THE CENTRAL PARK, NEW YORK.

The Central Park of New York is one of the wonders of the age, eclipsng everything in the way of Parks since the world began. The total area of the Park, according to the report before us, is 862 acres. The artificial pond between 5th and 6th Avenues covers 41 acres; the lake between 72nd and 78th streets covers 20 acres.

The Conservatory Lake near 5th Avenue covers 21 acres. The Pool near 8th Avenue between
