MIXTURA PARA TERCIANAS.
DE JAYNE,
A CERTAIN AND EFFECTUAL REMEDY
For Fever and Ague, Intermittent and Remittent Fevers, &c.

This class of diseases, so common in all part of the world, and specially prevalent in malarious districts and vicinage of water courses, are almost invariably accompanied by more or less derangement of the liver, and frequently by a defective action of the digestive organs.

The more breaking of the Chills is but a step towards completing a radical cure. The various organs of the body, especially the stomach and liver, must be brought to a healthy and vigorous condition before a permanent cure can be established, and this fact has been specially kept in view by Dr. Jayne in his treatment of these complaints. The use of Jayne's Ague Mixture in conjunction with the Sanative Pills as prescribed in the directions which a company each bottle, will not only

Break up the Chills,

But restore the system more particularly the liver and stomach, to a sound condition, and so prevent a relapse of Fever and Ague, by thoroughly

Eradicating the Disease.

And the best evidence of this is the invariable success which has always followed the administration of these remedies, as attested by the certificates published annually in Dr. Jayne's Almanac, and the wide-spread popularity of the Ague Mixture in those districts of the United States, where these diseases, for which it is adapted, most prevail.

All Dr. D. Jayne's Family Medicines are prepared only at 242 Chestnut-street, Philadelphia, and are sold by Druggists everywhere.

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

DR RADWAY'S
Perfect
PURGATIVE PILLS,

Perfectly tasteless—Elegantly Coated.

'Materia Medica' contains, in its repertoire, many purgative and cathartic agents that, for ordinary purposes, opens the bowels, and through what is called a 'peristaltic' movement, purges from the alimentary canal the faeces, and this is all. Such agents, for the purpose of cure, or removal of any settled cure, are perfectly useless.

Dr. Radway has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a Purgative, Aperient, Counter-irritant, Alterative Pill, that can be taken or administered with the absolute certainty of securing thorough expulsion of all decayed and decomposing element of the human body, and also safe to take in the most malignant of Eruptive Fevers. In cases where the mucuous membranes of the internal viscera are suffering from Ulceration, Inflammation, or from

LIVER
Gastric, Biliary, Pancreatic Complaints,
DR. RADWAY'S PILLS
Supply the only Vegetable substitute for CALOMEL OR MERCURA.

In Radway's Pills you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner As a proof of this—You are seized with a bilious attack! Doctor prescribes blue pills or calomel. Next, comes drastic aloetic pill or powders, to work off the effects of the blue pills this prostrates you, and a tonic is next given, to a gentle aperiant, whereas one dose of Radway's Pills will do all the work that the three or more prescriptions are given for, without running any risk from mercurialising or salivating the system.

Radway's Pills.

In Radway's Pills the true principle of purgation is secured—not alone to the office of dismissing the faces and excrements from the bowels, but these rumors that are checked or stopped in their passage through the Skin, Kidneys, Lungs, and all excreting and secreting functions; for if these excrementatious secretions belonging to the skin, liver, lungs, kidneys, are interrupted in their escape, they become products of decay and decomposition, and must be purged from the living body through their proper channels; hence the purgative qualities of Radway's Pills extend to the secretions of the Skin, Kidneys, Diver, &c.; whereas not one of the advertised Pills claim to act beyond the bowels.

How to take Radway's Pills.

Their daily use.

In doses of one or two pills, by all persons of a full habit of body, subject to giddiness, rush of blood to the head, palpitation of the heart, and all those subject to fits, will not only keep the blood from becoming congested or clogged up in the blood vessels, but will equalise its circulation, and prevent sudden attacks of apoplexy, disease of the heart, congestion. Persons who will take one of these Pills every day will not suffer from Head-aches, Dizziness, Hysterics, Fainting Spells, Pains around the Heart, and a hundred other disagreeable symptoms.

DYSPEPSIA

One of Radway's Pills, two or three hours before dinner, taken daily, will keep the system free from Dyspepsia, Constipation, Costiveness, &c. &c.

Bear in Mind,

Radway's Pills are the only purgative that will secure an alterative, diuretic, sudorific, aperiant, and tonic influence.

They are the only vegetable substitutes for Calomel or Mercury.

They promote the secretion of bile, and withdraw it from the circulation.

They assist, through their nutritous properties, the chyme and chyle, and gastric juices in the process of digestion.

They are elegantly coated with Gum, perfectly tasteless, and free from smell.

AYER'S HAIR VIGOR,

To restore the Natural Vitality and Colour of the Hair; stop its Falling, and promote its Growth; and to produce New Hair on Bald Heads. It prevents Dandruff; and is an elegant Dressing and Perfume.

Yielding to frequent and urgent solicitations from persons in all parts of the country who had experienced the virtues of our medicines, we began, several years ago, a series of investigations which should lead to the production of a really efficient Hair Restorer. After the most exhaustive researches into the diseases of the hair and scalp, and their remedies, aided by eminent chemists and physiologists, we have the pleasure to offer the public a preparation which cannot fail to win their confidence. It combines the more desirable qualities of the best preparations extant, without their objectionable ones,—the result of a determination to supply what should be both effectual and harmless, whereas many of the Hair Restorers in the market are feared as dangerous. The large number who have tried the Vigor speak of it in unqualified terms of praise, expressing the fullest satisfaction with its results.

It is a delightful dressing, rendering the hair soft, pliant, and glossy; and perfuming it with a new odor of rare delicacy, much admired by all who have used it. On account of these peculiarities, it is already sought by ladies whose hair is so abundant as to require only a rich dressing. It excites the scalp to excrete its moisture, so that, after the Vigor has dissipated, the hair is kept soft by its own natural lubrication.

All the above preparations are received monthly from

Dr. J. C. Ayer & Co., Massachusetts.

And they are to be had retail and wholesale from

Dr. J.C. Ayer's

Celebrated domestic remedies are now for the first time offered to the public of Buenos Ayres, although they have been well and very favorably known for many years in the United States and in Rio Janeyro. Their efficacy is undoubted and has been attested to by some of the most celebrated medical authorities of the age. They are not advertised as unfailing remedies for the certain cure of all the ills that flesh is heir to. Such unblushing puffs are left to those unprincipled quacks whose medicines cannot stand the test of experience or survive the analysis of the chemists. DOCTOR AYER'S medicines are only recommended as safe, domestic remedies; their components are well known and their preparation is no secret and they should be taken in exact conformity with the printed directions issued with each bottle.

