160 rams of 16 and 16 months old, with corresponding growth of wool, of the unequalled breed of acclimated Rambouillets of Mr. Wilfred Latham. modified by selection to harmonize with the natural pature, soil and climate of these countries. It is unnecessary to dilate on the merits of these sheep. Sheepfarmers know their perfection, but it may be stated that spleudid as in other years have been, the present lot exceeds all in magnificence.

They have been bred with special view to their adaption to all requirements, and the range of soil and herbage in the different parts of the country. Sheepfarmers, therefore, will find in this lot, animals of size, weight of carcase, length and sub tance of wool, nicely graduated to suit all camps from the richest deep black loam, through all the grades of good and medium camps, such as the Magdalena and others more or less similar.

The character of the wool is marvellously perfect and permanent, and no breed of weighty carcased Merinos can compare with them in shortness of legand depth of carcase,

Thore will also be on sale 2 or 3 animals two years old.

The whole will be on view at No. 164 Calle.

Viotoria three days previous to the Auction.
Sheepfarmers must be on the alert, and not the miss sale this year.
