position in the brightest pages of this country's history. > ON CHANGE. June 26, 1869. 490 Sovereigns, Patacones, 59 National Bonds

was little animation in the Bond market to-day. Prices ruled firm, and in the liquidation slightly improved, sales for cash being done at 591. For the end of the month the sales were very trifling, amounting only to 20,000 at 591. The great speculation going on now is for the end of July. The sales to-day amounted to parties, they having had for eight years one of 353,000 Bends, opening at 577, and closing at the largest and most fashionably attended Board-584. For the first August 150,00 at 573: Total sales for the day 609,600.

The bulls still hold their own, and appear to have sufficient funds to carry the pre-ent speculation on to the end of July. Should they succeed in this, their gains, it is thought, will be enormous, owing to the large and continued oversales by the hears. There is great anxiety as to the probable amortization rate on the 1st of July: it is very generally believed that the rate will be higher this quarter than any previous; in fact, as the market stands at present none have Bonds to amortize, save the bulls themselves, whose interest it is to make the rate as high as possible.

There was much said on 'Change about the departure of Minister Paranhos, Dr. Perez, and the Paraguayan Committee, and it was rumored that the Minister of the National Government had been summoned by Congress to explain how Dr. Perez had been named without the previous sanction of the House.
