Government-House, B. Ayres, Nov. 30th, 1871. Seen the Regulations of the Council of Public Health for the working of saladeros, gaserías, and all other establishments...

Whatsoever may be the inconveniences and loss caused by this new edict, the province itself will be a gainer, inasmuch as it will give a new life to affairs in the South...

The physicians of B. Ayres have certified that the working of saladeros on the banks of the Parana, north of Buenos Ayres, is dangerous inasmuch as the refuse thrown into the river pollutes the water...

To the South therefore, and the far South, with all the saladeros. Send in your bills, gentlemen, for damages; we will refer them to a mixed committee...

The Government decrees—Art. 1—The regulations proposed by the Council of Health for saladeros, gaserías, and all such industries dealing with animal matter are hereby approved.

Art. 2—The first infraction of the said regulations will be punished by a fine of \$25,000mpe; the second \$40,000, and the third \$50,000; every subsequent time the same.

Art. 3—The two months referred to in Article 10 of the regulations shall date from the day on which this resolution is notified by the Justices of peace in the different partidos...

imposed by the Municipality or Commissions. There shall be no appeal from the decision of the Municipality or Commissions, and the fine must be paid into the Municipal Treasury at once.

Art. 9.—As the measures indicated by the Fiscal will affect the revenue, let an attested copy of his report be sent to the Finance Minister.

Art. 10.—Let this present resolution be printed, together with the law of 6th Sept. last, and a sufficient number be distributed amongst the Justices of Peace and all Municipalities...

Art. 11.—Let notes be addressed to the Governments of Santa Fe and Entre Rios (so requested by the Health Council) on the subject referred to in Art. 3 of the Saladero Regulations.

Art. 12.—Let it be communicated to the Criminal Judges in the camp, the Council of Health, Fiscal Assessor, and all interested; let it be published and entered in the Official Register.

MR. BATEMANS REPORT. DRAINAGE AND SEWERAGE. The most important consideration in the sanitary improvement of the city is, undoubtedly, the best means by which the sewage and refuse of the inhabitants may be conveyed away...

That a city, containing a dense population of 180,000 persons, in which scarcely a single sewer existed, and where all the refuse and filth of centuries had been accumulated in cesspools in close proximity to, if not absolutely under, the dwelling-houses...

It is, however, of little use to dwell on evils which are now universally acknowledged, and the causes of which are generally understood. It is only necessary so far to refer to them, as will enable us to see clearly the defects to be remedied...

These conditions granted, it becomes necessary to consider, how the sewage and refuse of the town are to be conveyed away, and how the inhabitants are to be supplied with water.

The River Plate will furnish an inexhaustible supply of pure and wholesome water, which should be distributed to every one, as soon as means for conveying it away, after use, are provided.

The air-tight compartment in Paris, which was formerly used for the reception of excreta, the receptacle being periodically emptied, and its contents carted away...

The Paris system has been abandoned for water conveyance by sewers—it was only tolerable so long as the water supply was too scanty for its use in water-closets...

Where this system is adopted, the dry refuse must still be carried off by the "dust cart," and this must form a regular part of the cleansing of the town; but no nuisance or unhealthy effects attend this necessary operation, when the material to be removed.

Details of the late revolutionary movement in Paraguay were received yesterday. As usual there has been much ado about nothing in the accounts of the affair, and the verriest impossible to find out what has really occurred.

Details of the late revolutionary movement in Paraguay were received yesterday. As usual there has been much ado about nothing in the accounts of the affair, and the verriest impossible to find out what has really occurred.

The telegraph wires between this city and Montevideo were cut yesterday morning, and the fact induced the gossip makers to start a report that the Neva had arrived at the sister city with half a million sterling in gold.

The Council of Health have issued the following notice to the citizens of Buenos Ayres, who will do well to follow the advice therein contained:—"The Council, in consequence of the prevalence of gastric-intestinal complaints, deem it right to warn the population against eating fruit or vegetables not in season, or taking any kind of food whatever except at the regular hours for meals; food in doubtful condition or difficult of digestion must also be avoided."

The above is simple advice, and should be strictly followed. There is no denying the revival of apprehension respecting an epidemic which the present hot weather has caused.

We daily hear increasing expectations of Pestalardo's new theatre in Calle Corrientes. A company such as the Plate has never seen is coming to inaugurate it, and Buenos Ayreans are evidently on the eve of a new theatrical era.

The distinguished ex-President of this Republic continues the object of much attention at Rio de Janeiro, where he is a great favorite with all classes. The Brazilian Historical and Geographical Society has named Gen. Mitre amongst its Honorary Members.

The latest despatches from Corrientes, published yesterday, confirm the news received last week that everything is now quiet in that Province. Next Friday, being the Feast of the Immaculate Conception will be kept as a strict holiday at the Government offices, banks, &c.

BRISTOL'S SUGAR-COATED PILLS. These Pills have justly acquired a widely extended reputation for their wonderful cures of various cases of sickness—cases in which all other Medicines had failed, and which had been given up by Physicians as beyond hope...

BRISTOL'S SUGAR-COATED PILLS. Paraly Vegetable. For Loss of Appetite they are the only remedy, as they never fail in carrying off the depraved bilious secretions that exist in the stomach and create indigestion, nausea, and craving for food.

BRISTOL'S SANSAPARILLA. That best of blood purifiers, should be used with the Pills, the two Medicines being prepared especially to act harmoniously together. This is done faithfully, we have no hesitation in saying that great relief, and, in most cases, a cure, can be guaranteed when the patient is not already beyond remedy.

Antibilious. To the presence of which invaluable reagent, the extraordinary success of Bristol's Pills may in a great measure be ascribed. It is necessary, however, that the sick should always remember that in all diseases that have their origin in the blood.
