Mr. Burmeister, of course, insists on Exequiel Gomez's pulperia, without what he considers the advantages of making the least effort to aid the poor his project, which, he says, is so simple that a child can understand it, and is teasible in every way, the coast of Banda Oriental offering abundance of

stone at hand for the work. the 10-mile channel alone would cost 10 million hard dollars, and the whole that the Indians had come in, and bade work at least double that sum; also that by making the entrance E.S.E. he exposes the shipping to frequent and destructive "temporales," whereas Burmeister makes it E.N.E. as being the most sheltered point.

The areas of dock and wharfage provided in the present project are sufficient for a port of double our present trade (which averages 11 millions tons); but as it is every way likely that before half a century B. Ayres will red, carrying off the unhappy women do as much trade as New York does at present, Mr. Burmeister's plans suppose a continuation of the port in a straight line from the Custom-House towards the Boca, terminating at a point outside the Yellow House. This would give a total length of three miles (by 225 yards wide), and a magnificent esplanade along the front of the city.

The calculations of the items of cost are beyond our judgment; but supposing them to be correct, it is mani test that the value of the reclaimed has the following remarks. and ought more than cover the entire outlay. The most important news on Change to day was that respecting the new National Bank. It appears that the business has taken such shape that it may be considered as concluded. Messas. Lexica and Lanus have offered to organise a National Bank (soint stock), capital ten millions of patacons, of which they offer to take five millions, provided the Government takes the other five millions.

There was a stir on 'Change when news arrived that Congress to-day proposes to arm the whole National Guard of the Republic. There seems no doubt the measure was introduced. Also to send special committees from the House to the frontiers to report on their real state.

The last mults from the States brought rather extraordinary news about the New York money market. The following extracts shows the fever that existed in the stock market—

"Much excitement existed in the city on Saturday afternoon and Sunday in financial circles over

Much excitement existed in the city on Saturday afternoon and Sunday in financial circles over the threatened panic in the money market, caused by a ring of speculators, chiefly of Black Friday notorioty, who, being largely short of stocks, have made a desperate effort to retrieve their fortunes by locking up legal tenders, and thereby creating a stringency in the market and a sudden decline in stocks. To accomplish their purposes they are said to have secured the services of the Tenth National Bank, and the result of their operations began to be felt on Soturday, with the prospect of a partial repetition of the Black Friday' scenes during this week. The excitement was increased on Sunday as the rumor became current that a prosecution would be began ment was increased on Sunday as the rumor be-came current that a prosecution would be begun on Monday against the Tenth National Bank for violation of the National Banking laws of the United States in locking up money. Owing to the closeness in money, induced by the conspira-tors, the merchants of the city are very greatly embarrassed by inability to get their notes dis-counted at the banks, and the business of the Corn Evenance, here here, becaute, at the counted at the banks, and the business of the Corn Exchange has been brought almost to a standstill. Eminent lawyers are of opinion that the United States law punishing conspiracy is broad enough to cover this offense, and that under it these men may be indicted and sent to State Prison. It is also stated that under thetprovisions of this law several prominent Wall st. operators will be arrested and brought to trial. At the meeting just held in London of the shareholders of the City of Buenos Ayres Tramway Company, the report for the year !87! was read. It contains much matter of interest to this market. Leaving a disposable balance of £6,414 The working expenses, amounting to 83/38 per cent., are considerably higher than may be fairly expected for the future. This high rate is chiefly owing to the continued dearness of fodder, in consequence of locusts and drought, and to the effects of the epidemic which had such a disastrous effect upon the traffic during the first half of the year. The following statement gives the traffic summary feech worth. of each month-

The total length of the lines now laid and working is 13.60 miles.

The board have agreed to purchase, for the sum of £9,000, the tramway, cars, horses, stable accommodation &c., belonging to the Great Southern Railway. The line extends from the Great Southern station at Plaza Constitucion, along Calles Lima and Cerrito, to Calle Tucuman, near the Western Railway station. The line will be connected with the present system at some convey dinical point, and will, it is expected, be of considerable before the Company. Mr. Leon J. Isaac, who has held the position of chairman of the local committee in Beanes Ayres since the formation of the Company.

Mr. Isaac intends returning to Europe in the course of a few months, and is, therefore, compelled to withdraw from the management. This gentleman has devoted an unusual amount of time to the Company's affairs, and his exertions and assiduous attention have materially assisted the assiduous attention have materially assisted the rapid and complete organization of the system of working. The board have not yet appointed any successor to Mr. Isaao, pending further communications from Buenes Ayres on the subject. Out of the available balance the Directors recommend the payment of a dividend of 6s. per share on the fully paid up shares of the Company (being at the rate of 12 per cent. per annum), which will absorb £4,500; and also a dividend of 1s. per share on the new shares, which will absorb £750. The Directors have carefully computed the earnings

ments offered. Everything is going on admirably at the Back Bay.

The south east corner of the Coliseum, which is the first object that strikes the beholder on approaching the scene, is nearly up, the framework being completed to its entire height.

The next thing notable about the scheme is that one-third of the corporators are ex-members of Congress, The board, of course, leave this matter in the hands of the shareholders. The two directors who retire are Mr. B. Isaac and Mr. E. Woods Mr. Cash, the auditor: all these gentlemen are ligible, and offer themselves for re-election.
