DEATH OF THE POET MARMOL. The Argentine Republic has lost one of its brightest ornaments, in the person of the author of 'Amalia'.

OTHELLO. On Wednesday night Salvini took his benefit at the Colon in Othello. This was his first appearance in Buenos Ayres as the Moor, a character which he appears to thoroughly understand and aptly interpret.

the staff of Gen. Pacheco in the heroic defence of Montevideo, thus making the "wreath of Harmonias to cover his sword." During the long and eventful resistance of nine years he shared the hardships and glories of the second Troy.

His writings were so popular, especially Amalia and his lighter efforts, that he was several times induced to enter the world of periodical literature, as editor of the Pavana, Uruguay, Mercurio &c. He was also for a time editor of the Tribuna. But he signally failed in this branch of writing...

But whether we regard him as poet, prophet, writer, or politician, he was always a good citizen, kind friend, and agreeable associate. In appearance he was below the middle height, like our own poet Moore, carrying his head thrown back and defiant, with a pleasant smile upon his face and a cordial grasp of the hand for all his friends.

On Wednesday night Salvini took his benefit at the Colon in Othello. This was his first appearance in Buenos Ayres as the Moor, a character which he appears to thoroughly understand and aptly interpret, and which is infinitely more suited to the genius of the sons of Southern Europe than that of the cold, calculating Hamlet.

prostrate Iago to his feet, an innovation unwarranted by the text. The passion of the Moor was real, and completely carried the house; the animal was now in the ascendant. The Moor calls for blood, blood, and his desire for vengeance on the innocent Cassio was in nothing feigned; with excellent effect he gave—

Piamonti was excellent when entreating Iago to intercede for her with the Moor, and she sank upon the stage amidst the most rapturous applause. The bed chamber scene reflects credit on Pestalardo. Salvini, as the jealous monster who no longer believes in the virtue of any woman, was up to his reputation; he, in a burst of passion, carries Desdemona off the stage and smothered her on the couch.

There are numerous expressions in the speeches of Iago, from which modesty shrinks; nevertheless, the translator evidently followed most truthfully the text, and the titling in the boxes and pit told that the picture of the tragedy had in nothing suffered by any squeamish modesty on the part of the translator or players.

THE WELSH COLONY. Last week we published the report of Capt. Dennistoun, of H.M.S. Cracker, on his late visit to the Welsh Colony, from which we think there are two very evident conclusions, viz., that our fellow countrymen down there have shown indomitable pluck and perseverance under exceptionally adverse circumstances, and that the colony is now in a fair way of succeeding.

Cracker, on his late visit to the Welsh Colony, from which we think there are two very evident conclusions, viz., that our fellow countrymen down there have shown indomitable pluck and perseverance under exceptionally adverse circumstances, and that the colony is now in a fair way of succeeding.

When the Cracker ran the 12 months' blockade in April last, it gave an opportunity to Mr. Jones, the agent of the colony, to come up here to urge these matters on the government. He asked no renewal of maintenance subsidy, the colonists for the last two years having supported themselves, which, by the way, is a great step. He simply begged some aid in establishing a means of communication by which the colonists might send their produce to market, and receive their necessities in return.

Salvini was evidently too much excited to repeat with that measured coolness which it calls for Othello's last speech to Lodovico, but when he came to—

That in Aleppo once, Where a malignant and a turban'd Turk, Beat a Venetian and traduced the state, I took by the throat the circumcised dog, And smote him—thus.

Our urgings were heeded by the British Charge d'Affaires, and the result was the despatching of H.M.S. Cracker and the valuable report alluded to. This sets at rest any doubts as to the stability of the colony. The population of Patagonia is an accomplished fact, and that, of course, by Britishers.
