A MEDICAL PHENOMENON. -Is it no a MEDICAL PHENOMENON. -is it no amazing to see an invalid gaining strength while under the influence of a purgative? Yet this is the case with every sick person who resorts to Bristol's Sugar-coated Pills. They open up the system while expelling its impurities upough the proper channel. In cases of dropsy they appear to stimulate the absorbents and to prevent the formation of water in the cellular tissues. How these results are produced physicians must determine for themselves; and physicians must determine for themselves; and meanwile there is abundant proof that drop-ical affections as well as indigestion and bilious scemplaints are removed by their agency. REPLY OF MINISTER DOMINGUEZ.

Messrs. Lanus and Riestra having vritten last week to the National Goverhment on the part of the Committee of Merchants elected at the Bolsa meeting on the Crisis, the Finance Minister re-

Government House, June 30th. Messrs. Lanus and Riestra,

I have the honor of acknowledging your favor of the 28th on behalf of a meeting of merchants about the 'present crisis, to the effect that the National Government could lend much assistance by not withdrawing the Public Works money from the Provincial Bank except as the progress of such works may require.

Much has been said, and many erroneous opinions published on the num withdrawal of such funds. In the beginning of this year I was informed that the Bank Directors meant to reas there was no reason nor intention on 18 without including railways. without hesitation.

The public, therefore, would continue to have use of the money, the only difference being that they would be debtors to another

The transfer of the funds in question would not only be gradual, nowise inconveniencing the Provincial Bank, but also would be made partly by endorsing to the National Bank the bills discounted with such funds. Thus the transfer might be reduced to a bill transaction. All depends on such arrange. ments as the Directors of both Banks may arrive at, and I am convinced of Tobacco...... the good dispositions which animate

Of course the year's profits will be less, but a Bank without shareholders, of and for the People, should have no higher interest in a time of crisis than to surmount it.

Better times will soon tollow and restore the abundant source of its profits. In this manner prudent Boards the newly discovered gold in San Franof Directors have before acted on similar occasions; and it is thus that this self of the kind invitation given me by model credit institution has acted so Mr. Tauffe to visit the mines. Such and the constant repairs necessary on the Cordil a sum would not keep a Buenos Ayres lera which the company has had to disburse, it belle' of even the third water in would have been able to declare a dividend; but boots or gloves. Still we beg of our lithe directors positively assure the shareholders terary friend Mr. Daws to get this lit. that before the end of this year the debts of the tle book out to the Plate as quickly as company will be paid off, and at the next meeting possible. It may serve to show ladies in December a dividend of at least 10 per cent. with limited pin money, or even those will be declared. Our London advices say:-

"T e case of Joseph Javie: de Lirardi, who absconded a few months since, was again before the Court. It appeared that a cargo of coffee tions of title to the proceeds had arisen. Mr. De Gox, Q.C., Mr. Winslow, and Mr. Westlake apneared in the various interests. It was stated that an avrangement had been come to for the appropriation of the proceeds of the coffee to the payment in the first place of the cills given in respect to it, and that the surplus should be divided among other parties, subject to the direction of the Court.

"The report of Liebig's Extract of Meat Comcolliding parties were a ship and six pany (Limited) recommends a dividend of 6 per cent. (24s per shave) and a bonus of 8s per share. and the appropriation of £5,000 to reserve, leaving £2,881 to be carried forward.

"The teamer Marina, from Buenos Ayres, &c , was towed into Lisbon on the 6th instant, by the steamer Artos, Odessa for Falmouth, reported with loss of blades of her propeller. The following respecting the London money

market is most important -"The Economist observes that the slow operations of the rise to 6 per cent. in attracting money from abroad, or in preventing the export from England, has surprised many observers. But if we I ok carefully at the subject, this slowness may be explained very easily. . In fact, strange as it may seem, the rise to 6 per cent has scarcely

begun to work as yet at all. As we have often shown, the attractive power of a high interest de pends not on what the Bank of England charges, but on what the owner of foreign money can make. A continental banker will not send money hither, and will not delay taking money from hence except he is able to obtain an unusual rate of interest on it. If the market rate of interest follows the Bank of England rate, the foreigned can obtain this profit. He can employ his money in the discount of good bills at a high rate, and this is all which he requires. But if the market rate does not follow the rise made by the Bank he cannot so employ his money, and the effect of the move for the time is delayed No doubt certain rates of deposit are fixed in accordance with the Bank of England rate, and rise and fall with

they rise to-day and fall to morrow. A thing certain for a fixed and considerable time; but by placing money on deposit he gains nothing of the sort. For this reason, it may be laid down degree in which that rise is followed by the mar-

ket rate: On this occasion it has not been cloelyso followed. Bills were long discounted a 5 to 51, and so lately as Tuesday were discounted at 61, while six months' bills were discounted at rates between 41 and 5. Now the rate of the outer market is rising towards that of the Bank, but it is only just reaching it. The real power o the remedy has not, therefore, come into action and therefore its effect has not been immediate As to the ultimate course of the money marke there is little to be added to what we last weel said. The rise to 6 per cent. has not, as we have shown, yet been adequately tried, and we cannot know whether it has been sufficient. It would have been absurd in the Bank of England to have again raised its rate when the former rise had not produced its effect, and when, therefore, its second rise would produce no effect whatever-The world is evidently bare of gold, and we are dubious if 6 per cent. will be sufficient to attract much. But till the action of that rate has a more conclusive trial, it would be premature to form a strong opinion.

