NEW ADVERTISEMENTS DEFEATED AT ALL POINTS.—Dyep pein DEFEATED AT ALL POINTS.—Dyap pain may be defined as a disease pronounced unconquerable by generalising theorists, but which Bristol's Sugar-coated Pills always conquer. This is bad for the theorists, tut interally satisfactory to the dyspeptic. The mode in which the cure is effected is simple. Three orwans are involved in the disease—the stomach, the liver, and the bowels. The pills act in three ways. They strengthen, cleaned, and regulate—imparting vigor to the digestive finctions, and regularity to all three. Their effect is the same in all cases, and they are adapted to all constitutions cases, and they are adapted to all constitutions and climates. In chronic dyspepsis and liver disease the blood is more or less denraved, and therefore in such cases Britol's Saraparilla could be used with the Pills as a blood-purative.

DEFEATED AT ALL POINTS.—Dysp psia may be defined as a disease pronounced un-conquerable by generalising theorists, but, which Bristol's Sugur-costed Pills always con-quer. This is had for the theorists, tut intersally satisfactory to the dyspeptic. The mode in which the cure is effected is simple. Three organs are nvolved in the disease—the stomach, the liver, nd the bowels. The pills act in three ways. nd the bowels. The pills act in three ways. They strengthen, cleanse, and regulate—imparting vigor to the digestive f. nctions, and regularity to all three. Their effect is the same in all cases, and they are adapted to all constitutions and climates. In chronic dyspepsia and liver disease the blood is more or less derivated, and therefore in such cases Brittol's Sarraparilla could be used with the Pills as a blood-purative.
