tion, promise to be the great events of the present year. From time to time it shall also be our duty to report minor items of progress, to suggest improvements and reforms, to pass in review the events of varying interest from day to day.

THE PROGRESS OF TEN YEARS. 1860-1870

The decade that has just come to a close has witnessed a development of industrial and general progress in this country such as we may vainly look for in any part of the Old World.

In 1860 we had fifteen miles of railway, to-day we have 472 miles in actual traffic, and 746 in course of construction.

In 1860 the only steam communication with Europe was the Royal Mail Company to Southampton.

In 1860 we had no other bank in Buenos Ayres but the Provincial.

In 1860 the wool and sheepskins of Buenos Ayres produced £911,000 sterling, and tallow £245,000.

In 1860 the Custom House of Buenos Ayres produced three million hard dollars.

In 1860 there were 6,000 emigrants. In 1870 we had just 40,000.

In 1860 the education of the Upper Provinces was confined to the University of Cordoba.

In 1860 agriculture was in its infancy, and improved machinery unknown.

In 1860 the Gran Chaco was still a wilderness unknown to white men.

In 1860 there are a dozen flourishing colonies, which have reclaimed vast tracts of land and brought them under cultivation.

In 1860 we had no tramways, no insurance companies, no water-supply, no roads in the Interior.

In 1860 we had no bridges in the Interior, no telegraph wires.

In 1860 we had no iron bridges, no new iron bridges have been ordered from England.

In 1860 we had no telegraph wires to Chile, the Lobos and Las Flores railways, the suburban tramways.

In 1860 we had no navigation of the Vermejo, and above and below all, the Cordoba Exhibition.

In ten years the city of Buenos Ayres has doubled its population; its trade has increased three-fold.

We have not adverted to the passing clouds that have at times obscured our horizon, the dangers we have passed through, the sharp trials that the country has known.

THE ROSARIO TELEGRAPH. OFFICIAL DOCUMENTS. National Engineer's Office, Buenos Ayres.

To H. E. the Minister of the Interior, Dr. D. Dalmacio Vélez Sarsfield.

In compliance with the instructions received the undersigned has signed an agreement with Mr. F. Madero.

In 1860 we had no other bank in Buenos Ayres but the Provincial.

In 1860 we had no tramways, no insurance companies, no water-supply.

In 1860 we had no bridges in the Interior, no telegraph wires.

In 1860 we had no iron bridges, no new iron bridges have been ordered from England.

In 1860 we had no telegraph wires to Chile, the Lobos and Las Flores railways.

opportunity to retrieve his mistakes, and is persecuted by his own countrymen.

The procedure of the National Government with regard to the Entre Rios difficulty has for the last five months been a most lamentable blunder.

THE WAR IN ENTRE RIOS. The procedure of the National Government with regard to the Entre Rios difficulty has for the last five months been a most lamentable blunder.

Why, when after the occupation of Entre Rios by the national troops for one month it was plain that four thousand troops of the line and two thousand of the rebels were present.

Had the Government no knowledge of how South American rebellions are carried on, that it sent a force equal to that of the rebel General to put him down?

The revolution has already lasted eight months, and if allowed to go on may soon plunge the whole of the Republic into the horrors of civil strife.

Let the Government be wise in time; let it immediately remedy its errors by which it is losing the respect of other powers.

CONTRACT. The Director of the Western Railway, Mr. Francis B. Madero.

The Director of the Provincial Government, and the head of the National Engineer's Office.

1. The National Government cedes to the province of Buenos Ayres the ownership of the telegraph line.

2. The Provincial Government undertakes to use its best efforts to deliver on the 20th February another line, which shall connect the central National Telegraph Office.

3. This line shall be in every respect the same as the one contracted for with the house of Fusoni Hermanos & Mavoroff.

4. If the line should not be finished before the 20th February next, the Provincial Government obliges itself to transmit by its wires, free of all charges.

Francisco B. Madero. The above is approved in all its parts. Let it be communicated, published, and entered in the National Register.

SARMIENTO. Dalmacio V. Sarsfield. IMPORTANT FROM 25 DE MAYO.

It is so seldom that there is anything in your paper about this part of the country, that a few remarks may not be uninteresting.

The 'seca' has been very severe, and coupled with the late frosts has done great injury to the wheat crops.

er, 75 Park and the high wind playing havoc with the leaves of the trees in exposed parts gave the weather the feel and appearance of autumn.

The Government is making efforts to complete the crews of the war steamers. The Port Captain has issued a notice offering 400 paper dollars bounty to every seaman willing to serve on board the Admiral Brown.

We have to thank Mr. G. M. Leab, representative of Mr. Hesperidina Bagley, for a box of his world-renowned 'refresco,' which he sent us yesterday as a New Year's gift.

The specimen print to be given this year to every subscriber to the London Art Union may be seen at the well-known library of Messrs Hilbert, opposite our office.

The specimen print to be given this year to every subscriber to the London Art Union may be seen at the well-known library of Messrs Hilbert.

A correspondent who signs 'Cabby,' considers our review of 1870 in yesterday's issue incomplete in consequence of our omitting to mention the introduction of Hanson cabs some months ago.

The notes of preparation for Carnival are already heard. The inhabitants of Calle Victoria have lately named a Carnival Committee.

Another deplorable case of infantile occurance in this city a few days ago, a young Italian girl placing her child, two months old, on the floor, then dragging it about with a rope round its neck till life was extinct.

The stamp is very simple, only bearing a female head representing the Republic, the words 'República Franc' above, and the value of the stamp below.

The Donati met with an accident to her engine when on her outward voyage; she was towed into that port, and subsequently proceeded to Rio de Janeiro.

There is little news to record from the sister capital. It is said that Apuricio is getting himself together again in the neighborhood of Pando.

A friendly living at Arrecoles sends us some interesting notes respecting the harvest in that partido.

A friendly living at Arrecoles sends us some interesting notes respecting the harvest in that partido. On the estate of Don Constantino Vélez Sarsfield a splendid crop has been raised.

The steam omnibuses on the Western Railway commence running to-day from the Parque Station to Flores and back.

There are only seven cases of small-pox in the Lazaretto, so the disease may be said to have almost disappeared from the city.

Don Hortensio Mendez has just obtained a concession for the manufacture of a new kind of brick made from coal. The peculiarity of these bricks is, according to a colleague, that the voice can be heard distinctly through a wall built with them.

The news from Santa Fe and Entre Rios yesterday were rather better. The steamer brought down the text of Jordán's proclamation to the Santa-Fecinos, which is couched in the frothy, bombastic style so popular with every class of the natives of this country.

Norma, with Mlle. Marchetti in the leading character, is announced for to-night at the Colon Theatre.

A man lying on a door step in Calle Europa had some chaff with a passing boy on Friday; the latter threw a stone at the man, who expired shortly afterwards, though the signs of injury from the missile were scarcely apparent.

The following returns of the number of passengers carried by the tramways during the month of October have been published:—

City of Buenos Ayres 57,678 Southern 34,328 Cuyo 39,832

DEFENCE OF PARIS. (By a special correspondent.) Since the present Government has taken charge of Paris, the late Mayor Haussmann has been put to the test.

The Donati met with an accident to her engine when on her outward voyage; she was towed into that port, and subsequently proceeded to Rio de Janeiro.

There is little news to record from the sister capital. It is said that Apuricio is getting himself together again in the neighborhood of Pando.
