MERCURY IS A FAILURE.—Doctors admit this fact at last; buttheir materia medica offers no efficient substitute for the discarded mineral. No single root or plant comprises all the properties required to cure the malignant disorders for which mercury at one time was universally prescribed. It would be still necessary to resort to it as the least of two evils, if Bristol's Sarsaparilla were not in execution. This combination of vogetable extraco acts upon the liver and the blocd much more favorably than calomel or blue mass, and is free from all their drawbacks. The necessity for using mineral medicines has been entirely removed by this pure and genial specific for all diseases of an ulceraus, scabious, or bilious type.

Mr. Wineberg's wine manufactory at Olivos (a very appropriate place for wine making) will soon be in full work as the machinery is now being put up. Mr. W. has adopted the home system of treating the vines, which are not allowed to grow beyond a certain height from the ground, and he has enough raw material to enable him to do an intoxicating business. He intends to supply all the cafes in town with pure, cheap claret at a price that will defy the makers of the present adulterated concoctions palmed off on the public as Bordeaux in the restaurants. We wish Mr. Wineberg success, and hope that he won't forget that standing joke the "STANDARD cellar," which it is really no joke to have empty this hot weather.

The profits for the first half-year show io,000 pats, and this for a bank just started. On he meeting being held we purpose publishing further part culars of the report. We congratu late the shareholders on the abi'ity of Sr. Polli-

nini, who well understands this market. Mr Peter Romero, sold a house in Calle Es meralda to-day No. 113, for \$290,000 m/c, 64x29, Mrs. Armstrong buyer, Mr Villegas broker.

The landing of Mr Forbes' beef preserving staff was an event on the mole to-day; the men forgetting their contracts and ignorant of the

tine this morning, and got ashere early. As there were no river steamers to-night for Montevideo, he Tiber and Italo-Platense took off a good num ber of passengers for the Mount. Advices from Cordova are to the effect that

nothing else is spoken of up there save the negotiation of the Cordova loan; as a matter of course all sorts of versions are given out about The hull of the ill-fated Pacific steamer Tacora will be brought to the hammer at the Mount on the 7th of next month.

The hull of the ill-fated Pacific broiling as well as washed out. No man on the stock exchange, of B, Ayres stands higher than Mr Fernandez; the loan was done on the most favorable terms for Cordova, even more favorable than what the law authorizing it contemplated; it was well and quickly and cleanly done, and Cordova has indeed good reason to be proud of getting oy on such cheap and favorable conditions.

It was said on 'Change to-day that the valuation which the bank has put on bouds for hypothecation is 60, doubtless this is to stop speculation and prevent so much of the bank money being locked up in such securities. Owing to the floods and rains in Cordova it is

said the Central Argentine Railway will have to make new culverts &c, also plant trees along a portion of the line.

There are no less than two proposals for now tramways in Rosario; can this be from the very splendid traffic on the only tramway running in the town at present? the impression in this market is that that trainway does not cover "gas-

It was rumoured to-day that up at Guale guaychu, the authorities have imposed quarantine on vessels from Montevideo; in consequence of 3 vessels having entered there with patentes sucias, we are unaware what truth there is in the

At last it seems the telegraph line will le opened from Mendoza to San Juan; this line be opened from mendoza to san outin, this incide longs to the Transandine line, and it will be ready for public service in a few days. A word to shareholders of this line; dont be in a hurry to sell your shares, the accounts are being made up and a dividend declared, the stock promise to be one of the best things in this market; the company is well and economically managed, and its business like the Custom House returns is eclipsing every anticipation.

A map of the new roads now being made in our suburbs has been or lered by Government: it is a move in the right direction. These new roads will open the shut-up quinta properties about town; meanwhile it is well for the Lomas and Flores people to know that all that is said about exorbitant priess for suburban sites is mere bosh. Mr. Atkins informs us that 20,000 m/c per vara front is offered for sites on the Cal o the sale of a small country residence outside of London, subject to £8 per annum head rent, for that; and country sites on Staten Island, outside of New York, are worth five times the price paid here for Lomas, Belgrano, or Flores pro-

perty. The Port works are at last about to begin in good earnest. The dredge has been given in command to Captain Jones, a d the works will now be pushed ahead, so best; every one wants to see something done.

There is immense activity at the Western Railway workshops now, owing to the arrival of six new locomotives and a dozen new coaches, waggons &c. We understand that amongst the lot are the new mail wargons so badly wanted. The present system of carrying the mails on the Western Railway is really a disgrace. The letters and papers are huddled into a corner of the passengers' smoking car: any passenger that likes can help himself to a newspaper. No wonder that subscribers outside run short.

We note that the Government has decreed the opening of a supplementary credit of 250,000 pats, for the War Office, the original sum voted, 500,000 pats., being insufficient. Owing to the sudden and great heat experienced

in Mendoza, very grave fears have been entertained by the merchants and dealers of a sudden melting of the snows in the Cordilleras; and their fears appear to have been well founded, for the floods now are something unprecedented: islands have disappeared 'in toto' in the Parana; the Gran Chaco is inundated, and in many parts the Parana has burst its banks and flooded the whole country around.

News has come down from the Uruguay that the Salto tramway works have been begun. We hear of tramways in every part of the country REMATE

hibit on of the wretched p st-office arrangements in this city. The little Capitania Office, just the MAGNIFICO. jammed, squeezed up; clerks, stamps, room, change everything insufficient. Why is there such studied delay about the building a decent,

18 THE ORIGINAL AND ONLY GENUINE.
CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. COLLIS BROWNE was undoubtedly the Inventor of CHLORODYNE hat the story of the Defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne, that they prescribe it largely, and mean no other than Dr. Browne's.—The Times, July 12, 1861.

The Public, therefore, are cautioned against using any other than using any other than Pr. Browne's.—The Times, July 12, 1861.

THIS INVALUABLE REMEDY product This INVALUABLE REMEDY produces quiet, refreshing sleop, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while Medical men extol its virtues most extensively using it in great quantities in the following ising it in great quantities in the following iscases:—

Diseases in which it is found eminently useful—

Cholers, Dysentery, Diarrhes, Colics, Conghs, Asthma, Rheumattam, Neuralgia, Cough, Cramp, Hysteria, &c.

Hystoria, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport hat he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See Lancet Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospituls, Bombay:—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owency restoration to health after 18 month's severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports [Dec. 1865] that nearly every case of Cholera in which Dr. J. Collis Browne's Chlorodyne was administered the patient recovered. Extract from Medical Times, Jun. 12, 1866.—

Extract from Medical Times, Jun. 12, 1866.—
"Chlorodyne is prescribed by scores of orthodox medical practitioners. Of course it would no

medical practitioners. Of course it would no thus be singularly popular did it not 'supply a want and fill a place.'

Extract from the General Board of Health London, as to its efficacy in Cholera. "So strong r are we convinced of the immense value of hie remedy, that we cannot too forcibly urge the necessity of adopting it in all cases,"

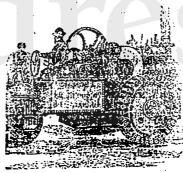

Beware of spurious and dangerous compounds sold as CHLORODYNE, from which frequent fatal results have followed.

See leading article, Pharmaceutical Journal Aug. 1, 1869, which states that Dr. J. Collis Browne was the Inventor of Chlorodyne; that is always right to use his preparation when Chlloodyne is ordered.

CAUTION.—None genuine without the words "Dr. J. Collis Browne" on the Governmentstamp. Overwhelming medical testimony accompanies
