

Ku-kluxism, The Republican Party does not relish such an opinion from so prominent a man, yet there is little doubt as to its truth.

As regards the approaching elections, thus far Greely is the only candidate, being sustained by the Sun and regarded favorably by the World (surely his chances of success, with such support, ought to be great).

Grant will go in again, in spite of the fact that when elected President he declared himself altogether opposed to the 'two term presidency.'

The death of Brigadier-General T. J. Rodman, of Rodman gun fame, is announced; for some time past his health had been declining.

Seward is now in India for the benefit of his health, which seems too far gone to hope for recovery; last accounts place him at Delhi, where his reception has been made much of.

Rock Company). Wanklyn, Esq., Bankers. Messrs. Glyn, Mills, Currie & Co., Lombard-st. Bankers.

PROSPECTUS. This Company is formed to acquire the exclusive rights to the supply and use of the Bituminous Rock of Val de Travers for the Brazil, the Argentine Republic, Uruguay, Chili, and other countries of South America, excepting Peru, for which a contract has been entered into with the Nuechattel Bituminous Rock Co.

The demand for this pavement in South America is expected to be very large. It is believed that Buenos Ayres will find its use one of the most important measures for the prevention of the return of the frightful epidemic that has recently raged there.

On this subject Dr. Edwin Lancaster reports strongly as to its great advantages in a sanitary point of view, in respect of cleanliness and facility of cleansing, and the avoidance of the so-called 'contaminated' water into the subsoil.

The use of this Bituminous Rock for the paving of courtyards and flooring of houses will also be of the greatest value as a sanitary precaution.

The Val de Travers patent pavement is a species of asphalt, formed with a peculiar sand found in the Val de Travers, near Neuchatel, Switzerland. It has been laid in Champs-Élysées, Holborn, and other great thoroughfares of London, where the traffic is unceasing, and is pronounced a success.

Before proceeding further in laying wooden pavement in Buenos Ayres it were well to institute a comparison between that and the Val de Travers system.

EDITOR'S TABLE. The delightful weather yesterday attracted crowds of all classes out of doors, and the shops had a busy time of it.

Amongst the remedies suggested for the chronic state of broil and trouble existing in the Banda Oriental is one which commends itself strongly. It is that the city of Montevideo should declare itself a free port, leaving the rest of the country to try Blanco rule or any other it might find suitable.

We remind all charitable persons and lovers of the drama that Salvini appears to-night at the Colon Theatre in the 'Secreto de Familia' for the benefit of the orphans of this city.

PICKYUNE.

THE NEW PAVEMENT.

It may interest some of our readers to know that our friends abroad have started a company to pave the city of Buenos Ayres. The company has been formed in London, with capital, talent, and asphalt; and the probabilities are that before another year runs over our heads the streets will at last boast of decent side-walks.

THE SOUTH AMERICAN BITUMINOUS ROCK PAVING COMPANY, Limited. Capital £100,000, in 10,000 shares of £10 each, of which 5,000 shares are disposed of in terms of the Prospectus, and the remaining 5,000 shares are now offered.

have been considerable. These same tribes have carried off into slavery over 300 families. In Teheran the derisives are preaching a crusade against the Christians and Ferienghees 'Pour encourager les autres' the authorities laid hands on one of them, who was whipped him soundly, and turned him out of the town.

A subscriber writes to us asking, 'Is there any law in the land for the prevention of cruelty to animals?' and informing us that a poor half-starved horse has been allowed to wander about the beach at the foot of Calle Parque for the last month, dying of disease and want of food, yet the owner will neither shoot nor remove the animal. We call the attention of the police to this inhuman scandal.

Two important railway schemes have just been presented to Congress, one for a line from the banks of the Parana, opposite Corrientes, to Bolivia, via the Chaco Tucuman, Salta and Junco, the capital of the company to be £5,000,000; the other from San Nicolás to San Juan, through Santa Fé, Cordoba, San Luis and Mendoza, to govern to guarantee 7 per cent, on a cost of £5,600 per kilometre.

Residents of the Banda Oriental, who have just arrived in this city, to which they have come in consequence of the terrible state of affairs in the neighbouring republic, assure us that that country is in a truly frightful state. In the departments no one's life is safe; Whites and Reds shoot and kill indiscriminately, and young boys are dragged away from their homes to shoulder the musket, and become tender food for villainous saltpetre.

The pleasant little job of 'moving a mountain' contemplated by the Congress has already 'burst up.' At the third hole-and-corner meeting held on Monday some of the sharpest amongst the legislators declared that the 'capitalising' business was getting 'F.W.K.' by the public, and that the whole scheme was as good as 'dished.'

Yesterday a crowd of two or three hundred widows and orphans attended at the Italian Consulate in Calle Parque, where 5000 hard dollars collected in Italy for the yellow-fever sufferers were distributed amongst them by the worthy Consul. A great many applicants were Italians, but the funds were most impartially distributed to all who had claims, irrespective of nationality.

Deputy Carrea has presented a project to the Provincial Chambers to authorize the Bank to lend 25 millions of paper dollars to the Municipality, to meet the deficit in the municipal treasury, and 'study the hygienic measures necessary to be carried out in the city before the 1st of January.'

M. de Tocqueville, speaking of the state of Connecticut, at a dinner given to him in Paris by some Americans before the war, said 'Connect-de-g' de the little yellow spot (on my map) that make de clock peddler, de schoolmaster, and de senator. De first give you time, de second tell you what to do with him, and de third make your law and civilization.' Ah! gentlemen, dat little yellow State you call Connecticut-de-goot is to me one great miracle.'

ON 'CHANGE.

August 1, 1871. Bonds..... 125 Patentes..... 25 National Bonds..... 693 The Bond market values firm. Over 400,000 Bonds were taken up yesterday at the close of the month's transactions, to the surprise of most of the brokers. This very large amount of stock taken off the market has made Bonds much scarcer than money. A spirited bull could without much effort drive prices up 2 or 3 per cent, and as this is still much different of opinion respecting the negotiation of the loan, the time is opportune for speculation. Any advance in the rate will bring the bears into the market to sell short, as those who had the courage to sell short last month have made handsomely by the business. One or two parties possessing for the last year superior information have sold their bonds and companies in the market as purchasers, but cannot obtain the same securities under an advance of 10 per cent. on the prices at which they sold.

Money is each day coming more and more into the market. In a fortnight the wool business will be over. To-day there was a sudden jump in sheepskins, simply because buyers can get no more.

Sheepskins, muttons, and hams. Market to-day at 250 per dozen. Dry goods plentiful enough, but the prices from the U.S. are in general higher than the market, owing to the summer season, &c. All the exports, &c. formerly found employment in the market, are now offering in the market or lying in the docks. This money has been a saving in certain circles, and can be had at 7 per cent. per annum. All the banks are discounting liberally. As yet there has been nothing doing in exchange, and no opening rate for the market established. A sale of Buchanan's bonds, 5 per cent, £1,000,000, will be held on the 15th inst. The price will be 95. To-day the price of the 5 per cent. will be 95. To-day the price of the 5 per cent. will be 95. To-day the price of the 5 per cent. will be 95.

PURE COCOA LIVER OIL. (PREPARED IN ICELAND.) It is generally admitted by the Medical Profession, that while no remedy is so important as Cod Liver Oil, its beneficial action is too often interfered with by gross impurities. Not only is the Oil extracted from other species of Cod besides the true Gadus Morhua substituted, but adulteration with Oil derived from other fish, such as the Shark and the Skate, is largely practised.
