Sunday was in every sense of the word a glorious day, and the popula. tion, high, low and mixed-middling, turned out in their best bibs and tuckers to enjoy it. The churches were largely attended by fashionable throngs, which, their devotions over, took to their carriages and bowled out to Flores and Palermo. The show was really marvellous. The reign of Extravagance and Luxury is evidently at its apogee now in Argentina's capital. No wonder milliners, coach-builders and horse dealers make money at lightning speed. The less tavored classes crowded the Plazas, the tram cars and the suburbs; and on their return from their drive, a considerable number of the 'bean monde' took a lazy saunter in the Flaza Retiro, which is now, we believe, an acknowledged rendezvous for the 'upper ten' on Sunday afternoons. The toilettes exhibited there on Sunday last for an hour or two were dazzling, and must have cost a dazing figure. The Flores tramway cars were filled to bursting, and fully 10,000 persons availed of them to enjoy

The cemetery is now filled, not room for twenty new graves; and where to bury the dead is the question. The monstrous stupidity of the Municipality in opening a new ceme tery in but half a square of ground positively battles credence. Instead of buying up say 20 to 30 squares of land and forming a city cemetery worthy of a city of 200,000 inhabitants, these Municipals broke their hearts in getting half a square of land two miles out of town The Italian now has the Board and the Govern ment on the hip; millions and millions the 'and around the Chacarita will now cost the country if it is desired to extend the cemetery in that direction.

There is real v something extraordinary in the returns of the Contribucion Directa. The period for paying this tax is now about to expire, and the total amount collected is but twelve millions, whilst for the same time last year the receipts of that office were over twenty millions. This shows the great scarcity of money amongst property holders. Gove: nor Acosta, at the request of Mr. Huergo, chief of the department, has further ext nded the time fifteen days, at the expiration o which a fine ensues.

The Havre steamer San Martin cleared yester day. She took full cargo, a few passengers, and

The Colina, Captain Marr, cleate to day. She goes direct, and Captain Mair, on his return trip, purposes calling at the Cape Verde islands for late cable telegram for the STANDARD.

It was stated on 'Change today that the amount

of the debt due by the Municipality to the Gas Company now reaches the sum of seven millions currency. Heavy business this, and the share stocks was more freely offered, but very little he ders without a brass faithing in the shape of dividends for the last twelve months.

The people of the town of Dolores have sublike Dolores was publicly inaugurated. This shows a move in the right direction.

On Saturday the Municipality paid to the building committee of the new municipal lazzaretto the round sum of one million currency or account.

By order of the Provincial Minister of Hacienda, Dr. Basibilbaso, some 2,500 sheep, cows horses and mares belinging to the juez de par M. G. Ramires, of Pi a, will be sold by auction on the 16th eptember. This is a significant sale The French mail steamer Erymauthe s ils to morrow; she takes thousua! French mail. What with the weekly Pacific steamers for Liverpool and the fortnightly Southampton mail steamer the imp rtance of the French mail is much dim be found in another column.

Our advices from the country districts, we re gret to say, are most unfavourable; the great drought has injured the pasturages, and the flocks for the most part are bad with scab ; this is much rous specifics advertized in our columns any sheepfarmer of even the most limited means might have cared his flock.

We hope by the Neva's mails to receive advices of the launching in the London market of th Las Heras and 25 de Mayo railway, a most ters at hand speak hopefully of the business, and the immediate prospe t of its realization.

Important Auction

Benjamin Nazar & Co. No. 154 CALLE VICTORIA.

27th & 28th August, 1873.

30 Magnificent Improved Rambouillet Rams, especially bred and modified, by selection in Breeding, to suit the country, by Wilfrid Latham, of the Cabaña de les

requirements of Flockmatters, and to the conditions of soil, climate, and pastures of the country.

A large preportion of these Rams surpass in all those qualities which are desiderata for the River Plate Breed re, the best Rams of the Cabaña Im erial of Rembouillet, as may be udged by a comparison with the best imperted either the year or last.

With admirable fattening forms, trueness shave and unequalled hardiness, most of them combine a length and fulness of staple, of free, undulating, coming character of wool, not to be as proached by any other Merine Sheep have as in Eurobe. Others again are somewhat flaer in staple, of singular orightness and strength, and particularly close.

These different degrees in the length and fulness of the stap's in the different sheep have been specially produced, under select breeding, to harmonise with the different qualities of soil and herbage in various diar ets of the cams.

The importance of this fored, with its everational qualities, is easily comprehended, through a reserve to European markets, where the long, full, and bright stapled merino wools communit to gready sale at the lightest prices, while the short weak we is are a comparative drug.

The Kams offered for sale are 16 to 16 months old, with wool corresponding to that age. Also that whole will be on view at the Auction Mart of Messre. B. Nazar and Co., 164 Calle Vict ris, for three of four days previous to the Auction.