Doctor Ayer's Sarsaparrilla.

For the radical cure of scrofula or King's Evil, and all scrofulous affections, Erysipelas, Eruptions and Eruptive diseases, Pimples, Blotches, Boils, Tumours, Scald head, Ringworm, Ulcers, Bores, Rheumatism, Neuralgia. Pain in the Bones, side and head, Female weakness, Syphilis and Mercurial Diseases, Dropsy, Dyspepsia, Emaciation, Debility and for Purifying the Blood. For some of the numerous evidences of the virtues of this specific see the testimonial presented with every bottle. There so many preparations now being forced upon the public that it is necessary to insist on being supplied with DR. J. C. AYER'S Sarsaparrilla and no other.

Doctor J. C. Ayer & Co's Cherry Pectoral

For the rapid cure of Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient consumption and for the Relief of Consumptive Patients in the advanced stages of the disease. This is an Anodyne Expectorant prepared on the newly discovered plan of cambining the isolated active principles of medicines in perfect purity, affording a remedy for pulmonary complaints which is found to give an energy and certainty of remedial effect by far surpassing any other hitherto known. His compound has has received the approbation of L'Ecole de Medicine, Paris: Royal College of Physicians and Surgeons in London; Queen's College, Ireland and numerous other medical Boards of the highest renown and reputation. No family should be without it and those who have once tried it will never use any other remedy. Refuse to take any other than J. C. Ayer & Co's Cherry Pectoral.

Ayer's Cathartic Pills.

For all the purposeof a Family Physic.

Nothing is more generally required, all over the world, than a safe and perfectly reliable purgative medicine. Such, we are sure, we furnish in these PILLS Free from mercury and every mineral and every deleterious substance, they are harmless to infants or the most delicate patients. Yet, composed, as they are, from powerful vegetable remedies, they are searching, and sufficiently active to cleanse out the obstructions in the most vigorous and robust constitutions. These Pills have been prepared to supply a safer, surer, and every way better purgative remedy than has hitherto been available to mankind. Their penetrating properties cleanse and invigorate every portion of the human organism, correcting its diseased action and restoring its healthy vitalities. All Purgatives sometimes produce pain during their operation, but these PILLS are far less liable to gripe than any other medicine which is as searching and effectual.

REVIEW FOR M.S. HIPPARCHUS.

Since the departure of the French mail-steamer Amazone, the most important event has been the passing of a new land law for the province of Buenos Ayres on a liberal system, very different from previous legislation in such matters. Suffice it to say that government lands within 200 miles of the capital may be purchased henceforward at prices ranging from 60,000$ to 80,000$ currency per square league, say two shillings English per acre. No lots less than 13,000 acres to be sold, and the payment in this form:—

10 per cent. cash.
11 per cent. at 12 months.
11 per cent. at two years.

and so on, till the whole amount be satisfied in eight years. A year's grace allowed in payment of any of the instalments, charging 12 per cent. interest annually. Parties paying cash in full allowed 6 per cent. annual interest on every year's instalment. The lands for sale are in the partidos of Junin, Bragado, Rojas, Lilcoln, Nueve de Julio, Tres Arroyos, and Necochea; in the three first named there are numerous Irish settlers, and in the Nueve de Julio many English agriculturists and sheep-farmers.

Public health continues good in the city, but fears are entertained that the hot weather of December may bring fresh sickness unless precautions be adopted. Mr. Coghlan has published an admirable paper on the subject, advising the appointment of city commisioners to enforce sanitary regulations and remedies.

Mr. Consul Parish, as agent of the East Argentine Railway Company (Entre-Rios and Corrientes line) presented the statutes to Government, which have been duly approved, as also the plans and route of the proposed line.

Much disappointment has been felt in monetary circles at the packet bringing no gold this time. The Douro arrived in this port last evening, and will sail on the 15th.

Exchange on England 49½. Nat. Bonds 69¾. Discounts 8 per cent.

The Douro's Mails.

Thanks to the attention of Captain O. Morse, we received yesterday morning at daybreak London papers of the 10th and Lisbon papers of the 14th. We extract the following:—

London, Monday, July 10.

There is to be a review of the troops at Aldershot to-day, and it is understood that her Majesty, with some members of the Royal Family, will be present.

On Saturday afternoon the Crown Prince of Germany, the Princess, and their children arrived at Windsor Castle on a visit to her Majesty. The Imperial party was met at the Great Western Railway by Prince Leopold. Two or three hours later the Prince and Princess Christian were at the S. W. Station to meet the ex-Emperor and Empress of the French, who had come to visit their Royal Highnesses at Frogmore.

Vice-Chancellor Wickens has made an order for the compulsory winding up of the London and Suburban Bank.

An arrangement has been come to by which the creditors of the O'Donoghue are to receive £3,000 in full satisfaction of the liabilities, and the bankruptcy will therefore be annulled.

It is announced that the new loan for Paris is to be six hundred millions of francs (£24,000,000 sterling), and that it is to be issued at the end of next month.

Most of the French papers comment in an unfavourable manner upon the manifesto of the Count de Chambord. The *Debats* declares that the white flag is as much dreaded as the red. Our Special Correspondent at Versailles says that the manifesto cannot fail to do good service to the Republic, and put an end to all fusionsist intrigues. The partisas of Henry V. in the French Assembly being unable to attempt any movement in his favour, owing to the result of the elections of July 2nd, the manifesto is in reality, our Correspondent says, a last dying speech and confession. According to the *Gaulois*, several of the Legitimist Deputies in the Assembly intend to resign their seats.

In the French Assembly, on Saturday, the Bill imposing new taxes upon sugar, coffee, tea, cocoa, and other colonial produce, was passed by 483 against 5. Previous to the debate the Minister of Finance announced that a large amount of that produce had arrived in French ports since the measure had been proposed, and it was, therefore, absolutely necessary that the new taxes should be at once introduced.

