Their promises to support proposal of extending MacMahon's term of office. The Count de Chambord reached Salzburg yesterday and was to receive the monarchist deputation to-day; in his reply to the deputation is expected in 3 days.

The American balloon expedition is at an end. Caught in a storm the balloon descended at Cincinnati, and the adventurous voyagers only saved their lives by a perilous leap of thirty feet.

The Douro Mails. Yesterday morning at daybreak the Douro's mails were landed before the public here was aware that she had entered N. video. This shows 'agency.'

Business connected with the balloon mania is taking Mr. Barnum—the Emperor, or President, of Showmen—to Paris, in quest of scientific opinion as to the practicability of an aerial trip across the Atlantic.

The Danish Parliament was opened yesterday without the usual speech from the throne. The Danish King and his court were, however, present during the day at the unveiling of a statue to Frederick VII., at which M. Pluy, a journalist, took occasion to refer to the event as an 'evidence of the love of the Danish people for their Schleswig brethren.'

American energy is more admirable than their law on 'breach of promise,' as it has been recently laid down by one of their judges, Neilson. The defendant in the case in question swore that he had kissed the lady, but had never once mentioned matrimony.

PROVINCIAL BANK. STATEMENT FOR OCTOBER. Comparing October with the previous month, we find a decline of nearly seven millions, or 1 per cent., in the sums at deposit, taking specie and currency together, viz: September.....644,888,950 October.....640,109,947 Decline.....4,778,003

EDITOR'S TABLE. Our friend Mr. Albert Phillips carried everything before him on Wednesday night at the Victoria Theatre. The rush for places was tremendous, and many families who had not taken the precaution to secure seats had to stow themselves away anywhere to see the Show.

Turning to the Credit side we find an increase of 47 per cent. in the item of Debts-collecting, which was 32 millions in September and has risen to 33 1/2. There is no alteration in the various Government and railway accounts, or in Land-bills.

As regards Dr. Sarsfield's assertion that the deposits in the Bank amount to 900 millions we may observe that they are considerably beyond that sum:

The telegrams from the Interior yesterday morning brought the sad intelligence that a telegraph official at the Santo Campo station had been barbarously murdered; but no particulars of the crime have yet come to hand.

The Plaza Once has now got a hole right on the high road to Flores that puts that in the mole to the blush. When going home on Wednesday evening we saw a couple of bullock carts hopelessly stuck in it, and yesterday morning another had shared a like fate. It seems nobody's business to mend this cart trap, which will probably be allowed to grow to the size of the cave of Kentucky.

The heat yesterday was soporific, 80 Fahr. in the shade. A nice state of things, with the cellar as dry as a charity sermon! Thank goodness the time for Christmas presents is coming.

The yacht Eöthen R.Y.S. has arrived at Pernambuco with a distinguished party of English noblemen and gentlemen on board. The Eöthen is a celebrated yacht, having been once the property of the late Mr. Brassey, M.P.

France is a wonderful country. One might imagine that the terrible events of 1870, the five milliards indemnity, the German occupation of the north, were all fables, as we find that her revenue from the 1st of January last up to the end of August shows the marvellous increase of one thousand millions of francs!!!

We have started another Museum with a gift presented to us yesterday, viz. a piece of a tree, bored up through the trunk by that wonderful and destructive insect the "bicho taladro."

What speculators are looking out for a rise in the staple. "On dit" that the millers and their men are cornered. The following facts and figures as to the connection between bones and bread in England may interest both the cornerers and the cornered:—

"England raised 16,000,000 bushels of wheat a century ago, now 100,000,000 a year. How came the increase is suggested in part by the fact that since 1837 she has imported over \$150,000,000 worth of bones as fertilizers.

We have great news for the Smith family. A scion of that illustrious and prolific house is now making a railway in the United States, and has hit on the luminous idea of only employing men of his own name on the works.

Somebody has written a work entitled "Useful Hints for Ugly Girls," and the Commercial Advertiser declares that the book has the smallest circulation of any literary production in the United States.

"The prospectus of the New Turkish Six per cent Loan of 28 millions sterling nominal, of which eight millions is to be offered here, is expected to be issued to-morrow evening by the Imperial Ottoman Bank.

"The financial letters from New York this morning state the overbuilding of railroads and a false dependence on the sale of bonds to meet obligations to have been the sole cause of the existing crisis, although it had been greatly intensified by simple panic.

"The receipts of the Rio Cuarto railway for the month of September amounted to 2,400 pts. The National Government has just done for the Port-Captain by collecting by the Custom House, and all the boats connected with the business have been ordered to be paid over.

"The somewhat irregular prices Cape wools fetch in London have so far no influence here. "Sleepings—54 sold. Holders, in presence of small choice offerings are very firm.

"The following is a summary of the statement of the assets and liabilities of the firm of Jay Cook and Co., of Philadelphia, New York, and Washington, prepared by them, and to be submitted to their creditors:—

"The half-yearly report of the City of Buenos Ayres Tramways Company shows the total receipts from January to June to have been 434,423, and the working expenses 355,858, leaving with a previous balance of 21,240 an available total of 218,805, and recommends a dividend of 8s. per share on the first and second issues and 4 on the third issue, and an addition of 24s. to the contingent fund, which will then amount to 28,000.

"It should be understood, with regard to the appointment of Messrs. Morton, Rose & Co. relative to the agency of the Department of Foreign Affairs, higher paid by Messrs. Clava, Hubert & Co., and that the agency of the Naval Department of the Government remains with Messrs. Jay Cook, McCulloch & Co., of London."

"The sale by public auction of the fine estancia of the late Charles Parsons, American Consul took place at the Bolso, Montevideo, yesterday. The estancia is a fertile land, department of Paysandú, and adjoins the Estancia de los Alemanes, and Mr. Moon's agency. It was sold for 26,200 pts. Mr. Vidal buyer."

"The National Government has concluded a mail contract for a year with Messrs. Aguirre and Murga for steam service once a month to Patagonia sailing at Bahia Blanca, at a monthly subsidy of 1,300 pts.

"The receipts of the Rio Cuarto railway for the month of September amounted to 2,400 pts. The National Government has just done for the Port-Captain by collecting by the Custom House, and all the boats connected with the business have been ordered to be paid over."
