SAVINGS BANK BANK MAU AND CO. 101-Calle Cangallo-103 BUENOS AYRES.

The immense advantages of Accounts Current now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confident and profitable depository for their savings. The Bank of Mau & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings. The sums deposited in that very important institution are daily increasing, and already reach very large amounts. These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes, who are very much interested in putting themselves out at interest, thus providing themselves with a reserve fund in case of accident, or old age, instead of spending their money in gambling, in lotteries, and other frivolities. The Bank of Mau & Co. of this city, following the example of their firm in Montevideo, has same facilities in this city, and has

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one hundred Dollars upwards. Second—The interest allowed is six per cent. (6 p. c.) per annum, which is liquidated every six months. Third—The depositors can at any time retire the whole or part of the money deposited. Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one

BEAUTIFUL HAIR Can only be obtained by the use of Rowland's Maceaser Oil. It prevents the hair falling out or turning grey, strengthens weak hair, causes it to grow on bald places, and makes it beautifully soft, pliable, and glossy. Price 3s. 6d., 7s., 10s. 6d. equal to four small, and 21s. per bottle.

IMPORTANT CAUTION. Ask for Rowland's Maceaser Oil, and avoid all other cheap articles under the same or similar names as aqueous imitations. Each bottle has a "Glass Stopper" in place of the Cork, as formerly. All with the "Cork" are spurious imitations. This notice is deemed necessary, as the proprietors have received information that a large quantity of Counterfeit, of the most pernicious quality, has lately been sent from France and Germany to India, South America, and the Colonies, under their names.

A BEAUTIFUL COMPLEXION Is obtained by the use of Rowland's Kalydor, which allays all irritation and tenderness of the skin, removes various blemishes, pimples, and spots, and imparts a healthy and glowing appearance to the complexion and skin. During the heat and dust of Summer especially, and in cases of Sunburn and Stings of Insects, it is of the utmost use. Price 4s. 6d. and 8s. 6d. per bottle. Ask for "Rowland's Kalydor," and see that their signature is in red ink on every bottle, as theirs is the only genuine.

WHITE AND SOUND TEETH Are indispensable to personal attraction, and healthy longevity, by the proper mastication of food. Rowland's Operts Pearl Dentifrice preserves and imparts a pearly whiteness to the teeth, eradicates tartar and spots, prevents decay, strengthens the gums, and gives a pleasing fragrance to the breath. Price 2s. 6d. per box. Ask for "Rowland's Operts," and see that their name is on the Government Stamp of every box.

ROWLAND'S ESSENCE OF TYME Never fails to produce immediately a perfect change in Red or Grey Hair, Whiskers, Eyebrows, &c., to a beautiful glossy and permanent Brown or Black, which colour remains so durable that neither washing or perspiration can remove it. Price 4s. 7s. 6d. and 10s. 6d. per bottle. All these articles have been used and justly appreciated by all the Sovereigns and Courts of Europe, the Pope of Rome, and the aristocracy of Europe during the last seventy years, being of inestimable value to those who have once used them. They are sold by all Chemists, Perfumers, and Druggists, throughout India, the Colonies, and South America.

New Patent R.R. Grease

YELLOW GREASE Manufactured and Patented by RICHARD GAMBLE. Suitable only for this Climate and Not for Europe. It is manufactured to suit Summer, Winter and Spring, and is only used for Railways, Trains, and Carts, Bullock Wagons, &c. It consists of nine different grades, and is solidified by a chemical process. It will resist the hottest sun, and will not get into a liquid or fluid state. It is only when the action of the axle commences to become a rich cream, and when the action stops its again solidifies. It is of a suitable consistency, of good lasting power, attended with but little increase of temperature, and is the highest quality of grease, but the smallest traces in the axle boxes. A grease which is too firm will remain compactly solid in the box, and allow the axle to become hot, whilst on the other hand one that is too thin becomes exhausted by a few miles running. This grease is of more importance than at first sight appears; for while the grease account is a railway companies forms no inconsiderable part of their expenses, the waste of motive power and wear and tear of plants entailed by the use of unsuitable grease is enormous. The merits of this Grease, in its general utility as a LUBRICANT, and also for its CHEAPNESS, are shown, when compared with other kinds hitherto used, that are entirely useless for any purpose but that of lubrication. It is therefore much less liable to be filtered and washed away, than any other grease, and it is a good house, fine camp, corral, and well, also 2000 sheep.
