We are satisfied that there is a spirit in an ancient institution such as the Municipality far too valuable to be quietly suffered to taint and spoil itself by refusing all wholesome reforms The Municipality is one of the most ancient institutions in this Republic; its objects were good, its jurisdiction ample, but its powers, although ample when created, are far too limited. We must arm our corporation with more authority, and supply it with collateral help. We want a Board of Works and a Municipal Board of Health, and, as we have found good men and true, who to form these new boards, and thus establish a sound and practical Municipal Government worthy of the city

BRISTOL'S SUGAR-COATED VEGE-TABLE PILLS.

These Pills have justly acquired a widely extended reputation for their wonderful cures of severe cases of sickness—cases in which all other Medicines had failed, and which had been given The Bank of Maut & Co. is sufficiently known to the Public by the bonefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Maut & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos. Arrest and its neighborhood.

Medicines had failed, and which had been given up by Physicians as beyond help—such as confirmed and Iong-standing Liver Complaints, obstinate cases of Piles, Dropsy, &c. BRISTOL'S SARSAPARILLA, That heat of blood purifiers, should be used with the Pills, the two Medicines being prepared ex-pressly to act in harmony together. When this is done faithfully, we have no hesitation in say-ing that great relief, and, in most cases, a cure,

can be guaranteed when the patient is not alrea y beyond human help.

A Suburb of Oordoba. Building Lots \$f.100 each.

Building Lots \$1.00 each.

This charming suburb commands a fine view of the city of Coroobs in the low ground and the Sierras in the distance. It is proposed to establish here the new water-works of the Anisscate Aqueduct as projected by the Engineer of the Province, Col. Thompson.

The air is poculiarly salubrious and invigorating, and the site is destined to be one of the favoraties summer-residences in the Republic. Villa Sarmiento comprises 70 cuadras (or 140 acres) half of which are stready taken by English merchants and native families of Buenes Ayres.

There are two plassa, celled Colon and 25 de Mayo, and the streets are 20 yards wide. The blocks are 100x100 varas, and each lot for building is 20x50, price \$1.100.

With the growing importance of Cordoba this locality will rise greatly in value, and the site is well suited for country houses, ceupled with the ahuntance of lime and timber, that families can have a delightful residence, within 2 days journey of Buenes Ayres, at a more nominal cost.