The General in command of the German forces at Amiens has published an announcement in the local journals that, stones having been thrown at the troops, any future attacks of the same kind will be replied to with bullets. The object of General Manteuffel's recent visit to Versailles was to complain of the tone of the French press, which is considered to lead to disorders between the German troops and the inhabitants of the occupied department.

General Faidherbe has published a history of the late campaign in the North of France, and has dedicated the work to M. Gambetta, as the Minister to whom he owes the honour of having commanded a French army before the enemy. M. Gambetta is, it seems, very popular with the army; the troops in Paris gave him 1700 votes, and only 1300 to General de Cissy. In the provinces the proportion was the same. It is said that M. Gambetta is about to establish a newspaper called *La Revanche*, and General Faidherbe will be one of the contributors.

Consols closed on Saturday at 93⅝ to 93¾ for money and the account. Although the amount of business transacted was small, a firm tone prevailed and a fresh rise took place in prices.

The House of Commons rejected by 289 votes against 231 the amendment proposed by Mr. Graves on the Army Bill to postpone the operation of the non-purchase clause. Mr. Cardwell replied, and was supported by Mr. Gladstone, that what England now wanted was an army commanded not only by brave officers, but also by skilful ones; that the first step towards reform was abolition of purchase. The Government had already reduced the term of service, but could make no further concessions. The Bill then passed its third reading.

Lord Bloomfield retires from the diplomatic service, and is succeeded by Sir A. Buchanan [brother-in-law to the Hon. W. Stuart, Minister at Buenos Ayres]. Lord Loftus goes to St. Petersburg. Mr. Odo Russell to Berlin. Mr. Tenterden succeeds Mr. Russell at the Foreign Office.

H.M.S. Agincourt, having lost her false keel in the Mediterranean, has put in with the rest of the fleet to Cadiz; she was making water very fast, but the steam pumps kept her afloat. After making repairs she will leave her guns at Cadiz and proceed to the Malta dockyard for a thorough overhauling. The crew were quite exhausted on reaching Cadiz.

Mr. Gilpin has called the attention of Parliament to the great slave trade still going on at Zanzibar, east coast of Africa. Dr. Livingstone asserts that it is privately encouraged by the Portuguese Government, and a motion is now before the Commons to urge Her Majesty to use every influence with the King of Portugal for the abolition of this nefarious traffic. An official report shows that 9,000 slaves were exported between 1862 and 1867, and as 5 out of 6 die before they reach the sea coast, it would appear that in reality 582,000 human beings have been sacrificed in that period.

The British Government refuses to allow the crown and sceptre of Theodore of Abyssinia to be placed in the British Museum as curiosities.

The English and American naval forces in Corean waters have combined to chastise some outrages by the natives. They have bombarded some forts and taken artillery and prisoners. It seems in the year 1866 the crew of the American ship General Sherman fell into the hands of the Coreans, who put some of them to death with great torture and exhibited the rest in cages all over the country, as if so many wild beats. Fortunately one of them survived and escaped, and Admiral Rodgers was sent by his Government with a vessel carrying Gatling guns to obtain satisfaction. Corea is a tributary country to China with a wild sea-coast 600 miles from N. to S., an army of 640,000 men, and a navy of 300 large junks, carrying 10 to 20 cannons each. Population 12 millions; extent about equal to England and Scotland. The coast is so dangerous that it is believed all the foreign navies in those waters combined are unequal to punish the Coreans as they deserve.

Two officers of H.M.S Salamis narrowly escaped assassination at Tien-Tsin. The cable is now complete from England to Hong-Kong; messages of 10 words 4 dollars.

The trade in Coolies between Macao and Peru reveals great atrocities; more than 1,000 poor Chinamen are entrapped monthly and forcibly put on board vessels for Peru, of whom one-half perish in the voyage. The Nouvelle Penelope had 310 on board, who mutinced and set fire to the ship: 16 reached the Chinese coast, but were put to death for the crime. The Coolies are bought at Macao at 60$ a head, and in Peru fetch 400$.

It is ascertained that the Communists at Paris burned six million documents in the archives, chiefly births and marriages.

The International Society held a secret meeting of delegates from all parts of Europe; They resolved to *remove* the crowned heads and hereditary princes, besides M. Thiers, in France,

A convoy of nine waggons, with 18 millions of francs, has arrived at Berlin from Paris. The military fêtes at Berlin have been on an unparalleled scale of magnificence.

In the Austrian Chambers the speech of Baron Beust was a great success, and meets with every support. The Emperor has conferred the Cross of Francis Joseph on the Prince of Java (East Indies) for his skill in painting.

Mr. Washburne, U. States Envoy at Paris, has promised to use his offices with the Cabinet at Washington for the surrender of any Communists who may have escaped to the United States.

The rebuilding of Paris goes forward actively. The Louvre, Palais Royal, St. Eustache, Palais de Justice, Column of July, etc are rising from their ruins, and before twelve months the city will be almost restored.

M. Thiers gave a grand banquet to the Orleans Princes, viz., The Count of Paris, Prince de Joinville, Duc de Aumale, and Duc de Chartres.

The Belgian Government had directed its Minister at Florence to accompany the Italian Government to Rome.

The ex-Queen Isabella is at Geneva, living with reduced retinue and expenditure.

Lord Aylesford has bought from the Empress Eugenie a necklace for thirty thousand pounds.

LATEST TELEGRAMS.

London July 12.—The Saxon troops made their triumphal entry into Dresden yesterday. The Crown Prince of Saxony was made a Field-Marshal. It is hoped that the new manifesto of the Count of Chambord will contain his adhesion to the Republican form of Government in France: he has arrived at Bruges. The Prince and Princess of Wales are gone to Germany. In the House of Lords Earl Granville said, in reply to Lord Strafford, that he considered it very improbable that the Turkish Government had given permission to the Russian fleet to pass the Dardanelles.

Paris, 11.—The *Temps* asserts that the first payment of 500 millions (20 millions sterling) will be made to-morrow; and then the Germans will evacuate the departments of Eure, Somme, and Lower Seine.

