most every manufacturer, with one set of cards and upwards, appear in our markets, with the money or its equivalent, and the goods, in fact, are very abundant indeed. In this state, it is difficult to find a greater number of all descriptions of wools. In the present district of state of things, we cannot, with my knowledge, give you quotations of my description of wool. Therefore, we have done it best to let you know what they are, have been for the last few months.

Folded Wool.—There is a very little, if any, good regular Sheep Skin. Sheep Skin, 20 lbs. per square yard, 100% wool, to appear and are readily taken at 60 to 50c. Some scattering mixed lots at 45 to 50c.

Foreign Wool.—All descriptions have advanced. The demand for actual use is increasing. If the anticipated demand for Army Clothing should take place, the presumption is prices would rule above any previous rates.

California Wool.—There are no woolen mills in the interior. The influence of San Francisco has greatly influenced us to exert such a great influence on these wool.

Canadian Wool.—There is very little, if any, on the market.
