TELL IS WHAT CURED YOU? Sick unto death. When the sick dir, everybod tell us what they died of. Is it not right, then, that when the sick recover, all the world should know what cured them? And yet thousands are cured of deadly the by Bristol's Saus year, la, or whom the public never hear. Cases that when know what cured them? And yet thousands are cured of deadly the by Bristol's Sarsepar, la, r whom the public nover hear. Cases that approach the sublimity of miracles—such as the of the boy, James Wyckoff who was lit-rally wrenched from the jaws of death, when more than half devoured by scrofu a—of course find their way into print. Perhaps a bundred such he estartled soc ety through the columns of leeding journals and medical priodicis. But Bristol's Sarsaparilla has wrought thousands, aye, t-ns of thousands, ef cures, after thysicians had shaken their heads and said, "no hope." Everywhere, at all seasons, it is salent working wond rs. Would that, for the saky of humanity, the whole t uth in relation to the properties were universally known. As a rule Bristol's Sugar-coated Pile should be used at the same time with the Sarsaparilla. They carry off from the system the diseased humors set free by the latter.

The State being the proprietor of the opera lately burned down, is held to be responsible for damages. In the vicinity of the late building were, as is the custom everywhere, nume-

rous small shops, forming arcades, and selling fancy goods, the generic name being 'articles de Paris.' When the fire broke out the authorities assisted the petty shopkeepers to remove their goods and chattels to places of security. Of course, in the hurry many articles were injured, it being a moment when the ordinary packing injunctions with care,' 'this side up,' and 'to be kept dry,' could not be reasonably observed. Well, the shopkeepers, to show their gratitude, have sued the Government for damaging their merchandise. They ought to in clude an item for anxiety of mind. In France, it is evident, the people relytoo much on the State. During the Commune Parisians prayed to be delivered from its benign rule; and when the cannon and mitrailleuses responded to the appeal by creating citizens who fled their homes instead sault and battery. December 30th, 1873. Ounces 400 Cedulas

There was a sudden turn in the stock market to-day owing to the rather unpleasant news about the health of the city, and the closing of the Boca by the Port-captain, a measure which fairly stunned the whole commerce of the city. It seems that yesterday some quarantine passengers entered the Boca, and this caused gre t alarm, vitness a general revival and start Boca in toto on the principle of "boca cerrada no entra mosca". Bristol's Sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggitals, who have had many years' experience. It is not a simple extract from one article, but is compound, ed of extracts from a number of Roote, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their sourse in the blood and bumors; these different vegetable extract are combined in such a way vas to retain, in so full strength, the special curstive virtue possessed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical men esteem moss. About fifty per cont. of Reintly Sarsacailla consists of the secontartated.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. COLLIS BROWNE was undoubtedly the Inventor of CHLORODYNE hat the story of the Defendant, Froeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne, that they prescribe it largely, and mean no other than Dr. Browne's.—The Times, July 12, 1864.