Paris, 12th. The *Journal Officiel* declares a forgery the letter attributed to Thiers, and extracted from an Italian paper; it is just as false as the statement of the *Liberté* that thousands of women have been transported since the insurrection. Not one woman has been exiled. The Assembly alone has to deal with them. General Faidherbe has received the grand cross of the Legion of Honor.

London, 13th.—In the National Assembly Mr. Jules Simon declared that the present Assembly was the freest ever elected in France. Mr. Jules Favre stated that the pretended letter of M. Thiers to the Pope is an invention.

London, 10th.—The Emperor and Empress of Brazil visited her Majesty at Windsor Castle, accompanied by Earl Granville in a State coach. The Queen received them most kindly, and, although it was raining, drove them through the grounds to show them the beauties of the place. The Emperor is to be invested with the order of the Garter in great state. His Majesty and the Empress dress in mourning. They are still staying at Claridge's Hotel.

LATEST FROM UNITED STATES.

On the 23rd of May a party of Indians composed of Kiowas, Apaches and Comanches captured a railway car belonging to a train of 12 cars that was passing about 80 miles from Fort Sill, beween Salt Creek and Belknap fort. The passengers fought for their lives, but were overpowered, 5 of them being killed and 2 taken prisoners: the latter were then placed on the roof of the car while the flames lasted. Some days later 3 Kiowa chiefs arrived at Fort Sill and boasted they had killed 5 white men and burned alive 2 others in Texas. General Grierson sent and captured them; their names are Satauk, Santanta, and Big Tree. On the 29th the Indians attacked Whelan's Ranch, 8 miles from the fort, but were repulsed with 9 killed: there were also 4 whites killed. A detachment of cavalry is in pursuit of them. It is thought the Indians will give much trouble this summer.

On June 13th Galveston was visited by a terrific storm, which began at 10 in the morning and lasted till midnight. The new church of St. Patrick and several other buildings were blown down. The steamer Mollie Hambleton went down; the Emily with 900 bales of cotton, and the Superior, shared the same fate: 5 vessels in the outer roadstead were also missing.

Messrs. Massy & Co. of New York have obtained a privilege from the Mexican Government for establishing lotteries, which has given rise to much controversy. All the Mexican papers express fears of the United States shortly absorbing Mexico. An English newspaper in the American interest is about to be established at Mexico city. Great outrages are reported in the various provinces, in connection with the elections soon to come off for a new President. Porfirio Diaz is hostile to the Americans, and as Juarez tries to be re-elected a revolution is daily expected. The government has dissolved the new Ayuntamiento. Much alarm and discontent prevails. Don Manuel Pazno was named Minister to Washington, but has refused the post. A colony of 1000 Alsatians is expected from France, to be settled in the suburbs of Mexico.

BANDA ORIENTAL.

Porongos, July 30, 1871.

Estancieros in this decidedly English neighbourhood have not been having a very easy time of late, as the two rival armies of Blancos and Colorados have been crossing backwards and forwards, leaving their marks behind them in the shape of half-eaten cow,s sore backed horses, &c.

On the 10th inst. the White army crossed some seven leagues to the South, many of the men in a wretched state, some without 'recados' or 'ponchos,' others bare-legged and with only a shirt and 'chiripá'; one man was so reduced in clothing as to beg the loan of a sheepskin. As they march forward parties scour the country driving together everything in the shape of horse flesh into the nearest 'corral,' lassoing 'potros,' mares, and even stallions; of course, without deigning to ask the leave or licence of the owners. Remonstrance is in vain, and you may think yourself lucky if the horse tied at the 'paleuque' is spared, and frequently this has to be unsaddled at the bidding of some ruffian with a white 'divisa' on which are embroidered such words as "La Patria y la Libertad," "Vencer ó Morir," &c. The wants of these men are insatiable, they act on the principle of losing nothing for want of asking caña, tobacco, biscuits, coffee, yerba, &c. Meat and firewood they take without asking, and then probably ask if you have not a few eggs to bestow. The officers can barely be distinguished from the men, and appear to possess no authority.

At two days interval followed General Castro with the Red army, and the same thing was repeated. They encamped close to the Sierras of Ojolmi, and failing a supply of firewood burnt the stock of empty casks of a neighbouring graseria, and the whole of the 'tablas' and corrals of an Englishman, besides killing a hundred and fifty of the latter's sheep, stealing his fowls and turkeys, and all his pots and kettles. He applied to Castro for redress, which was refused on the ground that he was 'a medias' with a 'blanquillo.' At an adjoining estancia, the owner of which is of White 'proclivities' as the Yankees say, they killed all his milch cows, half his fine flock, and 'lanceado' his choice rams. Tame bullocks go as a matter of course, and the owner is lucky if he gets back half, after marching with the army for three days.

After a week's interval of quietude, news came of the battle of San Juan, and flying partidos of 'dispersos' began crossing camp. Aparicio and about 1200 men passed to the south of this place, on their way to Cerro Largo; and a nice time they must have had, as we had a three days' 'temporal' and all the streams 'crescida.'

This week we have again had the Red army on their way to Durazno, and from them we learned details of the battle of San Juan, which took place on the camp of the Englishman named Suffron. In the first encounter the White cavalry gained the advantage and nearly turned the left wing of the Reds, but eventually succumbed, as the untrained gauchos could do nothing against the squares of the drilled infantry of the Government.

Gen. Medina's horse was 'boleared' as he was galloping away; the old man gave himself up as prisoner, but was immediately 'lanceado,' and his captors tied a lasso to his legs and dragged him at a gallop up and down the whole line of soldiery. His ears were cut off, and the body buried upright in the ground as far as the shoulders, while the delighted Reds yelled and danced round him. Twice he was buried and dug up again, and finally Castro ordered the grave to be covered with heavy stones. I doubt if the native press will give you these details, as they were related to the writer by an 'ayudante' of General Castro. Had they been told by the Whites they might be taken 'cum grano.'

Both sides will deny the cutting of prisoners' throats, but let either side get a quiet chance, and their prisoners have no escape. I could tell you of numerous instances of its being done, and the officers admit they cannot control their men, who will even wrangle among themselves for the privilege.

