#### GOVERNMENT MORTGAGE BANK

Buenos Ayres, September 1, 1872.

Offices-111 CALLE SAN MARTIN. This Bank will be open to the Public on all

business days from 10 a.m. to 4 p.m.
It advances on real estate to be repaid at long

which bear an interest equal to that contends by the Bank.

The value of property offered in mortgage shall not be under two thousend patacons, nor the loan be less than 500 nuertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortization fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A-Quarterly. Mortgage for 20 years 117 day nteresi, 2 per cent. amortization, and 1 per cent. Series B-Quarterly. Morgage for 27 years 270 days; 8 per cent. interest, 1 per cent. amortization, and 1 per cent.

Series C-Half-yearly. Mortgage for 20 years 190 days; 8 per cent. interest, 2 per cent. amortization, and 11 per cent.

Series D-Half-yearly. Mortgage for 28 years 5 d. 's: 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the tull pryment of the yearly sums sti-pulated in the Mortgage, both property and Mortgager shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in the property offered, accom-

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance, or if not the incumbrance that exists thereon, and which is to be juid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortization.

the forms necessary as also the tables for amortization.

Quarterly mortgagers shall pay from 8th to 15th of each January, April, July and October, and half yearly mortgagers shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates he tween the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 6th January, and from 30th June to 6th July.

the 31st December to the Sandary, and the June to 6th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the ay of realizing the cedules, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank.

On and after the 15th February 1872 the Mortgage Bank will be open to the public.

Jose M. La Fuente,

Secretary.

Secretary.

THE PORT OF ENSENADA.

As the inauguration of the Ensenada connection with the River Plate gives greater weight to his views .-

John Coghlan Esq., Mr. Just C. E .--F. R. G. S. to accompany Mr. Wheelwright's application to Government for the improvement of Ensenada nar bour.

WILLIAM WHEELWRIGHT, ESQ. B. Ayres, 1st Aug. 1872. My dear Sir,

In compliance with your request that should prepare for you a report on dée" in the following terms:the various surveys which have been ward herewith plans and sections show- considered as very low." ing the actual condition of the harbour

and the works proposed. In 1870 a pamphlet was published, containing Mr. Bevan's report, dated 3rd April 1823, that of the Naval Commission appointed by the Provincial

No. 2,544. out, last summer, a complete system taining the channel. of soundings over the Lara and Sant. The pier now being constructed near ago banks, and of the different channels from the main river to the bar.

tion for their establishment, a commis. River Plate. sion of medical men and engineers was The results of this examination, which sary. are of the greatest importance for determining the works necessary for the improvements of the entrance of the port, are described in the report of the Engineers to the President of the

commission, and shown on one of the plans which I enclose.

The Port of Ensenada is a sheltered bay, divided from the main river by the projecting spit of land which terms of low water was 2-3, of high 5-6, and on four enclose the tide water was 2-3, of high 5-6, and on four enclose the tide water was 2-3, of high 5-6, and on four enclose the tide water was 2-3. the projecting spit of land which terminates in the point of Santiago, and extending from the town of Ensenada to Point Lara. The outer harbour is spacious, and affords an excellent anchorage, protected by the lie of the points from which storms on this coast are dangerous—where vessels can lie morning parts publish the following: in much greater security than in Buenos Ayres or Montevideo, and much nearer the land. The deep water is divided into three channels by the Lara and Santiago banks, which, shoaling inwards, converge on the bar which obstructs the entrance of the inner the 25th December, at noon, from on

harbours The first of these channels, known as the pool of Punta Lara, is at a dishe land, and, from the point of the Lara bank to opposite Bell's estancia house varies in depth from 10 to 14 Symptoms of disease resembled those the Christmas evergreens. One can more.

Symptoms of disease resembled those the Christmas evergreens. One can more. house, varies in depth from 10 to 14 feet at low water. \*

It furnishes a sheltered anchorage for a length of over four miles, with an the barque. All precautions were speak to the heart so much more quic. We feel great pleasure in saluting area five times more extensive than adopted to prevent the spread or conthat of the inner roads of Buenos Ayres, and a depth greater by three feet. The flats which divide it from the principal channel of the River Plate have a minimum depth of thirteen feet at low water, and the three fathom line is about four miles from the shore. This channel is known by few of the river To the Editors of the STANDARD. pilots, and therefore little frequented. The vessels which load at Ensenada are generally anchored between the forming you that the bad elements Lara and Santiago banks, when the length of time were completely broken

channer, shown for the first time, on determined to guarantee perfect free accident. Only those who exert themtence of which is of the greatest importance for the improvement of the port, for the surveys of the commission ap- Pueblo ignominiously retired from the that patience that cannot be wearied pointed to examine the currents above field. referred to prove in the clearest man ner that the channel is the natural mouth the depth is twelve feet, and at two and a quarter miles 18 feet. From there the bottom slopes election as well as any other day. gradually down to twenty-five feet in the main channel of the River Plate,

at a distance of about six miles. The inner harbour of Ensenada is a natural dock, sheltered from all points with deep water (from 16 to 18 feet at Railway has been fixed for Tuesday low water) over an area which the Cap- ladies and children might have safely hard as if another Sedan or Jena had next, it will necessarily interest our tain of the "Decidée" calculates at 48 mingled with the immense crowd. This been won or lost. We have only ten readers to know something authentic hectares (120 acres). Its width is from grand demonstration broke the back about the much talked of Port works 600 to 800 feet, and its length from the they retired from the contest, of course and wool going to take another cheadof Ensenada. The paper which we entrance to the point where the water now publish on this important subject shallows to less than twelve feet is dignity (?). comes from the pen of one of the most more than a mile and a half. The experienced English Engineers in this banks are steep, and the ground firm, staining because there was no necessicity, Mr. John Coghlan, whose long offering facilities for the construction of ty. During the whole day not a drun- lowed his wife to glory? The Empewharves, alongside of which vessels drawing 18 feet can lie, and the ing the streets were crowded with men, liquid will do for his House of Peers. The following is the report given by depth can be increased by dredging. Inside the two fathom line is a large area of shallow water broken up by the banks of rushes suitable for the extension of the wharves, the formation of docks and other works belonging to a great maritime port.

Between the inner and outer harbour the channel is obstructed by a bar, described by the Captain of the "Deci-

"At the entrance is a narrow pass made of the port of Ensenada, and on rather less than a mile long, with a munities will only have courage enough let glide the woolly and greasy partithe means to be adopted for improving minimum depth of eight feet, at the to make use of them. This triumph culars of the produce markets in fathe entrance channel, so as to make it level of low water, taken as the datum available for foreign shipping, I for of the annexed plan, which may be

PROPOSED WORKS.

The improvement of the entrance to the inner harbour requires only the dredging of a natural channel, the existence of which has been clearly prov-Government in 1850, who published ed, but which has been obstructed by the first detailed chart of the port, the sediment brought down by the inand my report of Oct. 1863, accom. land streams. By the removal of bour, and that of Mr. Hunter, of without any stones or peobles, over a H. M. S. 'Doterel', which has since length of over 3,300 metres, a channel been published in the Admiralty chart, 12 feet deep at low water, 450 feet at Rosario as the hotbed of gauchos,

wide, can be formed. In the year 1859, a new chart was This work could be carried out in 12 French gunboat Decidée', commanded dredging machine which the Provinby Captain Vigre, a copy of which was cial Government has lately brought furnished to you by the French Consul. out from England. In order to in-As all those surveys were confined crease the depth to 18 feet, the dredgto the inner harbour, and a limited ing should be extended over a length area outside of the bar, and did not of 5,000 metres.
