I should not have felt called upon to take an action in the mater if it had not been for the following circumstance

Firstly. That Mr. Clifford knew positively that I accompanied the Inspector when he inspected the telegraph, and that he knew also that there was (as there still is) complete uniformity of opinion between us on the subject.

Second v. That he made the statement question in my absence, to several personal fri nds of mine, who Il knew the interest I had taken of mine, who in the subject. In the subject.

In co sequence I applied to Mr. Clifford requesting him to inform me of the grounds he had for making such a statement, or if he were unable to comply he should withbraw his observations, informing him at the same time that, as it was a matter which directly affected my professional reputation, and as it had been so understood by my friends, what I asked of him was merely the fulfilment of a duty which as a

gentleman he could nof avoid. My request having simply met with a refusa have become convinced of the unfairness of Mr. Clifford's proceedings in this matter, and I am oblig d in consequence to beg my f.i adwhom his statement may have reached, to bear in mind the circumstances detailed in this pub

In a subsequent communication the as to remind one of what we read same Governor encloses a report from about Lorenzo de Medici or the classic Mr. Ricardo Valdés, proprietor of the entertainments of the Cinquecentisti. Progreso mining establishment, who expresses himself in these terms;-

"In 1867 I made a tour of exploration through the Sierras known as-Mexicana, Ballos, Casa Colorada, Old which was aptly expressed by a Euro-Caldera, New Caldera, Cerro Oro, pean diplomatist present when he said and Cerro Negro, in quest of iron for my reverberating works. EDITOR'S TABLE.

We spoke with Maldonado through the Cable yesterday at 10 o'clock a.m. Everything going on delightfully, though the weather was a little boisterous.

The excitement in the public mind n reference to the terrible event of Saturday evening died out yesterday; still a curious few were to be seen langing about the corner of Calles Maipu and Corrientes all day, looking at the five bullet marks in the wall, which are under the charge of a Bobby' while the affair is being investigated. The most active enquiries are being prosecuted by the Police to unravel the crime, and it is generally believed they are on the right track.

We refer in another column to the magnificent fete given on Monday evening by Don Anacarsis Lanuz and his amiable partner to the beau monde' of this city. Nothing like it in the way of a private entertainment has been seen in this city for years. The guests numbered about 600, and the crush was very great; but the arrangements were so admirable that all enjoyed themselves to the utmost.

We received yesterday from the Mount one of the best taken photographs we have ever seen. It represents the landing of the shore end of the Cable, and amongst the figures on the beach we recognise the old familiar forms of Mr. Pfeil, Mr. Evans and others, but miss that of Mr. Oldham, the popular manager of the R. The following important remarks on the state

of the American wool market have been favour-

ed us by an American merchant; they came by

"The season for the last clip of wool, which

is almost over, has been one of disappointment and disaster. Growers and dealers have been

disactisfied with the course of prices, and manu-

facturers have experienced a declining market for

their goods. There have been a number of fail-

ures, and altogether the season seems to have

been an unsatisfactory one to all parties. Si cu-

lators and dealers who were led to believe in an ad-

vance here after the destruction of a large quan

tity of wool at the Boston fire in October have

found that a large stock here, and an unfavour-

able market for wootlen goods, have been more

than enough to counter-balance the advantage

given them by that event. Prices are now de-

cidedly lower than last year, when speculation was active, for then there was a disposition to

buy for an advance. Domestic fleece in January

ruled as high as 85 cents, whereas the highest

figure for AXX' Ohio fleece is now 48 cents

By the 1st of June, 1872, there was a falling off

in prices, and the figures for average quality of

iomestic fleece wool were about 65 to 70 cents,

while the range of prices for pulled wools was

63 to 80 cents. For California wool, prices were

from 30 to 48 cents for spring and 30 to 42 cents

for autumn clip, whereas prices are now 28 to 30

cents for spring and 16 to 24 cents for full clip,

showing a decline of 18 cents per pound on

spring cip, and an average decline of about 16

cents in fall clip. At the same time Cape of

Good Hope wool was quoted at 42 to 45 cents,

while prices are now about 10 cents less than

these figures. Australian wool at that time

ruled at 60 to 72 cents, according to quality,

while to-day full quotations would be 50 to 60

cents. Buones Ayres, woo!, which was then 35

to 42 cents, may now be quoted 30 to 35 cents as

the highest. Thus it will be seen that prices are

now much lower than at this time last year, and

it is believed that the lowest figures have not yet

been reached. The causes of this unexpected

turn in affairs have been: The large supply of

wool on the market. The declining market for

wooilen goods. Manufacturers have been oblig-

ed to offer their product at favorable figures in

order to stimulate trade, They have been en-

cumbered by a large stock of goods. The strin-

"Manufacturers stocked up largely last year

at high prices (the old folly repeated); and

have been obliged to soll at a loss. The specula-

tion of last year resulted in an unhealthy ad-

vance that could not be sustained, and it is not

at all surprising, taking into consideration the

ket, that prices have shown the market decline

which the figures represent. Last spring the first

American buyer was in Australia to purchase wool. This was something new, it being custo-

mary before that to buy in London. But prices

were high here, and it was deemed an object to

purchaso in Australia in order to secure wool at

more favorable figures than in London, the ad-

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compound. ed of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their sourse in the blood and bumors; these dufferent vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Saraparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all modical man esterm moss. About fifty per cont. of Bristol's Saragagilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing vehetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly overy other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.

Important Auction

No. 154 CALLE VICTORIA.

Benjamin Nazar & Co.

27th & 28th August, 1873. 130 Magnificent Improved Rambouillet Rams, especially bred and modified, by selection in Breeding, to suit the country, by Wilfrid Latham, of the Cabaña de les

Alamos. These Rams, so well known to Breeders, are yearly rising in their estimation, by reason of their especial qualities of snitableness to the requirements of Flockmasters, and to the conditions of soil, climate, and pastures of the

requirements of Flockmasters, and to the conditions of soil, climate, and pastures of the country.

A large preportion of these Rams surpass in all those qualities which are desiderata for the River Plate Breed.rs, the best Rams of the Cabaña Im erial of Rambouillet, as may be udged by a comparison with the best imperted either this year or last.

With admirable fattening form, trueness shape and unequalled hardiness, most of them combine a length and fulness of staple, of free, undulating, coming character of wool, not to be approached by any other Merine Sheep here er in Eurobe. Others again are somewhat finer in staple, of singular brightness and strength, and parsicularly close.

These different degrees in the length and fulness of the staple in the different sheep have been specially produced, under select breeding, to harmonise with the different qualities of seil and herbage in various districts of the camps.

The importance of this breed, with its erceptional qualities, is easily comprehended, through a reference to European smarkets, where the long, full, and bright stapled merino wools command the ready sale at the lightest prices, while the short week weeks are a comparative drug.

The Rams offered for sale are 16 to 16 months cld, with wool corresponding to that age. Alse there well be included in the lot a few select two year old Rams, with ten months weel on.

The whole will be on view at the Auction Mart of Messra. B. Nazur and Co., 164 Calle Victoria, for three er four days previous to the Auction.