Only a month ago, an acquaintance of mine was present at the principal fonde of San José where the principle was fully discussed among a lot of White officers, some advocating it openly, while others thought it 'una barbaridad.'

Such are some of the delights of civil war in the Banda Oriental!

The camps hereabouts are now in good condition after the 'seca' of last summer, and sheep are fat and the lambing nearly over, which altogether has been favourable owing to the nice open weather; and with the improved prices for wool, brighter times appear in store for sheepfarmers.

Sales of capons have been making lately at 11 and 12 reals paper (28 and 30$ m|c.), but sheep 'al barrer' are very irregular. Actual sales this month have taken place at 3½ to 5 reals, but sellers, unless hard pressed, stand out for 8 and 10 reals for good class of sheep.

Cattle are dear, and fat cows sell at $10; but if this war lasts, 'quien sabe' what will become of them, as few people have horses sufficient, or peons to look after them, or even bring them up to 'rodeo.'

EDITOR'S TABLE.

The Royal Mail Steamer Douro did not arrive in port till late yesterday afternoon. Thanks to the activity of our correspondent in the sister city, and the kindness of Captain O'Morse of the Villa del Salto, we received at an early hour the only English paper that reached Buenos Ayres yesterday, and we extract from it in another column. The general news by the Douro is not of importance. The fact is that the exciting events in Europe last year have quite spoilt the public taste for news, which is looked on as worth little, unless announcing some stirring or startling event. All our colleagues have abandoned the publication of bulletins, and the STANDARD war gong is getting quite mouldy through want of practice.

An awful accident occurred on the Boca Railway, near the Aduana, on Monday afternoon. A peon and an orange-vendor got up a dispute while standing on the line, and while tussling with each other did not hear the warning whistle of an approaching locomotive with a train attached. Both men were struck by the engine and killed on the spot, the peon's head being crushed into powder, while the orange-vendor's body was torn to pieces. As far as we can learn no blame can be attached to the driver of the engine, who did his utmost to avoid the catastrophe.

The new French dramatic company made its 'debut' at the Victoria Theatre on Sunday night, and made a very favorable impression on a crowded audience, chiefly French, which sat out the merits and demerits of 'Le Bossu' till half past one o'clock on Monday morning.

The London papers of the 10th July mention that a grand banquet was to be given at the Guildhall to the Emperor of Brazil and the Imperial Prince of Germany, both of whom were in London at the above date.

The investigation into the late Custom-house robberies is supposed to be going on. Several small traders in town are said to be implicated for purchasing the stolen goods, which are valued at one million and a half currency. In the Custom-house itself, however, there is evidently 'nobody to blame,' for the inquiries up to the present only brought about the arrest of half a dozen peons, and peons are 'nobodies.' A thorough investigation would, perhaps, disclose some culprits higher up in the social scale.

It is said that the National Government is about to purchase two used up monitors and two ironclads which have been condemned by the Navy Department of the United States. Nothing can be done, however, till Messrs. Murrietta send out a little more gold, which does not look likely just now.

Some of the city Health Commissions hold a meeting to-night in the Victoria Theatre to make arrangements for joint action in case the coming summer should bring another epidemic with it. This slight symptom of a desire to take time by the forelock is so far satisfactory, but parish commissions can do little while the higher authorities are indifferent to the danger.

Spring is already giving signs of her approach. Yesterday we perceived the first buds on our peach tree in Standard Court; the vinery also looks most healthy, and promises a splendid yield.

From Asuncion we learn that a project has been laid before the Chambers to free all home produce from any duties whatever. The Legislature refused to entertain the bill brought forward by the Executive for the emission of half a million patacons and the sale of public lands. The Asuncion papers state that the Commercial Bank will open in that city about the beginning of September.

Presidents Sarmiento and Batlle have exchanged letters on the subject of the civil war in the Banda Oriental. His Argentine Excellency proferred some capital advice and friendly mediation, which his Oriental Excellency is unable to accept, declaring that the rebels must 'cave in.' President Sarmiento's letter betrays in every line an honest and anxious wish that peace should be restored to the afflicted sister republic.

The Rosario saladeros received 2,064 head of cattle for killing on the 5th inst; all the Entre Rios saladeros are also said to be doing extra work.

The Entre Rios Government has decreed the enrolment of the National Guard. All Benedicts from 17 to 45 years of age are obliged to serve, while the term for 'unwedded Bohemians' extends to 50 years.

A duel strictly 'en regle' came off lately between two women in Uruguay. The challenged party selected knives as the weapons. The fight was a sharp one, each virago aiming viciously at her opponent's face. Both women were finally carried off the ground with half a dozen wounds each.

We remind the public that the great theatrical event of the season—Salvini in Othello—comes off to-night at the Colon Theatre. We understand that no expense has been spared by the

Prince of Empresarios, Pestalardo, on the 'mise en scene,' so Shakesperians may count on a treat. Salvini's engagement will not last much longer, and none should miss the present opportunity of seeing the great actor in his best 'role.'

We take the following important intelligence respecting the increase of the German element in the States from a New York colleague:—"From Watertown a correspondent writes to the Cincinnati *Volksfreund* that, with the exception of a place here and there, the whole of South-eastern Wisconsin is now almost entirely German, and that in the other portions of the State the native American element is regularly and rapidly retreating. He says that the especially German districts are already too much overpeopled for agricultural operations in the American method, and a strong tide of emigration has already set in for Minnesota, Nebraska, and Iowa. The younger sons of farmers are furnished by their parents with money to found homes in those States, and the small farms are bought up by the extensive landholders. Meanwhile immigration from Germany continues, and contributes to keep up the price of land.

We call the attention of the North American residents to an advertisement which appears in this issue in reference to the American department in the English Cemetery. Mr. Clapp, U.S. Consul, has called a meeting to-morrow in the American Church, Calle Corrientes, to consider the subject.

A Michigan paper announces that one of the noble army of martyrs who face death on the flying trapeze made a miscalculation while performing at Saginaw the other night, and fell a distance of fifteen feet, nearly crushing the breath out of the talented leader of the orchestra, and rendering the first violin a wreck.

