MPURITY MADE VISIBLE .- As useless as air, liberated under water, bubbles to the top, poison in the blood struggles to the surface of the body, and is there developed in some form of inflammation. Whether that form be boils, running sores, white swellings, tumors, pustulous cruptions, or what not, it is the outgraph is also not corrunting in the blood. To ward visible sign of corruption in the blood. To suppress these symptoms, by external applica-tions is to force back the evil on its source. To administor Bristol's Sarsaparılla as a remedy is to eradicate the germ and the seed together. It would be an insult to the reader's common sense to ask which is the wiser course. As external disorders are usually accompanied by some internal disturbance, the occasional use of Bristol's Vegetable Sugar-coated Pills is often required.

The mails from Montovideo bring news of little moment. The papers are all busy publishing the insolent and insulting remarks of the Rio Janoiro newspapers, a course which is to be condemned, since no good whatever can come from republishing such frothy nonsense, and the whole commercial public of the Plate looks with astonishment at the envenomed articles of the Rio papers. However, the newspapers of Buenos Ayres should not condescend to notice the irresponsible effusions of their Rio colleagues.

All loads are not sille week and proposed to view in the volume before use.

Bristol's sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compound. ed of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their source in the blood and diseases that have their source in the blood and bumors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Hondurss, is that which we use in this preparation; it is the kind which all medical insin esteen moss. About fitty per cent. of Bristol's Sarsaparilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing volvetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.

By having our own agents at he places where

rilla.

By having our own agents at he places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to overcise that constant care in selection which insures uninformity of excellene, and we spare no money and no effort to procure the best—and only the best—of every article entering into their composition; and it is with the most abiding confidence we say, to be sick of all nations and all countries, that, in Bristol's Sar sagarilla you have a remedy more reliable than saparilla you have a remedy more reliable than any before offered to you, and which will no di-appoint syou in the cure of.

Salt Rheum, Tetter, Scald Head, Syphilis, or Veneral Discose, Nervous and General Debility, Old Sores, Ulcers, Tumors, Abscesses, Boils, Eruptions Scrofula or King's Evil, Female Derangements,

White Swellings, Fever and Ague, Chills and Fever.

& Dumb Ague. & Dumb Ague.

As a means of building up the consistution that has been broken down by the excessive use of Mercury, Iron, or other Minerals, our Sarsaparilla will be found most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the Spring and early Summer, it will the tound unfalling. It can be taken freely at seasons, rainy or dry. For some of the above diseases, the use of the Sarsaparilly must be continued a considerable time, especially for those that are hereditary or constitutional in their nature—such as Sorofula: but a faithful compliance with the directions will always relieve and mitigate, and in a geest majority of cases will effect a complete directions will always relieve and mitigate, and in a geest majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly hacted by using our Bristol's Sugar-coated Pills, in moderate does, in connection with the Sarsaparilla; they carry off large quantities of morbific or diseased matter set tree in the system by the Sarsaparilla, and in this way facilitate she return o normal fu², tional operations cj-myl

OF THE FDRRUGINOUS GIN.

J. FERD. NAGEL'S terruginous Gin does not belong to that class of wonderful remedies which are being sold at exorbitant prices; on the contrary, the exceelingly moderate price places this most efficacious and valuable preparation within the easy reach of everybody. The forruginous Gin is not intended for all possible valadies and ailments, but is a simple tonic, imparting to it just the quantity of iron necessary for the growth and sustemence of the body. The medical testimonial treating upon the excellent qualities of this invigorating preparation, runs thus—"The ferruginous Gin baving proved highly efficacious in many cases of scarcity of blood and nervous ailments, Mr. S. Ferd Nagel has applied himself to the task of pre, aring it has succeeded in composing a preparation which taken alone or with the admixture of Soda, Selters or other effervescent waters, is not only ters or other effervescent waters, is not only

The Iron exists in the form of a protesalt, one fluid cunce of the Gru containing 3-10ths of a grain of Protoxide of Iron. The Ferruginous Gin may therefore take its place among chaybeato proparations, and be employed with advantage where the alministration of a tonic alcoholic stimulant is indicated.
