Building Lots \$6.100 each.

This charming suburb commands a fine view of the city of Corooba in the low ground and the Sierras in the distance. It is proposed to establish here the new water-works of the Anissacate Aqueduct as projected by the Engineer of the Province, Col. Thompson.

The air is peculiarly salubrious and invigorating, and the site is destined to be one of the favorite summer-residences in the Republic. Villa Sarmiento comprises 70 cuadras (or 140 acres) half of which are already taken by English merchants and native families of Buenos Ayres.

There are two plasss, called Colon and 25 de Mayo, and the streets are 20 yards wide. The blocks are 100x100 varus, and each lot for building is 20x50, price \$6.100.

With the growing importance of Cordoba this docality will rise greatly in value, and the site is so well suited for country hopses, campled with this

so well sulted for country houses, coupled with the abundance of lime and timber, that families can have a delightful residence, within 2 days journey of Busnos Ayres, at a more nominal cost.

The Magellan's Mails.

The mails by the above steamer arived here yesterday morning, and were delivered at 11 o'clock.

The following are extracts from the atest papers: THE EASTERN QUESTION. Count Bismarck's despatch to Count

Bernstorff, announcing the concurrence of the different powers in the proposal of a Conference, which is dated from Versailles, the 3rd instant, is published in the Berlin papers.

Count Bernstorff is desired to communicate the fact to Earl Granville, at the unanimous acceptance of the proposal for a Conference, which I may regard as settled. In official circles in Constantinople the conviction is said to be general that the Conference which is to assemble in London will fail to preserve the continued maintenance of peace, The Porte is consequently making vigorous

preparations for war. The Vienna Presse states that the Czar has addressed an autograph letter to the Sultan. From other sources the reported understanding between Russia and Turkey is denied.

According to the Presse, of Vienna, the new Roumanian question has created immense excitement in that city. Roumania complains that her interests are injuriously affected by: the Treaty of 1856, and she claims to have them reconsidered. The Presse says it is a life and death question for Austria, and that the convivance of Russia is suspected.

Accounts from Bucharest state that theagitation for Roumanian independence is confined to the newspapers, for something very different from a and is not supported by the Government. Fully impressed with the importance of the occasion, and paying a high tribute of admiration to the civil and religious liberty which has existed in England almost without interruption for two centuries, Earl Russsel counsels an immediate raised by ballot if necessary, a force dmirable troops.

Count Bismarck has addressed a circular to the North German representatives at foreign courts, dated the 4th inst., in which he draws attention to the frequent escapes of French officers from captivity by breaking their word of honour. This proceeding, it is added, has acquired a special imporance from the fact that the French Government sanctions this violation of faith by giving appointments to those who escape, and that the French army does not refuse to receive into its pledged word. By this course the Freuch Government and all the officers serving under it assume a share of responsibility in this breach of parole. and to inform him of "our satisfaction The Gorman Governments have now to consider whether the customary alleviations of captivity shall benceforth be accorded to the French officers semble, will now take in hand the fur- by material guarantees which may in

prepared under the old process, cured many persons in this city and clsewhere, who, from selfabuse, had almost placed themselves beyond the reach of cure, but who ware cured, and since married, and have children. This is good evidence of its powerful curative and fruitful

efficacy.

As a Blood Purifier, it is superior to all Sarsaparillas—these decections are mere washes compared to the powerful, stimulating, strengthening, and life-invigorating effects of the true SARSAPARILLIAN RESOLVENT. So quick is
this remedy in passing into the circulation, that
it may be detected in the Blood and Unine in ten minutes after it is taken.

In ordinary Pimples, Blotches, Worms or Insects in the Skin, Black Spots, Sores, Eruptions, &c., a few doses is sufficient to make the skin clear, smooth, and healthy.

In aggravated Diseases of the Skin, Sores, Ulcers, Fever Sores, Sall Rheum, Syphiloid, Secondary or Primary, this remedy cures perman-ently, and has cured after the treatment of Ricord, Velpeau, Du Barry of Paris, and the same treatment in this country, failed. (For the theory of cure, see Dr. Radway's new medical book, Falso and True, now ready;) also, many other discovered the restriction of the country of diseases not proper to mention in a public adver-tisement. But so powerful is this remedy, that physicians, who formerly had no faith in Sarsaparilla, are deeply interested in its wonderful effects, as prefared by Dr. Radway in the SAR-SAPARILLIAN RESOLVENT.

It is acknowledged to be a superior, a safer, and more rapid cure than Buchu, Juniper, Cubeba. Turpentine, Copabia, &c., for all diseases of the Urinary, Bladder, or Uterine Organs, and the only cure for Ulceration and De-generation of the Kidneys. Sir—One of my children, aged two years and four months, being troubled with worms, I was induced to try your Bon Bons. I purchased some from Mr B. Wihtsker, Chemist, of Batley,

and after taking two only, she voided nine large worms. Two days after another dose, she again voided three more; three of them, the worst,

measuring from 8 to 9 inches each in length. I consider them a most invaluable remedy, and should be tried by all suffering from worms.

Now consists of five steamers, all constructed for, and specially adapted to the harbor work, such as the landing of passengers, parcels, and baggage, and for towage and special trips in the harbor, or to Colonia, Tigre, the Islands, or, in fact, to any more distant point.

It will be the Manager's special endeavour to give entire satisfaction to those who may employ the steamers, and, as he can scarcely believe any one will hesitate between sail and steam, when

the tariff is about the same, he may reasonably expect a good portion of the herbor work.

One of the steamers will leave the Mole daily

at 7 a.m., and one will remain in the Outer Roads, for the accommodation of Ship Captains

arriving.
The Steamers will always be ready by Day