The vacancies in the Metropolitan Chapter have been filled up. We are happy to see that our talented and much esteemed countryman the Very Rev. Canon Dillon has been named treasurer of the Chapter, a proof of the high estimation in which he is justly held by the clergy and the Government.

The rumor that Santa Fé was to be subjected to a process of Federalization, to enable the capital question to be settled, turns out smoke, and has been officially contradicted by the Government of that Province. A Rosario paper started the 'canard.'

The worst joke says an exchange, that was ever perpetrated on scientific men took place recently at Louisiana. A man was sick with rheumatism or something, and a fellow went around to the doctors and professors and told them that it was the queerest case on record. He said the man had no feeling. You could stick pins in his body all over, and he paid no attention to them at all. He was perfectly numb. So the doctors got together and called on the sick man to experiment. All arrived with pins, needles, and bodkins. The man was asleep and they got around him, and each one stuck his pin in the patient. The sick man rolled over, and looked at the crowd, and thought they had come to dissect him; so he took a chair in one hand and a bedpost in the other and drove the crowd thence. They were around several days after with their heads tied up, looking for the man who said the sick man had no feeling.

The tramway line at Lujan, from the station to the town, is expected to be completed in a month from this time.

The Hipparchus sails to-day, and the Pampa to-morrow, for Europe; letters can be posted on either day up to 1½ o'clock, at the Capitania.

Another insignificant fight has taken place between the Blancos and Colorados near Mercedes, the former being defeated and many prisoners taken. Those prisoners state that the number of Blanco refugees in Rio Grande is very great and daily increasing.

The National Chamber of Deputies has passed the bill for the working of the guano deposits in the islands and on the coast of Patagonia, reducing the export duty to one dollar per ton, instead of two, as proposed by the Senate.

There were two or three fatal cases of typhoid fever amongst the registered deaths last week. It must not be forgotten that the epidemic of last year commenced with this disease, which easily transforms itself into yellow fever. The *Republica* says that a great many families are already making preparations to leave town the moment soft weather sets in.

The Municipality has applied to the Superior Tribunal, begging that court to take some steps to have the numerous closed 'fever dens' opened, as they are a terrible menace to the public health. The Government appears determined to do nothing in the matter, which seems nobody's business.

All town was 'cramming' Othello yesterday. Most of the morning papers published the plot and some extracts from the text, which reads 'awful' in Castillian.

We understand that the proprietor of the French Botica, which was burned the other day, and who, it was stated, had been arrested, was not detained long in 'durance vile,' but was set free on going through some trifling formalities.

Great preparations are making at Ranchos for the forthcoming steeplechase meeting on the 15th inst. We hear that the 'big jump' will be fourteen feet of water, so that if a majority of the field negociate this safely it will be a practical answer to those who affirm that the little horses of the country are unable to act under weight. Some of the animals engaged at Ranchos will probably figure at Lanuz on the 8th of next month. Enquiries are made along the line as to whether the Southern Railway intend to grant return tickets to Ranchos extending over two days, so as to enable those at a distance to get comfortably there and back.

CORDOBA EXHIBITION.

Cordoba, July 1, 1871.

In a late impression of yours I observe a paragraph stated to be written by a late visitor to this city in reference to the Exposition shortly to be held here. Now, as this is likely to mislead your readers in some respects, I think it right to contradict some of the statements contained therein. I have been a resident of some months here, and have, through the kindness of some gentlemen connected with the Exhibition, had an opportunity of visiting the building, and examining the very charming collection of articles, both of industry and produce, which have been collected together under peculiarly adverse circumstances.

To begin with, the building is not, as your correspondent states, dusty The goods are in a perfect state of preservation, and roofed, I believe, as well as it could be. Again, foreign countries are well represented; England, instead of showing only rickety nedsteads and a few bottles of Tennent's beer, having several well filled cases, Messrs. Atkinson, the Bond St. perfumers, exhibiting the same as at the Paris Exhibition, 1867; Messrs Peale, saddlery; Samuel Jack and Co., hardware, Wolverhampton; Barbour, Barclay and Co., prints, Manchester; Mr. Andrews, Whitby jean; Burney and Co., tanks and cisterns, and many others too numerous to mention. There is, I must mention, a splendid assortment of electro-plate. The United States makes a good show, and, but for the late continental war, I have no doubt that France and Germany would have also contributed more largely.

The machinery is very interesting, the agricultural implements in particular. The grounds and gardens are tastefully laid out, and altogether I anticipate a brilliant success for the first exhibition of industry held in the Argentine Republic.

I am, Gentlemen.
Yours obediently,
ENGLISHMAN.

ON 'CHANGE.

August 8th, 1871.

Doubloons	400
Sovereigns	125
Patacones	25
National Bonds	69½

The Bond market ruled a shade firmer to-day; there was less disposition to sell and more to buy, but all parties are awaiting their letters by the mail, and nothing further is known about the loan. The Douro left Montevideo at 2 o'clock this morning, and was expected in early this afternoon. The Montevidean steamer brought up to many of the houses their letters: the great rise in all descript on of River Plate produce and the plethora of money in the London market is fully confirmed. There is now no longer any discussion on the subject of a National Bank or Caja de Credito, and it is supposed that as the proceeds of the loan will remain in England for some time, possibly until the works are commenced, it is unnecessary to discuss any further these rather premature measures. The explanations of the Finance Minister to Congress are looked for to-day. Both houses are in the greatest state of anxiety to learn the real terms upon which the loan has been placed. Most of the brokers asserted on 'Change to-day that it was known only a portion of the loan had been done after all, but those acquainted with the rules of the London Stock Exchange insist that the whole must have been placed, otherwise the scrip would not be allowed to be quoted.

The Exchange market looks firm, the rates to-day ruled at from 49¼ to 49¾. Bills were passed at both rates, and a good deal doing.

The great rise in the value of Titulos de Mauá at Montevideo, week after week, has caused much attention, the last quotation being 94. The *Telegrafo Maritimo* contains the following remarks:

"Three years ago the city was overtaken by a banking crisis of such magnitude, combined with an uneasy condition of politics, that the commercial and financial interests of the country seemed on the verge of ruin; something like what the economist Wolowski described as having occurred in England in 1867. Everybody wanted to be paid at all hazards, and the doors of the banking houses were besieged by an impatient and excited crowd.

