Preparation. It is a Domestic Disinfectant.

Copy of Analysis by Professor Kyle. National College, Buenos Ayres, November 29th 1879.

Messrs. M. Forrester & Co., Buenos Ayres. Gentlemen—I have at your request made a careful examination of the sample of JEYES'S SHEEP DIP you handed to me on the 18th inst. I find it to be a well made preparation of Phenols and other Tar products, combined with soap, retaining the liquid form and easily mixible with water, from which it does not

afterwards separate The proportion of active ingredients amounts to rather over 80 per cent. it is free from Mineral Poisons and from Custic Alkalies. In my opinion it is well worth the attention of Sheepfarmers, and will be found by them to be convenient, safe, and I do not doubt, very efficacious as a sheep Dip. From the readiness with which the preparation can be mixed with cold water it ought to prove most acceptable as a omestic disinfectant, being more convenient than crude Carbolic Acid or the disinfectant powders so frequently employed.

> I am, Gentlemen, your obedient servant, JOHN J. J. KYLE, Professor of Chemistry.

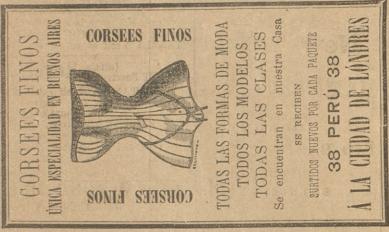

Extracts from Testimonials

From Mr. Alex. Stewart, Bailiff to H. D. Pochin, Esq. Rodnent Hall. Wales-

"The Sheep Dip is the best that I have ever used. I have not seen a single Maggot on any of the Sheep since we used it. The wool looks beautiful, and to all appearance improved in quality. I feel satisfied it will be an invaluable boon to our large Sheepfarmers in the Colonies, and it only wants to be ap-

Howard's New Triple Plough.

Simple, Strong, Durable, and Efficient,

The use of Steam Ploughs has led to a demand for Horse Ploughs of greater width and thousands of the above are already in use. They are made entirely of wrought iron and steel, and to pack in the smallest compass. The depth is regulated by the lever, and may be done as the plough proceeds. At the ends, the plough is lifted out of
