NEW ADVERTISEMENTS Madame Laforgue TELL US WHAT CURED YOU.—The dot death. When the sick dir, everyholy can tell what they died of. Is it not right, then, that when the sick recover, all the world should know wast cared them? And yet thousands are cured of deadly iles by Bristel's Sarsaperille, whom the public never hear. Cases that my proach the sublimity or manches-such as that proach the sublimity or manches-such as that of the boy, James Wyckeff who was literally wrenched from the jaws of death, when more than half devoured by sendals—of causes find their way integrited. But Bristol's Sarsaperilla has wrought thousands uye, tens of thousands, of cares, after thysicians had shaken their heads and said, "no hope." Extrembers, at all seasons, it is sileafly working wond rs. Would that, for the sake of humenity, the whole truth in relation to its properties were universally known. As a rule, Bristol's Sarsa-coated Pril's should be used as the same time with the Sarsaperilla. They take off from the system the diseased humors secreted the latter. ANOTHER RUPTURE.

South America is, diplomatically speaking, the most troublesome of the five quarters of the Globe. The political world is just as subject to ruptures and convulsions, as the physical is to earthquakes and hurricanes. Government.

Last week we should have almost bet that it a rupture soon occurred IMPORTANT FROM PARAGUAY. between Pres. Sarmiento's Government and one of our neighbors it would be with either Chile or Brazil. At any rate we can afford to have a rupture with the Republic of Uruguay rather than with either of the others, and if we must be in hot water with somebody the present rupture is to be considered more or less lucky. It would be, however, much better if we could live at peace with all the world; and no matter on which side the merits lie in the present dispute both the Argentine and Oriental Governments will get a reputation similar to that of the restless Republics of Central América, always quarrelling about something or nothing.

Montevideo is at present in a very slippery way as regards her foreign relations. Great Britain has broken off diplomatic intercourse; France has a reclamation about five million francs lent during the long siege; Brazil has had two or three sharp altereations of late, and now relations are suspended with Buenos Ayres.

On the other hand, the Argentine Republic has two or three questions portance to the step of Pres. Ellauri, times. The tone of bitterness and jeasimilar to that between France and with Chile about the right to Patagoprevious time. The occupation of Villa we have troubles on all sides.

It is only six or seven years since the Government of M. Video had to the Government of M.Video had to ney, was broken into the other night, emit postage stamps of 10 or 20 cents but all the damage done was breaking with Newton unless it's the general for small change, and as History repeats itself we find that a similar crisis is now prevalent at that city. The pers. Board of Credit having called in and burned nearly all the paper money, without providing anything less than is a complete "bouleversement" of days, when he lived and flourished on everyday trade. In fact a man may have nothing less than £1 sterling to pay for a bottle of beer, and gold is at mit to a charge of 2 or 3 per cent for

changing a sovereign. To remedy this state of things is would be necessary either to do as they used in Rio, by allowing the va. rious tramway and steamboat companies to emit tickets or buttons for small change, which would pass curient in the shops, markets and theatres; or to order an emission of paperguarantee, and this is the project now presented by Deputy Lacueva to the my own case. To the Editors of the Daily STANDARD, Gentlemen: Another revolution in poor Paraguay. When the train was taken at Patino Cue, it was generally thought to be the action of a few discontented soldiers, but such now turns out not to be the case. You will remember that in my last I stated that the arrangement made with Caballero was highly unsatisfactory to nearly all his that the government recently took in the springs and rivers with their neverkicking out Minister Soteras, and causing Bareiro to resign, made it much more so, the result of all which is, that Major Morlas has collected together nearly 500 men, all well armed, outside. On Saturday last the mail mind a slice of lemon, and lemon reand still keeps possession of the train engine, with one carriage, took out calls to us lemonade, and mentally or Municipalities when two-thirds of or from there to the Salto de Guayra. This is a dreadful state of things when calmly considered, and I really cannot see how or when matters are likely to improve. The loan was our plank of salvation. but that, it appears, is still in the distance; so that who knows how the vessel is now to be kept affoat? The Chambers, through pettilogging rivality on the part of would-be political economists, have rejected all the different projects for small emission; consequently, in addition to our other difficulties, we are suffering a complete dearth of small change, which is urgently relions, if emitted, would always be something to conversion, but give us the benefit of always remaining in circulation. The great news of the day was the rumpus beween the Oriental and Argentine Governments At first few could believe that matters had come to so serious a pass as a rupture of all friendly relations between the two Governments, but there was no doubting the news, since the Oriental Consul General held the original decree that Tej dor at about 1 o'clock to-day. As a matter the market-pe-ple asked what next? It seems that the Argentine Consul will remain in Montevideo, and the Oriental Consulhere, but merely