"The Mauá Bank, which had been so liberal to its customers, especially the small dealers and tradesmen, as also to the producing classes, was more run upon than the rest, since it had in a measure become the great bank of the state, and lent every assistance to the Government. At so trying a period political animosity was also brought to bear against it, and it was forced to arrange with its creditors in Titulos, or Bonds, of which two or three millions were issued at 9 per cent. annual interest, the whole to be redeemed in four years.

"These Titulos are now quoted at 94, and will soon be at par, although the interest at 9 per cent. is comparatively low, for we often see some of the first houses in Montevideo taking money at 1½ per cent. a month. The reason the Titulos are so well maintained is that Baron Mauá spares no pains to keep up the high reputation of his house. One amortization has already taken place, and the second comes off next October, after which these securities will probably reach par, or perhaps a premium. The Mauá Bank was allowed to re-open on May 31st, and its balance-sheet for one month, to June 30th, shews the following surprising figures:—

Sums advanced on bills &c	$437,756
Paper emission	16,000
Specie cash in hand	79,493

"These facts speak highly for the Bank."

The Bond sales to-day were as follows—

For cash	5,000 at	69½
"	20,000	69¾
Aug. 31	10,000	69½
"	15,000	69½

In the liquidation there were several sales for the end of the month at 70.

The amortization of the debt known as the Buschenthal debt took place to-day. The following are the lucky numbers—

1939	1260	939
1649	2024	2834
871	2542	345
638	2426	2166
2399	562	2812
679	537	725
2192	282	1432
743	2298	1561
597	2332	2043
1550	2719	76
2670	2518	

The Hipparchus sails to-morrow with the English mail of the 9th.

The business of the North Plaza to-day was extremely limited. No wool sales, save a lot of skin wool sold on a tannery at 60.

Sheepskins 2:0 doz.
Matadero 275 do.
100 do. at 170.
150 do. at 130.
1500 cow hides, 147 to 150 per 35 lbs.

In the South Plaza there are from 30 to 40 carts with wool and skins.

Capones are only saleable for butchers' prices—for from 15 to 20.

Greave, 42 to 50.

The last mails from Asuncion state that the Paraguyan Legislature has thrown out the bill for the Government paper emission of half a million patacons.

The latest quotations from London (July 10) give the new Varela loan at 91½, and the Rivadavia six per cent. at the same price, 91½. Thus both the Argentine loans are at the same quotation. The portion of the Varela loan all paid is at 90½ to 91½, and the scrip £50 paid is at 2½ to 3 premium.

Buenos Ayres Bonds at 99.

Do, Dominguez loan 1870, 92½.

The great abundance of money in the London market has drawn the discount rates down to 1½ to 2 per cent per annum.

The business at the Custom House to-day was as follows:—

Powell, 8 boxes sauce, 2 casks pots.
Moore, 4 do tobacco, 20 do furniture.
Forret, 1 do cigars.

WHY BRISTOL'S PILLS ARE POPULAR. Because they relieve the bowels, tone the stomach, regulate the liver, and promote the general vigor of the system, without causing pain. Because their action is not followed by increased constipation, and the necessity for larger doses. Because they are a safe cathartic for the weakest, as well as active enough to relax the constipated passages in the strongest. Because they created an appetite and revive the mental energies. Because they never produce tenesmus, but act like a healing balm on the irritated membranes of the stomach and intestines. Because no mineral ingredient pollutes the pure vegetable, antibilious, and aperient substances of which they are composed. And because they act in harmony with nature, and without violence. In all cases arising from, or aggravated by impure blood or humors, BRISTOL'S SARSAPARILLA should be used in connection with the Pills.

A new and certain cure of all Diseases of the
CHEST and LUNGS.

The Pectoral to be given in a little cold or tepid water, and the dose repeated every two, three, or four hours, according to the nature and urgency of the complaint

Dr. JACKSON'S
BALSAMIC PECTORAL,
Is a remedy long employed by the eminent Physician whose name it bears, and is carefully prepared from the original receipe by the present proprietors.

It is composed entirely of vegetable products, and combines valuable expectorant qualities with those of a soothing and curative nature. It has already won golden opinions in Europe by its wondrous effects in allaying pulmonary irritation, and its promoting a healthy action of the membranes lining the throat and lungs, arresting the progress of disease and decay, and even, when used at an early stage, arresting that most terrible of chest diseases—Pulmonary Consumption.

SAVINGS BANK
BANK MAUA AND Co.
101--Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current we now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes alorady mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum rom Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. p. ⅋ per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds Twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishe can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

CURTIS'S AND HARVEY'S GUNPOWDER.

REPORT OF THE SPECIAL COMMITTEE OF PARLIAMENT.

The superiority of this Gunpowder, especially for military purposes, has just been established, beyond all dispute, by the Report of the Special Committee of the British Parliament, which thus accredits its unequalled qualities:

"The powder first tried by the Committee in the Boxer-Henry Cartridge, and of which they entirely approve, is known as 'Curtis and Harvey, No. 6.' Several other descriptions manufactured at the Government Factory, Waltham Abbey, have also been tried, but have not afforded the same uniform accuracy of shooting.

"There appear to be difficulties, confined, it is believed, to the question of expense, in producing a powder at Eltham Abbey, in all respects equal to 'Curtis and Harvey, No. 6;' but the Committee, keeping in view the importance of maintaining the great accuracy shooting of the Martini Henry Rifle, recommend that no powder should be used for its ammunition that does not give results at least equal to those obtained in the Committee's experiments, whether such powder be obtained from the Government Factory or from the Trade.

PURE COD LIVER OIL.

(PREPARED IN ICELAND.)

It is generally admitted by the Medical Profession, that while no remedy is more important than Cod Liver Oil, its beneficial action is too often interfered with by gross impurities. Not only is the Oil extracted from other species of Cod beside the true *Gadus Morrhua* substituted, but adulteration with Oil derived from other fish, such as the Shark and the Skate, is largely practised.

