has a good chance of again occupying the throne of France. The capitulation of Paris seems to have struck the Republic a fatal blow, and it is impossible to think that any considerable section of the French people could bear the prisoner of Wilhelmshaven again as a ruler.

The European news, per Oneida and Astaire, with our Lisbon and London letters, causes such a pressure on our space to-day, that we are obliged to hold over a report of the meeting in the Plaza Victoria yesterday till our next issue.

There were very conflicting rumours yesterday morning respecting the epidemic. Many said it had increased, but some leading druggists informed us that the number of prescriptions for yellow fever received by them for the last two days has fallen off considerably, and all admit that very many of the fresh cases are of a milder type.

In San Telmo parish the plague is losing its hold but slowly, but in Barracas there is no exceptional sickness of any kind. We hear of several English and Americans attacked since Saturday, but most of them have recovered or are confidently expected to do so.

The Astaire of the Glasgow line of steamers arrived at Montevideo yesterday morning. This vessel brings three days later news than the Oneida, but nothing particularly fresh. Garibaldi has resigned his rank in the French Army which is another blow for the Republicans. The heroic city of Belfast has capitulated.

We find in our exchanges that Mr. Crabtree, general manager of the Northern Railway (whom we congratulate on the event) was elected an associate of the Institution of Civil Engineers on the 7th of February.

The Oneida brought out a very heavy mail this trip. As for STANDARD Court such an avalanche of newspapers, letters, circulars &c. has never been seen there since its foundation.

Nothing definite about the Argentine loan reached this per Oneida. An English contemporary of the 9th ult. says it was suspended. There is a general impression that there are too many fingers handling this financial pie; the cooks seem to be squabbling about their perquisites. They had better look alive, for John Bull will have plenty of home customers for his money if peace is signed between France and Germany.

Yellow fever has appeared at the Tigre. If the disease is let get ahead there, the result will be bad, as the town is not remarkable for cleanliness, and the ships frequenting that port (except the river steamers) are, we are told, in a perpetual state of neglect and filth.

genuine yellow jack in the town, would it be believed, cause a 'stampede' similar to that we have had here. The storm last week was severely felt in Rosario. The papers say the torrent of rain was something terrible, carrying away carts and horses, hogheads of sugar, hides, &c. The flood was so sudden that the washerwomen fled from the beach leaving, and so losing, all the clothes they were washing.

The Bernstadt colony on the Central Argentine Railway lands, is reported as doing very well; the colonists are said, however, to suffer some inconvenience from the straying of cattle on their farms, and no redress can be had up to the present.

We regret to find that Don J. Pina, President of the Health Commission of San Telmo, has fallen a victim to the pestilence. The deceased had never spared himself while attending to his perilous duties.

The prospects of the Argentine Mining Company have been reported on by Captain Vivian, a first rate Cornwall mining authority. His opinion on the subject has been published and is decidedly favorable.

Our London and Lisbon letters, per Oneida appear to-day. We received also a letter from our French correspondent, dated at Lille, which we intend publishing to-morrow.

The evil effects of any kind of panic, on however small a scale, are innumerable, and often very curious. We heard of a singular instance on Sunday last week when there was a little 'breeze' in the money market, and 'things' were not looking well on the Bolsa, owing to some banks drawing in their discounting horns more sharply than was at all requisite, a humble but thrifty man was recommended to draw \$40,000 m/c which he had lodged in one of the banks.

General Butler has proposed in the United States Congress a resolution welcoming O'Donovan Rossa and the other released Fenians to America. A new halfpenny paper, the Champion, in the Conservative interest, has been started in London.

The people in Cordoba continue very timidly lest Yellow Jack should pay them a visit. Domiciliary visits are now made every day. Money is tight, and trade is bad, nevertheless there is a good deal of building going on in preparation for the Exhibition.

England Feb. 7 1871. To the Editors of STANDARD and River Plate News. Gentlemen. The 'Henly Colony' is now a thing of the past, and the fate of the colonists not perhaps a matter of much interest to the public; but the 'reason why' it came to such speedy grief, is a question of great interest, not only to the friends of the poor young fellows who accompanied Mr. Henly, and paid their £150 each for leave to do so, but to many thousands of others in this old country anxious to try their fortunes in a less populous hemisphere.

Taking all the circumstances into consideration I think it will appear that nothing but the grossest mismanagement could have produced so sudden and calamitous a result. Mr. Henly cannot be excused in this matter. To take out a number of young fellows, many of them merely boys, with no resources but such as their friends have painfully raised for them, unaccustomed to work, and according to Mr. Henly many of them quite unfit for the purpose, to squander away the whole of the money subscribed for or by them, amounting in the whole to many thousands of pounds for which Mr. Henly had engaged to instruct and maintain them for the period of "two years or more," and then in 4 or 5 months turn them adrift in a foreign land, without friends or money and ignorant even of the language, and this it is understood being the second performance of a similar kind, can by no means be regarded as a trivial error.

of them, no doubt, justly enough, for not working; but how could any quantity of work have brought back the money squandered away; or enclose land, cultivate it, grow and reap crops, sell them, and provide cost and food all in a few weeks. The whole thing, from the day of leaving these shores to the break up, did not last six months, and we know there was neither land nor home for the parties on their arrival out, nor for long after, while they were kicking up their heels in Rosario. No, gentlemen, the money was no doubt all frittered away before it was possible, even under the most favorable circumstances, to get any return. There is no sufficient reason why such a colony should have 'signally failed. Mr. Henly says, "such is not the case," but he must be speaking of himself, for the pupils have lost their all, but with well-selected men, capital, implements, and the protection of members, although gentlemen cannot work against navvies, yet with brains and prudence there is abundant reason why such colonies should succeed; but then they must not squander their means in 'iron churches' and incompetent 'parsons,' the one to be sold off, and the other returned at great expense to the land which could spare him. The members must not go out with the idea of 'driving drags' or of flourishing about as 'mounted rifle corps,' all in the vain hope that crops will grow in double quick time, in order to replace the loss occasioned by the extravagance and wilful waste which has thoroughly characterized the mismanagement of the Henly Colony. I am, gentlemen, Yours truly,

AN ENGLISHMAN.

BRISTOL'S SUGAR-COATED TABLE PILLS.

These Pills have justly acquired a widely extended reputation for their wonderful cures of severe cases of sickness--cases in which all other Medicines had failed, and which had been given up by Physicians as beyond help--such as confirmed and long-standing Liver Complaints, obstinate cases of Piles, Dropsy, &c.

Purely Vegetable. For Loss of Appetite they are the only sure remedy, as they never fail in carrying off the depraved bilious secretion that floats in the stomach and destroys the healthy, natural craving for food.

BRISTOL'S SANSAPARILLA.

That best of blood purifiers, should be used with the Pills, the two Medicines being prepared exactly to act in harmony together. When this is done faithfully, we have no hesitation in saying that a great relief, and, in most cases, a cure, beyond human help, is effected.
