THE BATTLE OF LIFE

Which is continually going on between health and disease, has never received from any Medi-cine such marked and unnistakable assistance, on the side of health, as it has from

BRISTOL'S SARSAPARILLA.

This powerful vegetable detergent has been fully tested in nearly every part of the civilised world. It has been tried in long-standing

SCROFULA, and has invariably been successful in curing them. It has been again and again tested in Fever and Ague, Intermittent and Remittent Fevers, and always with the same excellent register.

it is a sovereign remedy—eausing new circulation of the blood around the edges of the sore, are speedily filling up and drawing together the slesh; which in old sores is generally inert and itself.

ifeless. In SORE EYES and RUNNING EARS

disease. In ULCERS AND TIMORS, the effect is equally gratifying, although, of course, it is necessary to persevere for some months in diseases such as those having their origin in bad blood and humors; and in such diseases as

CANCER, CANOER,
the Sarsaparilla should be continued for at least
four or five months after the trouble has to all
appearance been overcome, because unless this is
done, and the nature of the blood and humors be
entirely changed throughout the whole body, the
disease is liable to return with unabated force. In

BOILS and CARBUNCLES
the Sarsaparilla should be taken five or six times
a day, but not in very large doses—say two or
three tablespoonfuls at a time. And in all of
these diseases we strongly urgs the use of Bristol's Sugar-coated Pills, in conjunction with the
Sarsaparilla, taking two or three Pills every second night on retiring to rest. In this way cures
will be more speedily effected. BOILS and CARBUNCLES

Copy of a letter trom the late Colonel Hawker (the well-known author on "Guna and Copy of a letter from the little Colones and Shooting.")

Longparish House, hear Whitchurch, Hants, October 21, 1846.

Siz—I cannot resist informing you of the extraordinary effect I have experienced by taking only a few of your 'Lozenges.' I had a cough for several weeks that defied all that has been prescribed for me; and yet I got completely rid of it by taking about half a small box of your Lozenges, which I find are the only ones that relieve the cough without deranging the atomach or digestive organs.

September, the Duke of Edinburgh paid his visit to the Mikado, and the same ceremony was observed during his progress through the streets as on the occasion of his driving into Yeddo. A totally unexpected compliment, it was noticed, was paid to him, of which the Japanese officials had said nothing to the British Legation. The upper windows of the houses in the street along which he passed were all closed and sealed with paper bands. that no one might look down upon him. This is never done in Japan, except for the Sovereign. His Imperial |Majesty recived his gnest in the great audience chamber terms. Both stood, and the Mikado welcomed His Royal Highness to Japan in a cordial speech. The interview was short, as none of the Prince's suite were presented, and, after a suitable reply had been made to the Mikado's welcome, His Majesty said that he hoped in a few minutes to have the pleasure of seeing his guest in another part of the palace, and more minated the interview.

The Prince's party then retired from the audience chamber, and refreshments were served in an adjoining room, after which, with Admiral Kepnel, Sir Harry Parkes, and the gentleman of the Legation who was acting as interpreter, the Prince was received. though, of course, there could be no conversation beyond the mere come monplaces easily imagined between such an entertainer and such a guest: it was remarkable for more than one circumstance-chiefly, that for the first time the Mikado heard Japanese snoken to him by a foreigner. Hitherto, both in the case of his Imperial Majesty and the Shogoon, communication with the Sovereign on the occase sion of a minister's visit has always been through native interpreters. On this occasion it was properly arranged that the medium should be an Englishman, and the Mikado, while treated with all the respect due to his exalted rank, was consequently fully able to appreciate the relative rank of his guest.

The Prince offered him a magnificent liamond snuff-box, which he placed in his Majesty's hand himself, and the Mikado received the splendid gift with evident delight, which he repeatedly expressed. That he should accept a present made to him in this manner At Fray Bentos the late hurricane was another remarkable point. FLOWERS, FLOWERS, FLOWERS,

The Committee of Journalists, who have initiated the idea of giving a worthy reception to the National Guards of Buenos Ayros, take the liberty of addressing the Ladies of this City, whose tendor hearts ever beat in sympathy with great deeds, to beg of them "to collect as much great deeds, to beg of them "to collect as much flowers as possible" for the day on which those

brave men will arrive.

Let cach one do his duty on the people's holi lay; ours be the task of preparing the official reception, and let that of the Ladies be to cover Flowers the ground over which these galant men will march when returning to the bosom of their country after a campaign as ar-

The Cocoa for Cacao] of Maravilla, is the true Theobroma of Linneus, Cocoa is indigenous to South America, of which Maravilla is a favored portion. Taylor Brothers having secured the exclusive supply of this unrivalled Cocoa, have, by the skilful application of their soluble principle and chabotate machinery, produced what is so undeniably the perfection of prepared Cocoa, that it has not only secured the BLOOMSBURY. LONDON. pared Cocoa, that it has not only secured the preference of homoepaths and cocoa-drinkers generally, but many who had hitherto not found any preparation to suit them, have, after one rid, adopted the Maravilla Cocoa us their constant beverage for breakfast, luncheon, &c.

"A SUCCESS UNPRECEDENTED," See following Extract from the 'Globe' of B See following Extract from the 'Globe' of May 14, 1868:—

"Various importers and manufacturers have attempted to attain a reputation for their preparted Cocoas, but we doubt whether any thorough success had been achieved until Mesers. Taylor Brothers discovered the extraordinary quality of 'Maravilla' Cocoa. Adopting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes overy other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. LIEBIG'S

### Extract of Meat. (Manufactured in Fray Bentos.)

The "Extract of Meat," manufactured in Fray Bentos, by Mr. Giebert, is the 'only' Preparation guaranteed by Baron Liebig's Signature on each jar, and as such can be entirely relied on 'as the only genuine extract'

This article is strongly recommended both for its great superiority in delicacy of flavor, and from its being perfectly free from that nauseous burnt taste often found in spurious preparations.

For Infants and Invalids it is the most digestible feed known, and, indeed, perhaps the only kind that can be administered with perfect security in cases of great debility. security in cases of great debility.

For Families, the "Extractum Carnis" is the greatest boon yet discovered, inasmuch as it keeps well and replaces other remedies which require to be constantly renewed at the Druggist's

Shop.

For Travellers and Ship Captains it is the most portable and durable article that can be recommended; besides, it can be prepared at a moment's notice in the most outlandish place, or on the open sea in the most outnoish place, or on the open sea in the greatest storms.

If all a teaspoonful of the Extract in a breakfast cup of warm water will produce the most nourishing beef tea.

Jars containing 8 oz. (equal to 16 lbs. of fresh beef), \$35. Jars containing 1-lb. (equal to 32 lbs. of fresh

beef), \$70. N.B. Beware of spurious imitations.

We are enabled to soil the genuine Extract at the above-named prices, as we have made arrangements with Mr. Giobert to have a large and continual supply, and have no doubt but that the 'real' article, at such prices, will throw out of the market cheaper, but less efficacious, proparations.