The ICELAND OIL now offered to the Public is of absolute purity, is free from all disagreeable taste, and is prepared by a delicate process, from selected livers of the *Gadus Morrhua* only. This fish is nowhere found in such perfection as in the Icelandic Seas, and, as might be expected, the Oil is richer in essential qualities, such as Iodine, Bromine, and Gaduine, than any other, while its manufacture is superintended by a Medical Gentleman of high scientific attainments. Any one can satisfy himself [by testing with sulphuric acid] that it excels every other kind, in the possession of certain elements upon which much of the efficacy of the Oil depends.

In the *Lancet*, of May 25th, 1867, is this statement:—

"Cod Liver Oil—The supply of really good cod liver oil, at a fair price, is one of the most pressing needs of the day. Some of the oil used by Public Institutions is wholly unfit for patients on account of its nauseous character. At the present time there is in London a gentleman, whose name is well known to most of our readers, and especially to travellers in the north, Dr. Hjaltelin, and he is anxious to make known to English practitioners a supply of cod liver oil prepared under his direction in Iceland. At the Fish Exhibition at Boulogne last year, it was regarded as the purest cod liver oil yet prepared. It would be well if practitioners would test the value of the oil so highly recommended by Dr. Hjaltelin."

The Company insures against loss or Damage by Fire Private Dwelling-Houses Goods Deposited in Specific Warehouses of Stone or Brick, &c., &c.; and also issues "Floating Policies," extending to the Custom-House and all or any of the Private and Bonded Stores

The whole advantages which can possibly be contemplated by those desiring to effect Fire Insurances, may be resolved into the following:

1st. Security
2nd. Honor and liberality on the part of the Company, in whose hands they place their interest; and
3d. The purchase of these advantages at a moderate rate.

It will be found that all these are present by this Company to the Public in an eminent degree.

The Company's large Capital, under the immediate management of the Directors of this Establishment, affords perfect security to the Assured while it may confidently assert, from the Constitution of the Board of Direction, from the character of its present Members, and from the qualifications which will be deemed indispensable in their successors, that the highest honor and liberality will ever characterize all its transactions.

It has been the object of the Directors, in their minor arrangements, to afford every possible facility to those effecting Assurances with the Alliance, and the undersigned hold a Power of Attorney enabling them to settle at once any Losses that may occur from Fire, Lightning, or Explosions of Gas in Buildings, on or in which this Company has granted Assurances.

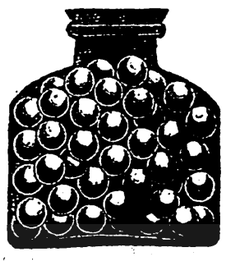
HEALTH RESTORED.
BY THE USE OF
BTOL'S SUGAR COATED VEGETABLE PILLS.

These Pills have justly acquired a widely-extended reputation for their wonderful cures of severe cases of sickness—cases in which all other Medicines had failed, and which had been given up by Physicians as beyond help—such as confirmed and long-standing Liver Complaints, obstinate cases of Piles, Dropsy, &c. But while admitting their wonderful curative powers in difficult cases, we wish to call attention to their great value in the every-day diseases of life, such as Costiveness, for which they are a perfect specific; Headache relieved and cured by one dose; Indigestion always removed by them, and the stomach so toned and strengthened as to prevent a return. Bad Breath cannot exist when the stomach is cleansed by

BRISTOL'S SUGAR-COATED PILLS.



Purely Vegtable.

For Loss of Appetite they are the only sure remedy, as they never fail in carrying off the depraved bilious secretions that float in the stomach and destroy the healthy, natural craving for food. Sour Stomach, Heartburn, Flatulency, and all Derangements of the Digestive and excretory Organs, are promptly relieved and cured by them. The public should always bear in mind that Bristol's are the only Pills made of

Podophyllin and Leptandrin,

The only vegetable substances yet discovered that are really

Antibilious,

To the presence of which invaluable resinoids the extraordinary success of Bristol's Pills may in a great measure be ascribed. It is necessary, however, that the sick should always remember that in all diseases that have their origin in the blood.

BRISTOL'S SARSAPARILLA,

That best of blood purifiers, should be used with the Pills, the two Medicines being prepared expressly to act in harmony together. When this is done faithfully, we have no hesitation in saying that great relief, and, in most cases, a cure, can be guaranteed when the patient is not already beyond human help.

For general directions and table of doses, see the wrapper around each phial of Pills; but, as different constitutions requirre different doses to produce the same effect, it is better that each person ascertain, by trial, the dose that suits their system, and take that dose, instead of following any general rule.

The *first* shipment has arrived, per "Suffren, and is now on Sale.

This Brandy is so well known, and so fully appreciated by the English Consumers, that anything we could say to recommend it would be superfluous, and we would therefore simply draw attention to the following Table of Exports of Cognac from Charente to Great Britain, for the twelve months ending the 30th of June 1869:—

	Puncheons.	Cases.
James Hennessy and Co....	9,452	214,885

Total.....	34,316	547,740

For the year ending 31st December, 1869 Hennessy exported to Great Britain 10,513 Puncheons and 282,768 Cases, being more than a third part of the total exports for the same destination.

In Great Britain, in Australia, and in India Hennessy's Brandy commands the preference, and fetches a higher price than any other Brand.

As a protection against falsifications, our name is attached to Messrs. Hennessy's Trade Label.

MOCKFORD'S SULPHUR CARCBOLIC ACID DIP.
An anti-poisonous preparation for applying to Sheep.

This preparation, of which the good effects are so well known and highly appreciated by the Sheep-farmers in Australia, has been proved recently in this country with the most beneficial results, as will be seen by the following testimonial from the manager of one of the most important Establishments in this Province:—

"In October 1870, immediately after Shearing, dipped all our rams, which, at the time, were in ow condition and generally scabby. I also dipped in February 1871 all the pure French Flock, and found in both instances that the result was to my satisfaction

The improvement in condition, particularly of Rams after dipping, was very marked.

I therefore do not hesitate to recommend this Dip to all Flock Masters.

It meets all the requirements of a thoroughly good and efficacious Dip, and being entirely free from Mineral Poisons, does not injure the health of the animal nor the staple.

The simplicity of its preparation for use, its efficacy and its cheapness render it a most valuable acquisition to all Estancieros in this country."
