Dr. Kenealy vesterday opened his speech in reply to the evidence, and in doing so invoked the assistance of the Almighty, in order that the jury might come to a right decision. He knew. he said, that he should make a thousand enemies, that he would become an exile; but he would rather walk the streets in poverty, having discharged his duty, than be raised to the highest dignities of the bench, or ride in gorgeous equipages, with the consciousness that he had abandoned the cause of right. He denounced the prosecution as wicked and profligate; charged it with being implicated in forgery, perjury, and bribery; and adopted Mr. Whalley's suggestion that it was a Jesuitical device. The learned counsel was "pulled up" once he made.

Your Excellency tells us " to at tend to the matters that come within our range," thereby implying that we have no right to make suggestions to the Government.

Mr. Minister, we should rather have expected the thanks of the Government for the energy and zeal we exhibited in the honorary task entrusted to us by Government.

How do you expect that we are to say nothing fabout Lazzarettos when this is a point so vital to immigrants ! Surely Your Excellence torgets that on the 11th of March your Govern ment wrote to us about taking chargeof the Lazzarettos, and Your Excellency added-

"the Immigration Board possesses the special elements that fit it to take charge as well of floating Lazzarettos as of those on terra firma." But Your Excellency now on the

MONTEVIDEO. PARLIAMENTARY DIFFICULTIES.

The Legislature of Banda Oriental is at present in difficulties with Pres. sides. Ellauri and also with the Chief of the Police. The Permanent Committee passed a note on the 1st December to the Government, declaring that the President had violated the Constitution by sending Dr. Perez Gomar to Europe, as commissioner of the proposed London loan for £5,80 ,000 sterling. It seems Art. 89 of the Oriental Constitution says. "No Minister can absent himself from the country on any pretext, nor for 6 months after

The news of Cholera at B. Bristol's sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compound, ed of extracts from a number of Routs, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their source in the blood and bumors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Hondurss, is that which we use in this preparation; it is the kind which all medical man esteem moss. About fifty per cont. of Bristol's Sarsagarilla consists of the concentrated extract, the remainder, as above stated being extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing vohetable substances. It does not contain any thing that is dagerous or injurious to health; and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsapatitle.

rilla.

By having our own agents at he places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to evercise that constant care in solection which insures uninformity of excellence and we spare no money and no effort to procure the best—and only the best—of every article ontering into their composition; and it is with the most abiding confidence we say, to be sick of all nations and all countries, that, in Bristol's Sarsaparilla you have a remedy more reliable than saparilla you have a remedy more reliable than any before offered to you, and which will no diappoint eyou in the cure of.

use of the Sarsaparilly must be continued a considerable time, especially for those that are hereditary or constitutional in their nature—such as
Scrofula: but a faithful compliance with the
directions will always relieve and mitigate, and
in a geeat majority of cases will effect a complete
cure. It will also be found, in all of the above
diseases, that a cure will be greatly hacted by
using our Bristol's Sugar-coated Pilla, in moderate does, in connection with the Sarsaparilla;
they carry off large quantities of morbific or dinased matter set free in the system by the Sarsaparilla, and in this way facilitate the return to
