Next, come 'drastic alcetic pill or powders, to work off the effects of the blue pills or a gantle aperiant, whereas one dose of Radway's Pills will do all the work that the three or more prescriptions are given for, without running any risk from mecurialising or salivating the system.

Radway's Pills.

Radway's Pills.

In Radway's Pills the true principle of purgation is secured—not alone to the office of dismissing the fines and excrements from the bowels. but these rumors that are checked or stopped in their passage through the Skin, Kidneys, L ngs, and all excreting and secreting function; for if these excrementations secretions belonging to the skin, liver, lungs, kidneys, are interripted in their secape, they become products of decay and decomposition, and must be paiged from the living body through their proper channols; hence the purgative qualities of Radway's Pills extend to the secretions of the Skin, kidneys, Diver, &c.; whereas not one of the advertised Pills claim to act beyond the bowels.

How to take Radway's Pills.

THE CAPITAL QUESTION.

THE PRESIDENT'S VETO.

explaining his motives for putting a Veto to the law recently passed for moving the Capital to Villa Maria The bill must now go back to the Chambers for re-consideration, and if a majority of 2-thirds re-affirm it the effect will be to set aside the Veto and passabe bill into law over the President's head. It is, however, believed, as shown in the recent debates, that there is no such majority and hence the bill must fall to the ground. Meantime some of the city journals propose a special Convention to be called by the various Provinces for settling this vexed question, the decision of which would thus be independent of

the National Government. The question is naturally one upon which public opinion is very much National Government in Buenos Ayres be looked on with jealousy, as calculated to imperil the present happy order of things, especially as the Republic seems entering on an 'era of unprecedented wealth, industry and aggrandizement.

The Executive to Congress.

B. Ayres, Sept. 27th, 1871. The Executive begs Your Hon. Chambers will re-consider the bills for establishing a metropolis at Villa Maria, as sent up on the 19th inst., the causes for such re-consideration being as follows :-

The Constitution has left this matter of capital and others of primary importance in a national and republican point of view to be settled by special legislation, and for some years back Congress has agitated the capital question. In 1868 Rosario was fixed on, but Pres. Mitre refused his assent to the bill, just when he was retiring from office; the present Government was of a like opinion when it was brought up for decision, urging that a matter so grave should not be resolved on till the new elections of half the Deputies should allow us to form an idea as to the voice of the country. The United States of North America during the present century have seen the number of their States doubled, as many Territories opened up to settlers, a hundred flourishing cities built up and 40,000 towns and villages which did not exist when Washington was made the capital. So prolific is that great country, which causes the wonder of the world!

Look at South America in the same period; there have been but 3 new cities, Valparaiso, Rosario and Aspinwall, while thousands of our inland towns, and villages have stagnated. In our own Republic we find that San Luis, Jujuy, Rioja and Mendoza have retrograded while the only centre of life has been on the banks of the La Plata and Paraná. We cannot banish polite society to Villa Maria, and any Government established there must soon partake of the character of its surroundings.

PARIS LETTER.

The majority in the Assembly is redoubtable, because it is mouarchical without having the courage to propose a monarchy. It is not united as to the gelection of a King, and is divided about the nature of a flag. It loves order, without the wish to make it triumph. It is capable of sterile reaction; incapable of fruitful action. It is at once bellicose and cowardly. To reign is the one thing needful. But why do not the partizans of the pretendants ' make their game,' and give us tranquillity ? 'A throne and death !' exclaim the candidates; as said the young Athenians, 'A night of Aspasia and death!' The fate of Louis the Sixteenth does not deter the Count de Nausicaa. They imprison and execut Chambord, and the Count de Paris for the priests, yet in their hour of advergets the night when his grandfather took to flight, like Edipus pursued by Destiny.
