THE SHIP CAPTAIN'S APPEAL

We have received from the shipmasters at present in Montevideo the following important document which we trust will receive due attention in the proper quarter. We offer no opinion whatever on the grievances referred to, believing that we diss charge our duty to the public by giving publicity to the paper. Parties thoroughly conversant with the maiters therein referred to, would confer a public favor by pointing out the remedy as well as relief required. The foreign shipping interests of the ed at the Custom-house and the con-Plate are too important to be overlooksignees notified that the ship is ready ed, and we trust that the appeal of to discharge, if the consignees of the the shipmasters in Montevideo will goods are unwilling to receive them, lead to some effective results.

This is not only claimed by friend, a shipbroker, who demands respectable merchants or ship agents, from us our manifest, captain's bill of but they also demand 21 per cent comlading, and all other necessary docus mission, whenever the captain has ments, and to whom we have to look for the freight. If we comment or remark on our contract, we are at once told that neither bills, of lading or charter parties are of any avail in this port, and, no matter what the grievance, we must abide by the law of the country, which is useless for the shipowners-they detain our ships as long as they think proper for weeks and months together, although often laden

with mixed cargoes and perishable goods combined. 4th. On the delivery of the cargo, which is to be taken from alongside at the merchant's risk and expense, a common practice is made to lay on enormous charges on the ship for damages after the goods have been landed—sometimes for weeks laying on the wharves or quays, storehouses, &c., in Steamer Estrella, will leave every Saturday at 9.30 a.m. from the Tigre, in combination with the a.m. train from the Betiro, calling also at Zarate, Baradero, and San Pedro, and returning on tumbled about, broken, unpacked, rebales, cases, casks, or what not, are packed, and sent to their different con-

signees who still hold the freight to cover damage-claims made against the ship, as the consignees think proper. Surveys are held; our supposed man of business is notified previous to breaking bulk and delivering cargo; we request our consignees to send parties concerned, or come themselves and see the goods in their proper course. In nine times out of ten, no one attends: we deliver our cargo;then comes a long list of claims: short delivery after goods are landed, sent by the lightermen wherever they think velvet mounted in silver beautifully proper, leakage and breakage, rust on chased, and at the corners are 8 silver iron, weather damage in ship, on ornaments representing Justice, Union, wharves; and all this, although ex-