The news from Europe by the Magellan came ip true to time: although the telegram brought little in advance of what we already received per Giroude, still even a day's news from the Loudon money market is now important. The Bank rate still rules at 7 per cent., but the fall in Spanish stocks of all descriptions is said to be tre mendous, and the state of Spain causes much dismietude. Fresh advices are looked for about sunday per Boyne; it is hoped they will be omewhat more favorable. There is much said in commercial circles about

a very powerful article which has appeared in the Revista Mercantil" for the Ebro's mail. The article is entitled "No toqueis a la Reina," and treats of the money crisis and the Provincial and National Banks. The article is considered the best that has appeared on the subject, and we regret, owing to its length, our inability to publish it in English. A pamphlet containing all the articles that have appeared in the Tribuna, entitled The Provincial Bank beheaded by the National Bank," was sent round to-day: all the articles and bills on England offered at 49%. There is have been al eady read by the public in the papers; they contain much truth and sa't, and read

> The Provincial Bank, although armed with fresh powers of emission, is proceeding most cautiqualy. Yesterd by they were somewhat freer of their discounts, but the applications were very heavy, and fully disclosed the belief the commecial community had in the bank acting at once on the new law; but most parties approve of the prudence of the bank. Money is certainly a shade easier than it was, but by no means as easy as dealers and brokers expected; nor is it at all probable that there will be for some time to come any increased case in the money market, at least until the opening of the National Bank, abou which there is now not one word said, although the period allowed by law for closing the arbccription list has expired; and large cases of very beautifully engraved notes have come out rom the States.

Advices from Montevideo report returning unshine in that market. The auction sale of the old Herrera quinta for account of the Play Co. has attracted much notice. 20 solares wer sollatan average price of 4.25 per vara. It seems that the first auction sale of these .lands now about a year ago gave from 90 cts. to 1,80 per vara, and last February another sale of these ands gave 2.30 to 3.50 per vara. The present sale spite of weather, crisis and dear money, gav the splendid figure of from 3.50 to 5 pats per vays, and shareho ders now look forward to the value ncreasing to 10 and 15 pats per vara us the wor proceeds; all present sales therefore, in the lan guage of Mr. Felix Pico, of this market, are bad, The great body of buyers at the present auction concisted of Basques and Italians, Mr. Florencio Madero, the auctioneer, was himself surprized, for some well known speculators who attended the sale were shut out by the 'proletario.' The For upic the shares, and very demonstrative works, of the most useful kind, such as the vention received by the Argentiae Government | making of new atreets, &c. in the properties be-

Captain Carrol, of the Biels, was welcomed on 'Change to-day. Captain Carro' always makes fast and pleasant trips; his passengers have fired the foreign public with a desire to make a trip home in the Biela with their wondrous tales of the ple-sures of their trip. As ever, we are in debted to Captuin Carrol for late papers. WHEREAS, the National Government issued a decre on the 29th January, 1873, as follows: 1st. That the Provincial Government of Buenos Ayres in February, 1853, and September, 1858, gave perm ssion to the Royal Mail and Mensageries Imperiales to make up letter-bags at the British and French Cousulates.

2nd. That as we have now numerous lines of stamenes to Europe, Brazil and the West Coast, the motive for such permissi n no longer exi ts.

3rd. That as many mercantile houses now sell English and French postage stamps the Public will still be able to pre-pay their letters home independent of the Consuls.

4th. That the Post-Office is a branch of our internal revenue. The Minister of Foreign Affairs having published at note on this matter, dated Sop ember 4th, 1872, and the Postmaster-General and Attorney-General having given their

neral and Attorney-General having given their

neral and Attorney-General having given their views on the case,

'It is heren decreed—

1st. That the permission given by the Government of Buenos Ayres is hereby annulled.

2nd All letters ontering or leaving the Republic must pass only through the Post-Ollice.

3rd. Letters may be sent with or without the foreign stamps, but must have the Argentine stamp, until a postal convention be agreed on.

New Patent R.R. Grease

B. Ayres, Junio 23 de 1873.

YELLOW GREASE Manufactured and Patented by RICHARD GAMBLE.

Suitable only for this Climate Not for Europe.

It is manufactured to suit Summer, Winter and Spring, and is only used for Railways, Tramways and Carts, Bullock Waggons, &c.
It consists of Nine different fluid oils and solidified by a chemical process. It will resist the hottest sun, and will not get into a liquid or finid state. It is only when the action of the axies commences it becomes a rich creamy fluid, and when the action stops its again solidifies.
It is of a suitable consistency, of good lasting power, attended with but little increase of temperature even at the highest speeds, and leaves but the smallest residue in the axle boxes. A crease which is too firm will remain comparatively solid in the box, and allow the axle to become hot, whilst on the other hand one that is too thin becomes exhausted by a few miles running.

Undoubtedly at the Boca, just close to the rai-way station, or between the railway and Calle Defen a.

Why do you direct me there?

Because that place is going shead so fast that in a very short time what little land there is between the Boca and the city will be all built on, and because I have orders to sell for building plots a few ch sen squares between the rai-way and Calle Defensa and between the city and the Boca.

Boca.

How do you sell then, and on what terms?

I can sell 10 or 2 yards fronting on such principal streets as Dofensa, Balcarce, Olivaria, etc. by various depths up to 50 yards, at a price as low as \$12,000, payable without interest in fifteen monthly instalments of only \$800 eich; and befor the last instalment is paid the land will very probably be double, perhaps treble, its present value.
